Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

International Standards are drafted in accordance with the rules given in the ISO/IEC Directives, Part 2.

The main task of technical committees is to prepare International Standards. Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights.

Amendment 1 to ISO 9908:1993 was prepared by Technical Committee ISO/TC 115, *Pumps*, Subcommittee SC 1, *Dimensions and technical specifications of pumps*.

Technical specifications for centrifugal pumps — Class III —

AMENDMENT 1

Page 1, Normative references

Delete the reference to ISO 2372:1974.

Replace the references to ISO 2548:1973 and ISO 3555:1977 with the following:

ISO 9906:—¹⁾, *Rotodynamic pumps — Hydraulic performance acceptance tests — Grades 1, 2 and 3*

Add the footnote “1) To be published. (Revision of ISO 9906:1999)”

Page 2, 4.1.2

Replace “The NPSHR shall be based on cold water as specified in ISO 2548 and ISO 3555.” with “The NPSHR shall be based on cold water as specified in ISO 9906.”

Delete Table footnote 1 “Based on ISO 2372.” and renumber Table footnote 2 as Table footnote 1.

Page 7, Clause 6

In the third paragraph, replace “If a hydraulic performance test is required it shall be made in accordance with ISO 2548 and ISO 3555 Class II for clean cold water.” with “If a hydraulic performance test is required it shall be carried out in accordance with ISO 9906 class 2 for clean cold water.”.
