## Safety of transformers, reactors, power supply units and combinations thereof - Part 1: General requirements and tests (IEC 61558-1:2017)

Sécurité des transformateurs, bobines d'inductance, blocs d'alimentation et des combinaisons de ces éléments -  
Partie 1: Exigences générales et essais  
(IEC 61558-1:2017)

Sicherheit von Transformatoren, Netzgeräten, Drosseln und entsprechenden Kombinationen - Teil 1: Allgemeine Anforderungen und Prüfungen  
(IEC 61558-1:2017)

This European Standard was approved by CENELEC on 2017-11-03. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

SIST EN IEC 61558-1:2019

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

**EN IEC 61558-1:2019 (E)****European foreword**

The text of document 96/466/FDIS, future edition 3 of IEC 61558-1, prepared by IEC/TC 96 "Transformers, reactors, power supply units, and combinations thereof" was submitted to the IEC-CENELEC parallel vote and approved by CENELEC as EN IEC 61558-1:2019.

The following dates are fixed:

- latest date by which the document has to be implemented at national (dop) 2019-12-21 level by publication of an identical national standard or by endorsement
- latest date by which the national standards conflicting with the (dow) 2022-06-21 document have to be withdrawn

This document supersedes EN 61558-1:2005.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC shall not be held responsible for identifying any or all such patent rights.

This document has been prepared under a mandate given to CENELEC by the European Commission and the European Free Trade Association, and supports essential requirements of EU Directive(s).

For the relationship with EU Directive(s) see informative Annex ZZ, which is an integral part of this document.

## Annex ZZ (informative)

### Relationship between this European standard and the safety objectives of Directive 2014/35/EU [2014 OJ L96] aimed to be covered

This European Standard has been prepared under a Commission's standardization request relating to harmonized standards in the field of the Low Voltage Directive, M/511, to provide one voluntary means of conforming to safety objectives of Directive 2014/35/EU of the European Parliament and of the Council of 26 February 2014 on the harmonization of the laws of the Member States relating to the making available on the market of electrical equipment designed for use within certain voltage limits [2014 OJ L96].

Once this standard is cited in the Official Journal of the European Union under that Directive, compliance with the normative clauses of this standard given in Table ZZ.1 confers, within the limits of the scope of this standard, a presumption of conformity with the corresponding safety objectives of that Directive, and associated EFTA regulations.

For other hazards not covered by IEC 61558-1 (e.g. EMF functional safety linked to electric, magnetic and electromagnetic disturbances) the manufacturer has to perform a risk assessment.

**Table ZZ.1 – Correspondence between this European standard and Annex I of Directive 2014/35/EU [2014 OJ L96]**

Safety objectives of Directive 2014/35/EU	Clause(s) / sub-clause(s) of this EN	Remarks / Notes
1 General conditions <a href="https://standards.iteh.ai/catalog/standards/sist/75d04061-771d-4ccc-8b0e-1163800c3c4a/sist-en-iec-61558-1-2019">https://standards.iteh.ai/catalog/standards/sist/75d04061-771d-4ccc-8b0e-1163800c3c4a/sist-en-iec-61558-1-2019</a>		
a) the essential characteristics, the recognition and observance of which will ensure that electrical equipment will be used safely and in applications for which it was made, shall be marked on the electrical equipment, or, if this is not possible, on an accompanying document	Clause 8	
b) the electrical equipment, together with its component parts, shall be made in such a way as to ensure that it can be safely and properly assembled and connected	Clauses 5; 8; 10; 20; 22; 23; 24; 25	
c) the electrical equipment shall be so designed and manufactured as to ensure that protection against the hazards set out in points 2 and 3 is assured, providing that the equipment is used in applications for which it was made and is adequately maintained	Clauses 1; 3; 7; 13; 19	See also Basic Protection Requirements in points 2 and 3 in this table
2 Protection against hazards arising from the electrical equipment		
Measures of a technical nature shall be laid down in accordance with point 1, in order to ensure that: a) persons and domestic animals are adequately protected against the danger of physical injury or other harm which might be caused by direct or indirect contact	Clauses 4; 5; 7; 9; 17; 18; 19; 20; 21; 24; 26; Annex H	

