This draft European Standard is submitted to CEN members for unique acceptance procedure. It has been drawn up by the Technical Committee CEN/SS T01.

If this draft becomes a European Standard, CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

This draft European Standard was established by CEN in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

Recipients of this draft are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

Warning : This document is not a European Standard. It is distributed for review and comments. It is subject to change without notice and shall not be referred to as a European Standard.

European foreword

The text of ISO 8665:2006 has been prepared by Technical Committee ISO/TC 188 “Small craft” of the International Organization for Standardization (ISO) and has been taken over as FprEN ISO 8665:2017.

This document is currently submitted to the Unique Acceptance Procedure.

This document will supersede EN ISO 8665:2006.

This document has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association, and supports essential requirements of EU Directive(s).

For relationship with EU Directive(s), see informative Annex ZA, which is an integral part of this document.

Endorsement notice

The text of ISO 8665:2006 has been approved by CEN as FprEN ISO 8665:2017 without any modification.

Annex ZA (informative)

Relationship between this European Standard and the Essential Requirements of EU Directive 2013/53/EU

This European standard has been prepared under a mandate given to CEN by the European Commission to provide one means of conforming to Essential Requirements of the New Approach Directive 2013/53/EU.

Once this standard is cited in the Official Journal of the European Communities under that Directive and has been implemented as a national standard in at least one member state, compliance with the normative clauses of this standard given in Table ZA.1 confers, within the limits of the scope of this standard, a presumption of conformity with the relevant Essential Requirements of that Directive and associated EFTA regulations.

Table ZA.1: Correspondence between this European Standard and Directive 2013/53/EU

Clauses/subclauses of this European Standard	Essential requirements (ERs) of EU Directive 2013/53/EU	Qualifying remarks/Notes
All clauses	<p>Annex I.A.4 - Handling Characteristics; only in respect of the maximum rated engine power.</p> <p>Annex I.B.4 Owner's Manual; (b) - specify the power of the engine when measured in accordance with the harmonised standard.</p>	<p>This standard does not cover testing to determine if a watercraft has satisfactory handling characteristics.</p> <p>Propulsion engine power is to be measured in accordance with the requirements of this Standard. It is to be used together with those clauses of ISO 15550 that are specified in this standard.</p> <p>It should be noted that I.A.4 requires that the maximum rated engine power for all propulsion engines shall be declared in the owner's manual.</p>
All clauses	Annex I.B.4 (b) - Owner's Manual	The power of propulsion engines specifically intended for installation on or in watercraft shall be specified in the owner's manual when measured in accordance with this standard.

WARNING: Other requirements and other EU Directives may be applicable to the product(s) falling within the scope of this standard.
