# Contents

|   |    |
|---|----|
| Intellectual Property Rights .....  | 10 |
| Foreword.....   | 10 |
| Modal verbs terminology.....  | 10 |
| Introduction .....  | 11 |
| 1    Scope .....  | 12 |
| 2    References .....   | 12 |
| 2.1    Normative references .....   | 12 |
| 2.2    Informative references.....  | 13 |
| 3    Definitions and abbreviations.....                                   | 14 |
| 3.1    Definitions.....   | 14 |
| 3.2    Abbreviations .....  | 16 |
| 4    Requirements.....  | 19 |
| 4.0    General .....  | 19 |
| 4.1    Run time environment timing constraints .....                      | 20 |
| 4.1.1    Abstract (informative).....                                      | 20 |
| 4.1.2    Background (informative).....                                    | 20 |
| 4.1.2.1    Use case - Network authentication.....                         | 20 |
| 4.1.3    Requirements .....   | 20 |
| 4.1.4    Interaction with existing features (informative).....            | 20 |
| 4.2    Launch Application feature .....                                   | 20 |
| 4.2.1    Abstract (informative).....                                      | 20 |
| 4.2.2    Background (informative).....                                    | 20 |
| 4.2.3    Requirements .....   | 21 |
| 4.2.4    Interaction with existing features (informative).....            | 22 |
| 4.3    Mapped file support on the UICC .....                              | 22 |
| 4.3.1    Abstract (informative).....                                      | 22 |
| 4.3.2    Background (informative).....                                    | 22 |
| 4.3.3    Requirements .....   | 22 |
| 4.3.4    Interaction with existing features (informative).....            | 23 |
| 4.4    Extension of logical channels.....                                 | 23 |
| 4.4.1    Abstract (informative).....                                      | 23 |
| 4.4.2    Background (informative).....                                    | 23 |
| 4.4.2.1    Typical problem situation .....                                | 23 |
| 4.4.2.2    Possible problem solution .....                                | 23 |
| 4.4.2.3    Use cases.....   | 23 |
| 4.4.2.3.1    Use case - JSR 177 applications .....                        | 23 |
| 4.4.2.3.2    Use case - PC connection .....                               | 23 |
| 4.4.3    Requirements .....   | 23 |
| 4.4.3.1    General requirements .....                                     | 23 |
| 4.4.3.2    Backward compatibility requirements.....                       | 24 |
| 4.4.4    Interaction with existing features (informative).....            | 24 |
| 4.5    Secure channel to secure local terminal interfaces .....           | 24 |
| 4.5.1    Abstract (informative).....                                      | 24 |
| 4.5.2    Background (informative).....                                    | 24 |
| 4.5.2.0    General.....   | 24 |
| 4.5.2.1    Use case - User interface.....                                 | 25 |
| 4.5.2.2    Use case - UICC as a control point for device management ..... | 26 |
| 4.5.2.3    Use case - DRM and distributed applications .....              | 27 |
| 4.5.2.4    Use case - Toolkit commands protection .....                   | 28 |
| 4.5.3    Requirements .....   | 29 |
| 4.5.3.0    General .....  | 29 |
| 4.5.3.1    End point requirements .....                                   | 29 |
| 4.5.3.2    Integrity requirements .....                                   | 29 |
| 4.5.3.3    Confidentiality requirements.....                              | 29 |