## EN IEC 61558-1:2019 (E)

Safety objectives of Directive 2014/35/EU	Clause(s) / sub-clause(s) of this EN	Remarks / Notes
Measures of a technical nature shall be laid down in accordance with point 1, in order to ensure that: b) temperatures, arcs or radiation which would cause a danger, are not produced	Clauses 4; 5; 14; 15; 18; 27	
Measures of a technical nature shall be laid down in accordance with point 1, in order to ensure that: c) persons, domestic animals and property are adequately protected against non- electrical dangers caused by the electrical equipment which are revealed by experience	Clauses 4; 5; 19; Annex H	
Measures of a technical nature shall be laid down in accordance with point 1, in order to ensure that: d) the insulation is suitable for foreseeable conditions	Clauses 4; 5; 17; 18; 19; 20; 26; 27	
3 Protection against hazards which may be caused by external influences on the electrical equipment		
Technical measures shall be laid down in accordance with point 1, in order to ensure that the electrical equipment: a) meets the expected	Clauses 4; 5; 16; 22; 25; 28	
mechanical requirements in such a way that persons, domestic animals and property are not endangered		
Technical measures shall be laid down in accordance with point 1, in order to ensure that the electrical equipment: b) is resistant to non-mechanical influences in expected environmental conditions, in such a way that persons, domestic animals and property are not endangered	Clauses 4; 5; 11; 12; 17; 24; 28	
Technical measures shall be laid down in accordance with point 1, in order to ensure that the electrical equipment: c) does not endanger persons, domestic animals and property in foreseeable conditions of overload	Clause 4; 5; 15; 26; Annex H	

**WARNING 1** — Presumption of conformity stays valid only as long as a reference to this European standard is maintained in the list published in the Official Journal of the European Union. Users of this standard should consult frequently the latest list published in the Official Journal of the European Union.

**WARNING 2** — Other Union legislation may be applicable to the product(s) falling within the scope of this standard.

16.3	Portable transformers (except portable transformers with integral pins for introduction in socket-outlet in the fixed wiring) .....	63
16.4	Portable transformers provided with integral pins for introduction in socket-outlets of the fixed wiring .....	63
16.4.1	General requirements .....	63
16.4.2	Portable transformers provided with integral pins according to EN 50075 (IEC plug type C) for introduction in socket-outlets of the fixed wiring .....	64
16.5	Additional requirements for transformers to be used in vehicles and railway applications .....	65
16.5.1	Transformers to be used in vehicles and railway applications .....	65
16.5.2	Test requirements for the transportation of transformers .....	66
17	Protection against harmful ingress of dust, solid objects and moisture .....	67
17.1	Degrees of protection provided by enclosures (IP code) .....	67
17.1.1	General requirements .....	67
17.1.2	Tests on transformers with enclosure .....	68
17.2	Humidity treatment .....	70
18	Insulation resistance, dielectric strength and leakage current .....	71
18.1	General .....	71
18.2	Insulation resistance .....	71
18.3	Dielectric strength test .....	72
18.4	Insulation between and within windings .....	74
18.5	Touch current and protective earthing conductor current .....	74
18.5.1	General .....	74
18.5.2	Touch current .....	75
18.5.3	Protective earthing conductor current .....	76
19	Construction .....	77
19.1	General construction .....	77
19.1.1	General .....	77
19.1.2	Auto-transformers .....	77
19.1.3	Separating transformers .....	78
19.1.4	Isolating transformers and safety isolating transformers .....	79
19.2	Flammability of materials .....	81
19.3	Short-circuit characteristics of portable transformers .....	81
19.4	Class II transformer contact prevention of accessible conductive parts .....	81
19.5	Class II transformer insulation reassembling after service .....	81
19.6	Loosening of wires, screws or similar parts .....	82
19.7	Resistor or capacitor connection with accessible conductive parts .....	82
19.8	Bridging of separated conductive parts by resistors or capacitors .....	82
19.9	Insulating material separating input and output windings .....	83
19.10	Accidental contact protection against hazardous-live-parts provided by isolating coating .....	83
