(standards.iteh.ai)

This European Standard was approved by CENELEC on 1994-09-01.
CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations
which stipulate the conditions for giving this European Standard the status of
a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards
may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German).
A version in any other language made by translation under the responsibility of
a CENELEC member into its own language and notified to the Central Secretariat
has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium,
Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg,
Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

FOREWORD

At the request of the 78th Technical Board of CENELEC, HD 555.3 S1:1992 (IEC 317-3:1990) was submitted to the CENELEC voting procedure for conversion into a European Standard.

The text of the International Standard was approved by CENELEC as EN 60317-3 on 1 September 1994.

The following dates were fixed:

- latest date of publication of an identical national standard (dop) 1995-10-15
- latest date of withdrawal of conflicting national standards (dow) -

Annexes designated "normative" are part of the body of the standard. In this standard, annex ZA is normative.

ENDORSEMENT NOTICE
(standards.iteh.ai)

The text of the International Standard IEC 317-3:1990 was approved by CENELEC as a European Standard without any modification.

<https://standards.iteh.ai/catalog/standards/sist/c59f0765-3c9c-4d93-950c-e466fe884e21/sist-en-60317-3-2001>

ANNEX ZA (normative)

OTHER INTERNATIONAL PUBLICATIONS QUOTED IN THIS STANDARD
WITH THE REFERENCES OF THE RELEVANT EUROPEAN PUBLICATIONS

This European Standard incorporates by dated or undated reference, provisions from other publications. These normative references are cited at the appropriate places in the text and the publications are listed hereafter. For dated references, subsequent amendments to or revisions of any of these publications apply to this European Standard only when incorporated in it by amendment or revision. For undated references the latest edition of the publication referred to applies.

NOTE : When the international publication has been modified by CENELEC common modifications, indicated by (mod), the relevant EN/HD applies.

INTERNATIONAL ELECTROTECHNICAL COMMISSION

SPECIFICATIONS FOR PARTICULAR TYPES
OF WINDING WIRESPart 3: Polyester enamelled round copper wire,
class 155

FOREWORD

- 1) The formal decisions or agreements of the IEC on technical matters, prepared by Technical Committees on which all the National Committees having a special interest therein are represented, express, as nearly as possible, an international consensus of opinion on the subjects dealt with.
- 2) They have the form of recommendations for international use and they are accepted by the National Committees in that sense.
- 3) In order to promote international unification, the IEC expresses the wish that all National Committees should adopt the text of the IEC recommendation for their national rules in so far as national conditions will permit. Any divergence between the IEC recommendation and the corresponding national rules should, as far as possible, be clearly indicated in the latter.

SIST EN 60317-3:2001

[https://standards.iteh.ai/catalog/standards/sist/c59f0765-3c9c-4d93-950c-](https://standards.iteh.ai/catalog/standards/sist/c59f0765-3c9c-4d93-950c-e466fb884e21/sist-en-60317-3-2001)

This International Standard has been prepared by IEC Technical Committee No. 55: Winding wires.

This second edition of IEC 317-3 replaces the first edition issued in 1970, as well as the first supplement, IEC 317-3A (1972), and the second supplement, IEC 317-3B (1978).

Wires of Type 1, included in the first edition, now belong to IEC 317-34.

It has been decided to issue IEC 182 and IEC 317 in a new layout. The text of IEC 182 has been incorporated into the relevant IEC 317 without technical changes. All general requirements for enamelled round copper wires have been removed to IEC 317-0-1 without technical changes unless stated in the foreword of IEC 317-0-1.

The text of this standard is also based on the following documents:

Six Months' Rule	Report on Voting
55(CO)375	55(CO)397

Full information on the voting for the approval of this standard can be found in the Voting Report indicated in the above table.
