Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

International Standards are drafted in accordance with the rules given in the ISO/IEC Directives, Part 2.

The main task of technical committees is to prepare International Standards. Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights.

Amendment 1 to ISO 7010:2011 was prepared by Technical Committee ISO/TC 145, *Graphical symbols*, Subcommittee SC 2, *Safety identification*, *signs*, *shapes*, *symbols and colours*.

AMENDMENT 1

IMPORTANT — The colours represented in the electronic file of this document can be neither viewed on screen nor printed as true representations. Although the copies of this document printed by ISO have been produced to correspond (with an acceptable tolerance as judged by the naked eye) to the requirements of ISO 3864-4, it is not intended that these printed copies be used for colour matching. Instead consult ISO 3864-4 which provides colorimetric and photometric properties together with, as a guideline, references from colour order systems.

Add the following safety signs:

- M028: Keep locked
- M029: Sound horniTeh STANDARD PREVIEW
- M030: Use litter bin (standards.iteh.ai)
- M031: Use table saw adjustable guard ISO 7010:2011/Amd 1:2012
- M032: Wear anti-static footweigh ai/catalog/standards/sist/3e3dcf44-ed4d-4d79-9a14-7e2a321acdee/iso-7010-2011-amd-1-2012
- P016: Do not spray with water
- W030: Warning; Hand crushing between press brake tool
- W031: Warning; Hand crushing between press brake and material
- W033: Warning; Barbed wire
- W034: Warning; Bull
- W035: Warning; Falling objects

Safety sign M028: Keep locked

Reference No.

ISO 7010-M028

Referent

Keep locked

Function

To signify that a cabinet or facility must be kept locked

Image content

Padlock with keyhole and four complete chain links and two pieces

Hazard

NDARD PREVIEW

Access to harmful substances or equipment

Human behaviour that is intended to be caused after understanding the safety sign's meaning

Ensuring that cabinets or facilities containing harmful substances or equipment are kept locked

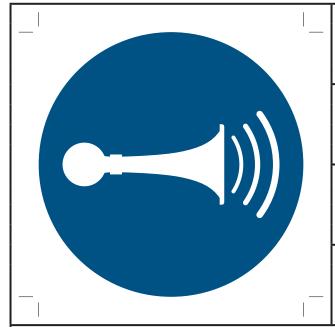

Related referents

Additional information

Test data obtained according to ISO 9186-1:2007 are not available. Consequently, a supplementary text sign shall be used to increase comprehension except when the safety sign is supplemented by manuals, instructions or training.

Safety sign M029: Sound horn

Reference No.

ISO 7010-M029

Referent

Sound horn

Function

To signify that a horn must be sounded

Image content

Horn, three curved lines

Hazard

ANDARD PREVIEW

Collision with another vehicle or with people

Human behaviour that is intended to be caused after understanding the safety sign's meaning

Equipment operator or driver sounding horn

Additional information

Test data obtained according to ISO 9186-1:2007 are not available. Consequently, a supplementary text sign shall be used to increase comprehension except when the safety sign is supplemented by manuals, instructions or training.

Safety sign M030: Use litter bin

Reference No.

ISO 7010-M030

Referent

Use litter bin

Function

To signify that litter must be placed in a litter bin

Image content

Human figure, bin/container and four diamond shapes

Hazard

Material which is harmful or could create a tripping or slipping hazard

Human behaviour that is intended to be caused after understanding the safety sign's meaning

Putting litter in a bin or container

ISO 7010:2011/Amd 1:2012

Additional information

Test data obtained according to ISO 9186-1:2007 are not available from more than one country. Findings from national testing, however, showed that in one country the safety sign exceeded the criteria of acceptability.

A supplementary sign shall be used to specify the kind of litter to be placed in the litter bin.

Safety sign M031: Use table saw adjustable guard

Reference No.

ISO 7010-M031

Referent

Use table saw adjustable guard

Function

To signify that the adjustable guard must be used

Image content

Semicircular saw blade with semicircular cover, curved arrow pointing downwards, single line and block shape

Hazard

iTeh STANDARD PREVIEW

Circular saw

Human behaviour that is intended to be caused after understanding the safety sign's meaning

Ensuring that the saw is guarded