|          |  |    |
|----------|--|----|
| 4.5.3.4  | Authentication requirements .....                                | 30 |
| 4.5.3.5  | Audit/Compliance requirements .....                              | 30 |
| 4.5.3.6  | Policy requirements.....   | 30 |
| 4.5.3.7  | Transport Protocol requirements.....                             | 30 |
| 4.5.4    | Interaction with existing features (informative).....            | 30 |
| 4.5.4.1  | Logical Channels.....  | 30 |
| 4.5.4.2  | CAT access over a modem interface.....                           | 30 |
| 4.6      | Authenticate command longer than 255 bytes.....                  | 30 |
| 4.6.1    | Abstract (informative).....                                      | 30 |
| 4.6.2    | Background (informative).....                                    | 31 |
| 4.6.2.1  | Use case - EAP packet exchange .....                             | 31 |
| 4.6.3    | Requirements .....   | 31 |
| 4.6.3.1  | General requirements .....                                       | 31 |
| 4.6.3.2  | Backward compatibility requirements.....                         | 31 |
| 4.6.4    | Interaction with existing features (informative).....            | 31 |
| 4.7      | CAT mechanisms to indicate the bearer connection status .....    | 31 |
| 4.7.1    | Abstract (informative).....                                      | 31 |
| 4.7.2    | Background (informative).....                                    | 31 |
| 4.7.2.1  | Use case - Availability of network bearers .....                 | 31 |
| 4.7.2.2  | Use case - Network connection temporarily lost.....              | 32 |
| 4.7.2.3  | Use case - Availability of local bearers.....                    | 32 |
| 4.7.3    | Requirements .....   | 32 |
| 4.7.3.1  | Requirement 1 - Network bearer connection status.....            | 32 |
| 4.7.3.2  | Requirement 2 - Local bearer connection status.....              | 32 |
| 4.7.4    | Interaction with existing features (informative).....            | 32 |
| 4.8      | New UICC-Terminal interface .....                                | 32 |
| 4.8.1    | Abstract (informative).....                                      | 32 |
| 4.8.2    | Background (informative).....                                    | 33 |
| 4.8.2.0  | General .....  | 33 |
| 4.8.2.1  | Use case - multimedia file management.....                       | 33 |
| 4.8.2.2  | Use case - MMI on UICC .....                                     | 33 |
| 4.8.2.3  | Use case - real-time multimedia data encryption/decryption ..... | 33 |
| 4.8.2.4  | Use case - storage of terminal applications on the UICC.....     | 33 |
| 4.8.2.5  | Use case - direct and indirect UICC connection to a PC.....      | 33 |
| 4.8.2.6  | Use case - web server on Smart Card.....                         | 34 |
| 4.8.2.7  | Use case - antivirus on UICC .....                               | 34 |
| 4.8.2.8  | Use case - big phonebook management from the UICC .....          | 34 |
| 4.8.2.9  | Use case - reduce personalization time .....                     | 34 |
| 4.8.2.10 | Use case - generic TCP/IP connectivity .....                     | 34 |
| 4.8.3    | Requirements .....   | 35 |
| 4.8.3.1  | General requirements .....                                       | 35 |
| 4.8.3.2  | Backward compatibility requirements.....                         | 35 |
| 4.8.4    | Interaction with existing features (informative).....            | 36 |
| 4.9      | UICC based application acting as a server .....                  | 36 |
| 4.9.1    | Abstract (informative).....                                      | 36 |
| 4.9.2    | Background (informative).....                                    | 36 |
| 4.9.3    | Requirements .....   | 36 |
| 4.9.4    | Interaction with existing features (informative).....            | 36 |
| 4.10     | API for applications registered to a Smart Card Web Server ..... | 36 |
| 4.10.1   | Abstract (informative).....                                      | 36 |
| 4.10.2   | Background (informative).....                                    | 37 |
| 4.10.2.0 | General .....  | 37 |
| 4.10.2.1 | Registration of an application to the SCWS .....                 | 37 |
| 4.10.2.2 | Data exchange between SCWS and application.....                  | 37 |
| 4.10.2.3 | Issuing Proactive Commands .....                                 | 37 |
| 4.10.3   | Requirements .....   | 37 |
| 4.10.4   | Interaction with existing features (informative).....            | 38 |
| 4.11     | Specific UICC environmental conditions.....                      | 38 |
| 4.11.1   | Abstract (informative).....                                      | 38 |
| 4.11.2   | Background (informative).....                                    | 38 |
| 4.11.2.0 | General .....  | 38 |
| 4.11.2.1 | Use case - Automotive service .....                              | 38 |

