# Intellectual Property Rights

## Essential patents

IPRs essential or potentially essential to normative deliverables may have been declared to ETSI. The declarations pertaining to these essential IPRs, if any, are publicly available for **ETSI members and non-members**, and can be found in ETSI SR 000 314: *"Intellectual Property Rights (IPRs); Essential, or potentially Essential, IPRs notified to ETSI in respect of ETSI standards"*, which is available from the ETSI Secretariat. Latest updates are available on the ETSI Web server (<https://ipr.etsi.org/>).

Pursuant to the ETSI Directives including the ETSI IPR Policy, no investigation regarding the essentiality of IPRs, including IPR searches, has been carried out by ETSI. No guarantee can be given as to the existence of other IPRs not referenced in ETSI SR 000 314 (or the updates on the ETSI Web server) which are, or may be, or may become, essential to the present document.

## Trademarks

The present document may include trademarks and/or tradenames which are asserted and/or registered by their owners. ETSI claims no ownership of these except for any which are indicated as being the property of ETSI, and conveys no right to use or reproduce any trademark and/or tradename. Mention of those trademarks in the present document does not constitute an endorsement by ETSI of products, services or organizations associated with those trademarks.

**DECT™**, **PLUGTESTS™**, **UMTS™** and the ETSI logo are trademarks of ETSI registered for the benefit of its Members. **3GPP™** and **LTE™** are trademarks of ETSI registered for the benefit of its Members and of the 3GPP Organizational Partners. **oneM2M™** logo is a trademark of ETSI registered for the benefit of its Members and of the oneM2M Partners. **GSM®** and the GSM logo are trademarks registered and owned by the GSM Association.

# Legal Notice

This Technical Specification (TS) has been produced by ETSI 3rd Generation Partnership Project (3GPP).

The present document may refer to technical specifications or reports using their 3GPP identities. These shall be interpreted as being references to the corresponding ETSI deliverables. (2022-01)

The cross reference between 3GPP and ETSI identities can be found under <http://webapp.etsi.org/key/queryform.asp>.

---

# Modal verbs terminology

In the present document **"shall"**, **"shall not"**, **"should"**, **"should not"**, **"may"**, **"need not"**, **"will"**, **"will not"**, **"can"** and **"cannot"** are to be interpreted as described in clause 3.2 of the [ETSI Drafting Rules](#) (Verbal forms for the expression of provisions).

**"must"** and **"must not"** are **NOT** allowed in ETSI deliverables except when used in direct citation.

| 4.1 MCVideo media plane overview.....                                                                  | 16 |
| 4.1.1 Transmission Control.....                                                                        | 16 |
| 4.1.1.1 General .....                                                                                  | 16 |
| 4.1.1.2 On-network transmission and reception control.....                                             | 16 |
| 4.1.1.3 Off-network transmission control .....                                                         | 18 |
| 4.1.1.4 Determine on-network effective priority.....                                                   | 18 |
| 4.1.1.5 Determine off-network effective priority .....                                                 | 19 |
| 4.2 Internal structure of media plane control entities .....                                           | 19 |
| 4.2.1 Controlling MCVideo function.....                                                                | 19 |
| 4.2.2 MCVideo client .....                                                                             | 21 |
| 4.2.3 Participating MCVideo function.....                                                              | 22 |
| 4.2.3.1 General .....                                                                                  | 22 |
| 4.2.3.2 Internal structure of the participating MCVideo function.....                                  | 22 |
| 4.2.3.3 The roles of the participating MCVideo function .....                                          | 23 |
| 4.2.3.3.1 For the transmission control procedures.....                                                 | 23 |
| 4.2.4 Non-controlling MCVideo function of an MCVideo group .....                                       | 23 |
| 4.3 The media plane control channel.....                                                               | 24 |
| 4.3.1 General.....                                                                                     | 24 |
| 4.3.2 Control channel realization .....                                                                | 24 |
| 4.3.3 Establishing a media plane control channel .....                                                 | 25 |
| 4.3.3.1 General .....                                                                                  | 25 |
| 5 Functional entities .....                                                                            | 25 |
| 5.1 General .....                                                                                      | 25 |
| 5.2 MCVideo client .....                                                                               | 25 |
| 5.2.1 Introduction.....                                                                                | 25 |
| 5.2.2 Transmission participant in on-network mode.....                                                 | 26 |
| 5.2.3 Transmission participant in off-network mode .....                                               | 26 |
| 5.3 Controlling MCVideo function .....                                                                 | 27 |
| 5.4 Participating MCVideo function .....                                                               | 27 |
| 6 On-network transmission control .....                                                                | 27 |
| 6.1 General .....                                                                                      | 27 |
| 6.2 Transmission participant procedures .....                                                          | 27 |
| 6.2.1 Transmission participant procedures at MCVideo session initialization .....                      | 27 |
| 6.2.2 Transmission participant procedures at MCVideo call release .....                                | 28 |
| 6.2.3 Transmission participant procedures at MCVideo call modification.....                            | 28 |
| 6.2.4 Transmission participant state transition diagram for basic transmission control operation ..... | 28 |
| 6.2.4.1 General .....                                                                                  | 28 |
| 6.2.4.2 State: 'Start-stop'.....                                                                       | 29 |
| 6.2.4.2.1 General .....                                                                                | 29 |
| 6.2.4.2.2 MCVideo call initiated, originating MCVideo user .....                                       | 30 |
| 6.2.4.2.3 MCVideo call established, terminating MCVideo user .....                                     | 30 |

