## **Annex D (normative)**

### **Special National conditions**

#### **D.1 Special national conditions :**

National characteristics or practice that cannot be changed even over a long period, e.g. climatic conditions, electrical earthing conditions. If it affects harmonization, it forms part of the European Standard or Harmonization Document.

For the countries in which the relevant special national conditions apply these provisions are normative, for other countries they are informative.

#### **D.2 Special national conditions for Austria, Germany and Switzerland**

The requirements of this standard do not apply for a period ending at the latest on 2006-07-01 subject to review taking into account e.g. the results of a forthcoming European study and the ongoing European standardization activities of the future EN 1089 series.