|            |  |    |
|------------|--|----|
| 4.11.2.2   | Use case - Remote monitoring camera.....                                       | 38 |
| 4.11.2.3   | Use case - Remote stock monitoring for vending machines .....                  | 38 |
| 4.11.2.4   | Use case - Online electronic advertising board .....                           | 38 |
| 4.11.3     | Considerations (informative) .....   | 38 |
| 4.11.4     | Requirements .....   | 39 |
| 4.11.4.1   | Requirement 1: Temperature range .....   | 39 |
| 4.11.4.2   | Requirement 2: Humidity.....   | 39 |
| 4.11.5     | Interaction with existing features (informative).....                          | 39 |
| 4.12       | Introduction of high density memory technology in UICC.....                    | 39 |
| 4.12.1     | Abstract (informative).....  | 39 |
| 4.12.2     | Background (informative).....  | 39 |
| 4.12.2.1   | Use case - Enhanced UICC features.....   | 39 |
| 4.12.3     | Requirements .....   | 40 |
| 4.12.4     | Interaction with existing features (informative).....                          | 40 |
| 4.13       | Power supply indication mechanism .....  | 40 |
| 4.13.1     | Abstract (informative).....  | 40 |
| 4.13.2     | Background (informative).....  | 40 |
| 4.13.2.1   | Use case - generic situation.....  | 40 |
| 4.13.2.2   | Use case - USIM application with toolkit applications .....                    | 41 |
| 4.13.3     | Requirements .....   | 41 |
| 4.13.3.1   | General Requirements .....   | 41 |
| 4.13.3.2   | Backward compatibility requirements.....                                       | 41 |
| 4.13.4     | Interaction with existing features (informative).....                          | 41 |
| 4.14       | Internet Connectivity up to UICC applications .....                            | 42 |
| 4.14.1     | Abstract (informative).....  | 42 |
| 4.14.2     | Use Cases (informative).....   | 42 |
| 4.14.2.0   | General .....  | 42 |
| 4.14.2.1   | Use Case - Card OTA management .....   | 42 |
| 4.14.2.2   | Use Case - User local access from the terminal to a card server.....           | 42 |
| 4.14.2.3   | Use Case - Remote access to an identity server in the card .....               | 43 |
| 4.14.2.4   | Use Case - User access from a locally connected device to a card service ..... | 43 |
| 4.14.3     | Requirements .....   | 43 |
| 4.14.4     | Interaction with existing features (informative).....                          | 43 |
| 4.15       | Contactless UICC services .....  | 43 |
| 4.15.1     | Abstract (informative).....  | 43 |
| 4.15.2     | Background (informative).....  | 44 |
| 4.15.2.0   | General .....  | 44 |
| 4.15.2.1   | Use case - Access .....  | 44 |
| 4.15.2.1.1 | System aspects of use case .....   | 44 |
| 4.15.2.1.2 | UICC role in use case .....  | 44 |
| 4.15.2.2   | Use case - Tickets .....   | 45 |
| 4.15.2.2.0 | General .....  | 45 |
| 4.15.2.2.1 | System aspects of throughput ticketing scenario .....                          | 46 |
| 4.15.2.2.2 | System aspects of high priced ticketing scenario .....                         | 46 |
| 4.15.2.2.3 | UICC role in use case .....  | 46 |
| 4.15.2.3   | Use case - Digital rights .....  | 48 |
| 4.15.2.3.1 | System aspects of contactless digital rights .....                             | 48 |
| 4.15.2.3.2 | UICC role in use case .....  | 48 |
| 4.15.2.4   | Use case - Payment application.....  | 48 |
| 4.15.2.5   | Use case - Loyalty application .....   | 49 |
| 4.15.2.6   | Use case - Health care application .....                                       | 50 |
| 4.15.2.7   | Use case - Retail.....   | 50 |
| 4.15.2.7.1 | System aspects of the use case .....   | 50 |
| 4.15.2.7.2 | UICC role in the use case .....  | 50 |
| 4.15.2.8   | Consideration about multiple applications in peer to peer mode .....           | 51 |
| 4.15.2.8.1 | System aspects of multiple applications in peer to peer mode .....             | 51 |
| 4.15.2.8.2 | Service discovery in peer to peer mode .....                                   | 51 |
| 4.15.2.8.3 | Application connection in peer to peer mode .....                              | 51 |
| 4.15.2.8.4 | Customer care in peer to peer mode .....                                       | 51 |
| 4.15.2.9   | Considerations about the P2P technology .....                                  | 51 |
| 4.15.2.10  | Consideration about multiple HCI Hosts in card emulation mode.....             | 52 |
| 4.15.3     | Requirements .....   | 53 |

|             |   |    |
|-------------|---|----|
| 4.15.3.1    | Physical interface requirements .....   | 53 |
| 4.15.3.2    | Multi-protocol concurrent operation requirements .....                            | 53 |
| 4.15.3.3    | Contactless communication modes requirements .....                                | 53 |
| 4.15.3.4    | Compatibility with existing contactless systems requirements .....                | 53 |
| 4.15.3.5    | Parameters to be transported by the CLFIP requirements .....                      | 53 |
| 4.15.3.6    | Application integration requirements .....  | 54 |

