This draft European Standard is submitted to CEN members for enquiry. It has been drawn up by the Technical Committee CEN/TC 79.

If this draft becomes a European Standard, CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

This draft European Standard was established by CEN in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

Recipients of this draft are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

**Warning :** This document is not a European Standard. It is distributed for review and comments. It is subject to change without notice and shall not be referred to as a European Standard.

## European foreword

This document (prEN 13274-7:2018) has been prepared by Technical Committee CEN/TC 79 "Respiratory protection devices", the secretariat of which is held by DIN.

This document is currently submitted to the CEN Enquiry.

This document will supersede EN 13274-7:2008.

The following main technical changes have been made compared to EN 13274-7:2008:

- a) reference to EN 13274-5 in storage test (5.5) deleted;
- b) test equipment for sodium chloride test and test conditions clarified and summarized in one subclause;
- c) procedure for sodium chloride test revised;
- d) calculation of the penetration for sodium chloride revised;
- e) test equipment for paraffin oil test and test conditions clarified and summarized in one subclause;
- f) procedure for paraffin oil test revised;
- g) figures adapted to the changes made in the test procedures, where appropriate.

**prEN 13274-7:2018 (E)**

## **Introduction**

This document is intended as a supplement to the specific device standards for respiratory protective devices. Test methods are specified for complete or parts of devices. If deviations from the test method given in this document are necessary, these deviations will be specified in the relevant device standard.
