

Designation: C1364 – 07

Standard Specification for Architectural Cast Stone¹

This standard is issued under the fixed designation C1364; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

1. Scope

- 1.1 This specification covers the physical requirements, sampling, testing, and visual inspection of architectural cast stone.
- 1.2 Units covered by this specification may be made from facing and backup mixtures or from a homogeneous mixture. Either wet cast or dry cast production methods may be used.
- 1.3 Surface textures, finish, color, or other special features should be specified separately by the purchaser.
- 1.4 The values stated in inch-pound units are to be regarded as the standard. The values given in parentheses are for information only.
- 1.5 This standard does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this standard to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.

2. Referenced Documents

2.1 ASTM Standards:²

A615/A615M Specification for Deformed and Plain Carbon-Steel Bars for Concrete Reinforcement

C33 Specification for Concrete Aggregates

C150 Specification for Portland Cement

C173/C173M Test Method for Air Content of Freshly Mixed Concrete by the Volumetric Method

C231 Test Method for Air Content of Freshly Mixed Concrete by the Pressure Method

C260 Specification for Air-Entraining Admixtures for Concrete

C426 Test Method for Linear Drying Shrinkage of Concrete Masonry Units

C494/C494M Specification for Chemical Admixtures for Concrete

C618 Specification for Coal Fly Ash and Raw or Calcined

¹ This specification is under the jurisdiction of ASTM Committee C27 on Precast Concrete Products and is the direct responsibility of Subcommittee C27.20 on Architectural and Structural Products.

Current edition approved June 1, 2007. Published June 2007. Originally approved in 1997. Last previous edition approved in 2006 as C1364 – 06. DOI: 10.1520/C1364-07.

Natural Pozzolan for Use in Concrete

C666/C666M Test Method for Resistance of Concrete to Rapid Freezing and Thawing

C979 Specification for Pigments for Integrally Colored Concrete

C989 Specification for Slag Cement for Use in Concrete and Mortars

C1194 Test Method for Compressive Strength of Architectural Cast Stone

C1195 Test Method for Absorption of Architectural Cast Stone

D1729 Practice for Visual Appraisal of Colors and Color Differences of Diffusely-Illuminated Opaque Materials

D2244 Practice for Calculation of Color Tolerances and Color Differences from Instrumentally Measured Color Coordinates

2.2 ACI Standards:

318 Building Code Requirements for Reinforced Concrete³

3. Terminology

- 3.1 Definitions:
- 3.1.1 *cast stone*, *n*—an architectural precast concrete building unit intended to simulate natural cut stone.
- 3.1.2 dry cast concrete products, n—manufactured from zero slump concrete. 7200 7ad818/astm-c1364-07
- 3.1.3 wet cast concrete products, n—manufactured from measurable slump concrete.

4. Materials and Design

- 4.1 Raw Materials—Materials shall conform to the following specifications:
 - 4.1.1 *Portland Cement*—Specification C150.
- 4.1.2 Aggregates—Specification C33, except for grading requirements.
- 4.1.3 *Coloring Pigment*—Specification C979, except that carbon black pigment shall not be used.
 - 4.1.4 Reinforcement—Specification A615/A615M.
- 4.1.5 *Chemical Admixtures*—Chemical admixtures shall conform to the following applicable specifications:
- 4.1.5.1 *Air Entraining Admixtures*—Specification C260, except for dry cast concrete products.