| 4.22     | Multicast dataflow in UICC .....  | 75 |
| 4.22.1   | Abstract (informative).....   | 75 |
| 4.22.2   | Use cases (informative) .....   | 75 |
| 4.22.2.1 | Use case - Broadcast data services .....  | 75 |
| 4.22.2.2 | Use case - Mobile TV related services .....   | 76 |
| 4.22.3   | Requirement for multicast dataflow (subscription and dataflow reception) .....              | 76 |
| 4.22.4   | Interaction with existing features (informative).....                                       | 76 |
| 4.23     | New type of data storage and access .....   | 76 |
| 4.23.1   | Abstract (informative).....   | 76 |
| 4.23.2   | Background (informative).....   | 76 |
| 4.23.2.0 | General.....  | 76 |
| 4.23.2.1 | Use case - Taking a picture from the terminal storing it on the UICC and retrieving it..... | 76 |
| 4.23.2.2 | Use case - Storing and protecting data through operator portal .....                        | 77 |
| 4.23.2.3 | Use case - Storing a service description .....  | 77 |
| 4.23.2.4 | Use case - Managing multimedia content via UICC to a remote server.....                     | 77 |
| 4.23.2.5 | Use case - Partitioning UICC memory .....   | 77 |
| 4.23.2.6 | Use case - UICC content depending on user authentication .....                              | 77 |
| 4.23.2.7 | Use case - Migration to a USB UICC without ICCD class .....                                 | 77 |
| 4.23.3   | Requirements .....  | 78 |
| 4.23.3.1 | Data storage and structure requirements .....   | 78 |
| 4.23.3.2 | Data protection requirements .....  | 78 |
| 4.23.3.3 | Local and remote access requirements .....  | 78 |
| 4.23.4   | Interaction with existing features (informative).....                                       | 79 |
| 4.24     | CAT access over a modem interface .....   | 79 |
| 4.24.1   | Abstract (informative).....   | 79 |
| 4.24.2   | Background (informative).....   | 79 |
| 4.24.2.0 | General.....  | 79 |
| 4.24.2.1 | Use case - Extending CAT to the connected entity capabilities .....                         | 79 |
| 4.24.2.2 | Use case - Using CAT for data acquisition and control in an M2M device .....                | 80 |
| 4.24.2.3 | Use case - Addition of CAT support by adding a CAT extender device .....                    | 80 |
| 4.24.3   | Requirements .....  | 80 |
| 4.24.3.1 | General requirements .....  | 80 |
| 4.24.3.2 | Connected device registration requirements .....  | 81 |
| 4.24.3.3 | Legacy support requirements .....   | 81 |
| 4.24.3.4 | Extended support requirements.....  | 83 |
| 4.24.3.5 | CAT over modem-client interface requirements.....   | 83 |
| 4.24.3.6 | Connected entity termination requirements .....   | 83 |
| 4.24.3.7 | Security requirements.....  | 84 |
| 4.24.4   | Interaction with existing features (informative).....                                       | 84 |
| 4.25     | UICC-Terminal applications and services over USB .....                                      | 84 |
| 4.25.1   | Abstract (informative).....   | 84 |
| 4.25.2   | Background (informative).....   | 84 |

|            |  |    |
|------------|--|----|
| 4.25.2.1   | Use case - Migration of existing services over IP .....                    | 84 |
| 4.25.2.2   | Use case - End-user interaction.....                                       | 85 |
| 4.25.2.3   | Use case - Integration of UICC services into terminal user interface ..... | 85 |
| 4.25.2.4   | Use case - Access status of communication services .....                   | 85 |
| 4.25.2.5   | Use case - Access to specific terminal hardware.....                       | 85 |
| 4.25.2.6   | Use case - Interaction between terminal and UICC applications .....        | 86 |
| 4.25.3     | Requirements .....   | 86 |
| 4.25.3.1   | General framework requirements.....  | 86 |
| 4.25.3.2   | Framework service discovery and management requirements.....               | 86 |
| 4.25.3.3   | Interaction between UICC and terminal applications requirements.....       | 87 |
| 4.25.3.4   | Framework security requirements .....                                      | 87 |
| 4.25.3.5   | User Interface requirements .....  | 87 |

# Intellectual Property Rights

## Essential patents

IPRs essential or potentially essential to normative deliverables may have been declared to ETSI. The information pertaining to these essential IPRs, if any, is publicly available for **ETSI members and non-members**, and can be found in ETSI SR 000 314: *"Intellectual Property Rights (IPRs); Essential, or potentially Essential, IPRs notified to ETSI in respect of ETSI standards"*, which is available from the ETSI Secretariat. Latest updates are available on the ETSI Web server (<https://ipr.etsi.org/>).