|           |                                                                                                     |    |
|-----------|-----------------------------------------------------------------------------------------------------|----|
| 6.2.4.3   | State: 'U: has no permission to transmit' .....                                                     | 30 |
| 6.2.4.3.1 | General .....                                                                                       | 30 |
| 6.2.4.3.2 | Send Transmission Request message (Click Transmission send button) .....                            | 30 |
| 6.2.4.3.3 | Receive Transmission Granted message (R: Transmission Granted) .....                                | 31 |
| 6.2.4.3.4 | Receive Media reception notification message (R: Media reception notification) .....                | 31 |
| 6.2.4.4   | State: 'U: pending request to transmit' .....                                                       | 31 |
| 6.2.4.4.1 | General .....                                                                                       | 31 |
| 6.2.4.4.2 | Receive Transmission rejected message (R: Transmission rejected) .....                              | 31 |
| 6.2.4.4.3 | Timer T100 (Transmission request) expired .....                                                     | 32 |
| 6.2.4.4.4 | Timer T100 (Transmission Request) expired N times .....                                             | 32 |
| 6.2.4.4.5 | Receive Queue Position Info message (R: Queue Position Info) .....                                  | 32 |
| 6.2.4.4.6 | Receive Transmission Granted message (R: Transmission Granted) .....                                | 32 |
| 6.2.4.4.7 | Send Transmission end request message (Click Transmission end button) .....                         | 33 |
| 6.2.4.5   | State: 'U: has permission to transmit' .....                                                        | 33 |
| 6.2.4.5.1 | General .....                                                                                       | 33 |
| 6.2.4.5.2 | Send RTP media packets (S: RTP media) .....                                                         | 33 |
| 6.2.4.5.3 | Send Transmission end request message (Click Transmission end button) .....                         | 33 |
| 6.2.4.5.4 | Void .....                                                                                          | 33 |
| 6.2.4.5.5 | Receive Transmission Revoked message (R: Transmission Revoked) .....                                | 33 |
| 6.2.4.5.6 | Receive Media reception notification message (R: Media Reception notification) .....                | 34 |
| 6.2.4.5.7 | Receive Transmission End Request message (R: Transmission End Request) .....                        | 34 |
| 6.2.4.6   | State: 'U: pending end of transmission' .....                                                       | 34 |
| 6.2.4.6.1 | General .....                                                                                       | 34 |
| 6.2.4.6.2 | Timer T101 (Transmission End Request) expired .....                                                 | 34 |

| 13.3                          | Media plane encryption and decryption.....                         | 189        |
| 13.3.1                        | General.....                                                       | 189        |
| 13.3.2                        | The participating MCVideo function.....                            | 189        |
| 13.3.3                        | The MCVideo client.....                                            | 190        |
| 13.3.4                        | The controlling MCVideo function.....                              | 194        |
| 14                            | SDP offer/ answer procedures.....                                  | 195        |
| 14.1                          | General.....                                                       | 195        |
| 14.2                          | Generating an SDP offer.....                                       | 195        |
| 14.2.1                        | General.....                                                       | 195        |
| 14.2.2                        | "mc_queueing" fntp attribute.....                                  | 195        |
| 14.2.3                        | "mc_priority" fntp attribute.....                                  | 196        |
| 14.2.4                        | "mc_granted" fntp attribute.....                                   | 196        |
| 14.2.5                        | "mc_implicit_request" fntp attribute.....                          | 196        |
| 14.2.6                        | "mc_reception_priority" fntp attribute.....                        | 196        |
| 14.3                          | Generating the SDP answer.....                                     | 196        |
| 14.3.1                        | General.....                                                       | 196        |
| 14.3.2                        | "mc_queueing" fntp attribute.....                                  | 196        |
| 14.3.3                        | "mc_priority" fntp attribute.....                                  | 196        |
| 14.3.4                        | "mc_granted" fntp attribute.....                                   | 197        |
| 14.3.5                        | "mc_implicit_request" fntp attribute.....                          | 197        |
| 14.3.6                        | "mc_reception_priority" fntp attribute.....                        | 197        |
| 14.4                          | Offerer processing of the SDP answer.....                          | 198        |
| 14.5                          | Modifying the media plane control channel.....                     | 198        |
| 14.6                          | The use of SDP offer / answer procedures in off-network mode.....  | 198        |
| 14.6.1                        | General.....                                                       | 198        |
| 14.6.2                        | fntp attribute "mc_queueing".....                                  | 198        |
| <b>Annex A (informative):</b> | <b>Change history.....</b>                                         | <b>199</b> |
| History.....                  |                                                                    | 200        |

---

## Foreword

This Technical Specification has been produced by the 3rd Generation Partnership Project (3GPP).

The contents of the present document are subject to continuing work within the TSG and may change following formal TSG approval. Should the TSG modify the contents of the present document, it will be re-released by the TSG with an identifying change of release date and an increase in version number as follows:

Version x.y.z

where:

- x the first digit:
  - 1 presented to TSG for information;
  - 2 presented to TSG for approval;
  - 3 or greater indicates TSG approved document under change control.
- y the second digit is incremented for all changes of substance, i.e. technical enhancements, corrections, updates, etc.
- z the third digit is incremented when editorial only changes have been incorporated in the document.
