Connector sets and interconnect components to be used in optical fibre communication systems - Product specifications - Part 14-1: Simplex and duplex cords made from simplex plugs with cylindrical ferrules, using EN 60793 2 50 single-mode B1 or B6 fibre for Category C according to EN 61753-1

Jeux de connecteurs et composants d'interconnexion à utiliser dans les systèmes de communication par fibres optiques - Spécifications de produit - Partie 14 1: Cordons simplex et duplex constitués de fiches simplex avec ferrules cylindriques, utilisant les fibres unimodales B1 ou B6 de l'EN 60793-2-50 pour la catégorie C conformément à l'EN 61753-1

Steckverbindersätze und Verbindungsbaulemente für Lichtwellenleiter-Datenübertragungssysteme - Produktnormen - Teil 14-1: Simplex- und Duplex-Kabel mit Simplex-Steckverbindern mit zylindrischen Ferrulen mit Einmodenfasern vom Typ B1 oder B6 nach EN 60793-2-50 für Kategorie C nach EN 61753-1

iTeh STANDARD PREVIEW

This European Standard was approved by CENELEC on 2018-05-14. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

Connector sets and interconnect components to be used in optical fibre communication systems – product specifications	
Part 14–1: Simplex and duplex cords made from simplex plugs with cylindrical ferrules, using EN 60793-2-50 single-mode B1 or B6 fibre for Category C according to EN 61753-1	
Description	Performance
Fibre category: EN 60793-2-50 Types B1 and B6	Application: For use indoors (EN Category C: controlled environment)
Cable type: EN 60794-2-50 EN 60794-2-51	Attenuation grades: (random mate) <p>B: $\leq 0,12$ dB mean $\leq 0,25$ dB for ≥ 97 % of measurements</p> <p>C: $\leq 0,25$ dB mean $\leq 0,50$ dB for ≥ 97 % of measurements</p>
	Return loss grade: (random mate) <p>1: ≥ 60 dB 2: ≥ 45 dB</p>

1 Scope

1.1 Product definition

This document contains the initial, start of life dimensional, optical, mechanical and environmental performance requirements for an assembled single mode cord with cylindrical ferruled connectors to meet in order for it to be categorized as an EN standard product.

Since different variants and grades of performance are permitted, product marking details are given in 4.5 and Clause 5.

1.2 Intermateability of the plugs

Although all products conforming to the requirements of this standard are meant to intermate, the resulting level of random attenuation performance will only be expected in accordance with Table 1. The intention is that this will be true irrespective of the manufacturing source(s) of the product.

When intermating plug variants having different attenuation grades as specified in EN 61755-1, the resulting level of attenuation cannot be ensured to be any better than the worst attenuation grade.

The intermating of a grade C plug with a grade B plug will result in a grade C level of random attenuation performance.

Table 1 — Ensured level of random attenuation

Plug variant / Attenuation grade		Plug 2	
		C	B
Plug 1	C	C	C
	B	C	B

SIST EN 50377-14-1:2018

1.3 Operating environment

The tests selected combined with the severities and durations are representative of an EN 61753-1 Category C environment.

1.4 Reliability

Whilst the anticipated service life expectancy of the product in this environment is 20 years, compliance with this standard does not guarantee the reliability of the product. This should be predicted using a recognized reliability assessment programme.

1.5 Quality assurance

Compliance with this standard does not guarantee the manufacturing consistency of the product. This should be maintained using a recognized quality assurance programme.

2 Normative references
