This European Standard was approved by CENELEC on 2020-09-21. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

EN IEC 60598-1:2021 (E)**European foreword**

The text of document 34D/1546/FDIS, future edition 9 of IEC 60598-1, prepared by SC 34D "Luminaires" of IEC/TC 34 "Lighting" was submitted to the IEC-CENELEC parallel vote and approved by CENELEC as EN IEC 60598-1:2021.

The following dates are fixed:

- latest date by which the document has to be implemented at national (dop) 2021-09-19 level by publication of an identical national standard or by endorsement
- latest date by which the national standards conflicting with the (dow) 2024-03-19 document have to be withdrawn

This document supersedes EN 60598-1:2015 and all of its amendments and corrigenda (if any).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC shall not be held responsible for identifying any or all such patent rights.

This document has been prepared under a mandate given to CENELEC by the European Commission and the European Free Trade Association, and supports essential requirements of EU Directive(s).

For the relationship with EU Directive(s) see informative Annex ZZ, which is an integral part of this document.

Annex ZA (normative)

Normative references to international publications with their corresponding European publications

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

NOTE 1 Where an International Publication has been modified by common modifications, indicated by (mod), the relevant EN/HD applies.

NOTE 2 Up-to-date information on the latest versions of the European Standards listed in this annex is available here: www.cenelec.eu.

Annex ZZ (informative)

Relationship between this European standard and the safety objectives of Directive 2014/35/EU [2014 OJ L96] aimed to be covered

This European Standard has been prepared under a Commission's standardization request relating to harmonized standards in the field of the Low Voltage Directive, M/511, to provide one voluntary means of conforming to safety objectives of Directive 2014/35/EU of the European Parliament and of the Council of 26 February 2014 on the harmonization of the laws of the Member States relating to the making available on the market of electrical equipment designed for use within certain voltage limits [2014 OJ L96].

Once this standard is cited in the Official Journal of the European Union under that Directive, compliance with the normative clauses of this standard given in Table ZZ.1 confers, within the limits of the scope of this standard, a presumption of conformity with the corresponding safety objectives of that Directive, and associated EFTA regulations.

Table ZZ.1 — Correspondence between this European standard and Annex I of Directive 2014/35/EU [2014 OJ L96]

Safety objectives of Directive 2014/35/EU	Clause(s) / sub-clause(s) of this EN	Remarks / Notes
1. General conditions		
a) the essential characteristics, the recognition and observance of which will ensure that electrical equipment will be used safely and in applications for which it was made, shall be marked on the electrical equipment, or, if this is not possible, on an accompanying document;	Section 3 SIST EN IEC 60598-1:2021	To be used in conjunction with relevant part 2
b) the electrical equipment, together with its component parts, shall be made in such a way as to ensure that it can be safely and properly assembled and connected;	Section 4	To be used in conjunction with relevant part 2
c) the electrical equipment shall be so designed and manufactured as to ensure that protection against the hazards set out in points 2 and 3 is assured, providing that the equipment is used in applications for which it was made and is adequately maintained.	See item 2 and 3 of this table	

Safety objectives of Directive 2014/35/EU	Clause(s) / sub-clause(s) of this EN	Remarks / Notes
<p>2. Protection against hazards arising from the electrical equipment</p> <p>Measures of a technical nature shall be laid down in accordance with point 1, in order to ensure that:</p>		
<p>a) persons and domestic animals are adequately protected against the danger of physical injury or other harm which might be caused by direct or indirect contact;</p>	<p>Section 4 Section 7 Section 14 and 15 Section 5 Section 8</p>	<p>All to be used in conjunction with relevant part 2</p>
<p>b) temperatures, arcs or radiation which would cause a danger, are not produced;</p>	<p>Section 4 Section 11 Section 12 Section 10</p>	<p>All to be used in conjunction with relevant part 2</p>
<p>c) persons, domestic animals and property are adequately protected against non-electrical dangers caused by the electrical equipment which are revealed by experience;</p>	<p>Section 4 Section 10 Section 11</p>	<p>All to be used in conjunction with relevant part 2</p>
<p>d) the insulation is suitable for foreseeable conditions.</p>	<p>Section 9 Section 10</p>	<p>All to be used in conjunction with relevant part 2</p>
<p>3. Protection against hazards which may be caused by external influences on the electrical equipment</p> <p>Technical measures shall be laid down in accordance with point 1, in order to ensure that the electrical equipment:</p>		
<p>a) meets the expected mechanical requirements in such a way that persons, domestic animals and property are not endangered;</p>	<p>Section 3 Section 4</p>	<p>All to be used in conjunction with relevant part 2</p>
<p>b) is resistant to non-mechanical influences in expected environmental conditions, in such a way that persons, domestic animals and property are not endangered;</p>	<p>Section 9 Section 13</p>	<p>All to be used in conjunction with relevant part 2</p>
<p>c) does not endanger persons, domestic animals and property in foreseeable conditions of overload.</p>	<p>Section 4 Section 12</p>	<p>All to be used in conjunction with relevant part 2</p>

EN IEC 60598-1:2021 (E)

WARNING 1 — Presumption of conformity stays valid only as long as a reference to this European standard is maintained in the list published in the Official Journal of the European Union. Users of this standard should consult frequently the latest list published in the Official Journal of the European Union.

WARNING 2 — Other Union legislation may be applicable to the product(s) falling within the scope of this standard.

4.24	Photobiological hazards	72
4.25	Mechanical hazard	73
4.26	Short-circuit protection.....	73
4.27	Terminal blocks with integrated screwless protective earthing contacts.....	74
4.28	Fixing of thermal sensing controls.....	74
4.29	Luminaire with non-replaceable light source.....	75
4.30	Luminaires with non-user replaceable light sources	75
4.31	Insulation between circuits	75
4.32	Overvoltage protective devices	77
4.33	Luminaire powered via information technology communication cabling.....	78
4.34	Electromagnetic fields (EMF)	78
4.35	Protection against moving fan blades.....	78
4.36	Track-mounted luminaires.....	78
SECTION 5: EXTERNAL AND INTERNAL WIRING		79
5.1	General.....	79
5.2	Supply connection and other external wiring	79
5.3	Internal wiring	87
5.4	Test to determine suitability of conductors having a reduced cross-sectional area	89
SECTION 6: Void.....		91
SECTION 7: PROVISION FOR EARTHING.....		92
7.1	General.....	92
7.2	Provision for earthing.....	92
SECTION 8: PROTECTION AGAINST ELECTRIC SHOCK		95
8.1	General.....	95
8.2	Protection against electric shock.....	95
SECTION 9: RESISTANCE TO DUST, SOLID OBJECTS AND MOISTURE		99
9.1	General.....	99
9.2	Tests for ingress of dust, solid objects and moisture	99
9.3	Humidity test.....	103
SECTION 10: INSULATION RESISTANCE AND ELECTRIC STRENGTH, TOUCH CURRENT AND PROTECTIVE CONDUCTOR CURRENT.....		105
10.1	General.....	105
10.2	Insulation resistance and electric strength	105
10.3	Touch current, protective conductor current and electric burn	109
SECTION 11: CREEPAGE DISTANCES AND CLEARANCES		111
11.1	General.....	111
11.2	Creepage distances and clearances.....	111
SECTION 12: ENDURANCE TEST AND THERMAL TEST.....		115
12.1	General.....	115
12.2	Selection of lamps and ballasts	115
12.3	Endurance test.....	115
12.4	Thermal test (normal operation)	117
12.5	Thermal test (abnormal operation)	122
12.6	Thermal test (failed windings in lamp controlgear)	127