Pursuant to the ETSI IPR Policy, no investigation, including IPR searches, has been carried out by ETSI. No guarantee can be given as to the existence of other IPRs not referenced in ETSI SR 000 314 (or the updates on the ETSI Web server) which are, or may be, or may become, essential to the present document.

## Trademarks

The present document may include trademarks and/or tradenames which are asserted and/or registered by their owners. ETSI claims no ownership of these except for any which are indicated as being the property of ETSI, and conveys no right to use or reproduce any trademark and/or tradename. Mention of those trademarks in the present document does not constitute an endorsement by ETSI of products, services or organizations associated with those trademarks.

---

# Foreword

This Technical Specification (TS) has been produced by ETSI Technical Committee Smart Card Platform (SCP).

The contents of the present document are subject to continuing work within TC SCP and may change following formal TC SCP approval. If TC SCP modifies the contents of the present document, it will then be republished by ETSI with an identifying change of release date and an increase in version number as follows:

Version x.y.z

where:

- x the first digit:
  - 0 early working draft;
  - 1 presented to TC SCP for information;
  - 2 presented to TC SCP for approval;
  - 3 or greater indicates TC SCP approved document under change control.
- y the second digit is incremented for all changes of substance, i.e. technical enhancements, corrections, updates, etc.
- z the third digit is incremented when editorial only changes have been incorporated in the document.

---

# Modal verbs terminology

In the present document "**shall**", "**shall not**", "**should**", "**should not**", "**may**", "**need not**", "**will**", "**will not**", "**can**" and "**cannot**" are to be interpreted as described in clause 3.2 of the [ETSI Drafting Rules](#) (Verbal forms for the expression of provisions).

"**must**" and "**must not**" are NOT allowed in ETSI deliverables except when used in direct citation.

---

## Introduction

The present document specifies the requirements for Release 7 onwards of the TC SCP.

iTeh STANDARD PREVIEW  
(Standards.iteh.ai)  
Full standard:  
<https://standards.iteh.ai/catalog/standards/sist/e0c272d2-e714-49df-9797-1556bcb8635/etsi-ts-102-412-v13.0.0-2018-07>

# 1 Scope

The present document specifies the additional requirements for Release 7 onwards of the TC SCP with respect to earlier releases.

The present document covers all the Stage 1 requirements which are not covered by other TC SCP stage 1 documents.

# 2 References

## 2.1 Normative references

References are either specific (identified by date of publication and/or edition number or version number) or non-specific. For specific references, only the cited version applies. For non-specific references, the latest version of the referenced document (including any amendments) applies.

- In the case of a reference to a TC SCP document, a non specific reference implicitly refers to the latest version of that document in the same Release as the present document.

Referenced documents which are not found to be publicly available in the expected location might be found at <https://docbox.etsi.org/Reference/>.

NOTE: While any hyperlinks included in this clause were valid at the time of publication, ETSI cannot guarantee their long term validity.

The following referenced documents are necessary for the application of the present document.

- [1] ETSI TS 102 221: "Smart Cards; UICC-Terminal interface; Physical and logical characteristics (Release 7)".
- [2] ETSI TS 102 223: "Smart cards; Card Application Toolkit (CAT) (Release 6)".

## 2.2 Informative references

References are either specific (identified by date of publication and/or edition number or version number) or non-specific. For specific references, only the cited version applies. For non-specific references, the latest version of the referenced document (including any amendments) applies.

- In the case of a reference to a TC SCP document, a non specific reference implicitly refers to the latest version of that document in the same Release as the present document.

NOTE: While any hyperlinks included in this clause were valid at the time of publication, ETSI cannot guarantee their long term validity.

The following referenced documents are not necessary for the application of the present document but they assist the user with regard to a particular subject area.

- [i.1] GSMA Pay Buy Mobile, Business Opportunity Analysis, Public White Paper, version 1.0, November 2007.
