CORRIGENDUM

ETR 053

March 1997

Second Edition

Source: ETSI TC-RES

Reference: RTR/RES-11001-C1

ICS: 33.020

Key words: Mobile, radio, site engineering

This corrigendum modifies
the ETSI Technical Report ETR 053 (1996)
iTeh STANDARD PREVIEW
(standards.iteh.ai)
Radio Equipment and Systems (RES);
Radio site engineering for radio equipment and
systems in the mobile service

Foreword

This corrigendum corrects editorial errors in ETR 053 (1996).

iTeh STANDARD PREVIEW (standards.iteh.ai)

[PSIST ETR 053:1998/C1:1998](https://standards.iteh.ai/catalog/standards/sist/de9082fb-508c-41f9-802f-69870a87c63d/psist-etr-053-1998-c1-1998)

Amendments

Page 97, subclause H.3.2

Replace figure H.18 with the following:

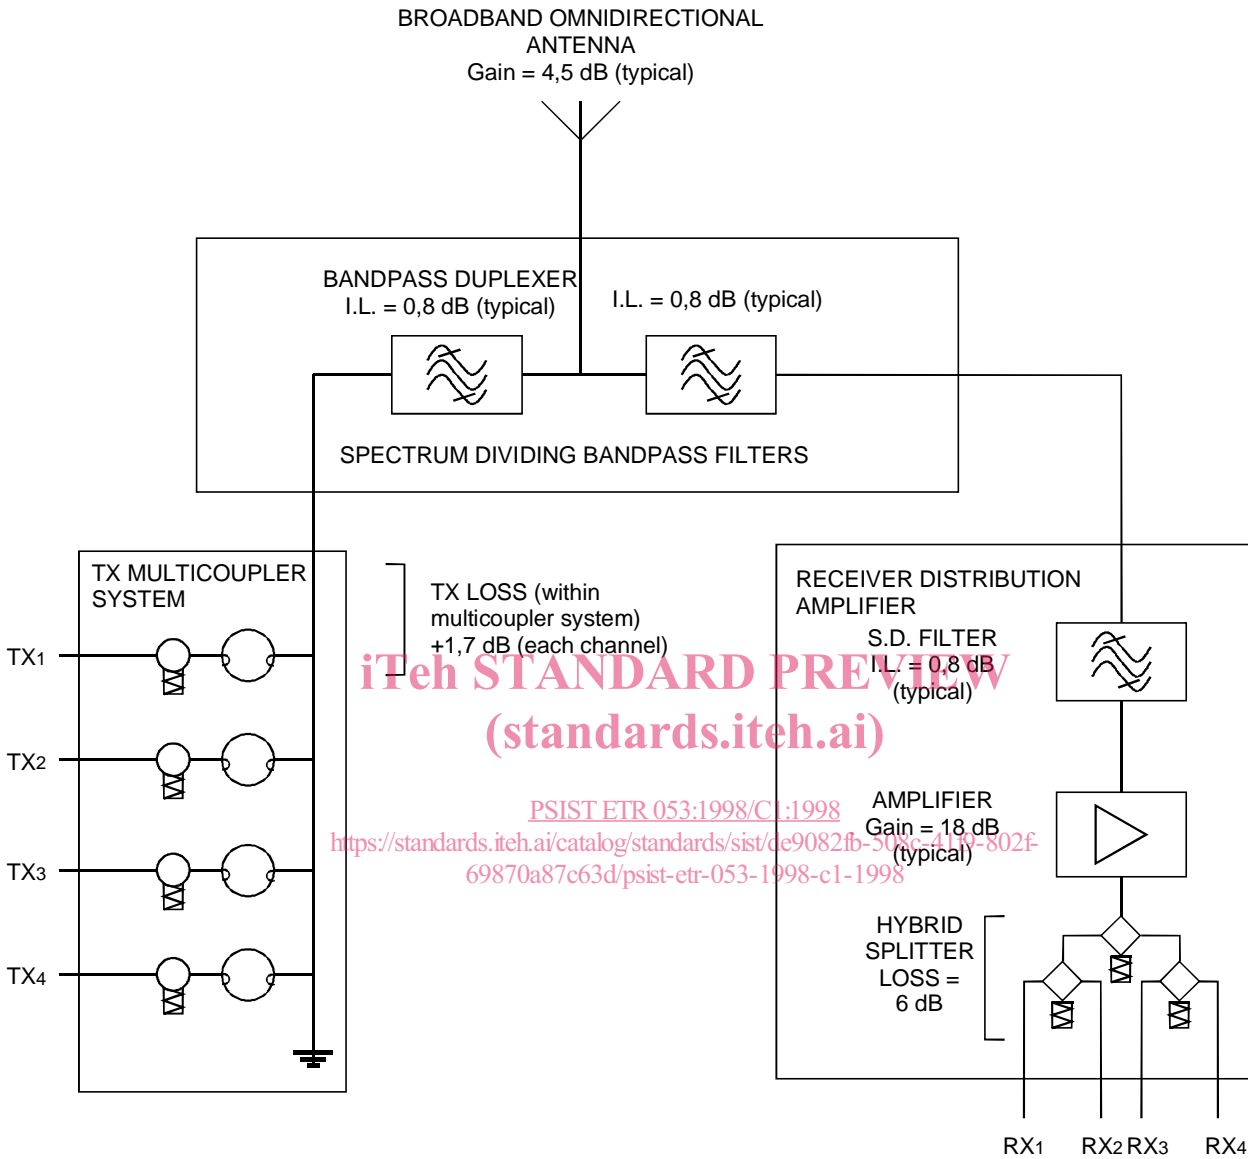

Figure H.18

Page 105, Annex J, clause 2

Replace the second paragraph with the following:

If any other signal from another emission is also present at the output of this stage, the non-linearity will give rise to a number of products having frequencies with specific frequency relationships to the frequency of both the wanted and unwanted signals. These products are called intermodulation products, and their frequencies may be expressed as:

$$f_i = C_1 \cdot f_1 + C_2 \cdot f_2 + \dots + C_n \cdot f_n \tag{1}$$

where the sum $|C_1| + |C_2| + \dots + |C_n|$ is the order of the product.
