DRAFT AMENDMENT ISO 12117-2:2008/DAM 1

ISO/TC 127/SC 2

Voting begins on: 2015-04-23

Secretariat: ANSI

Voting terminates on: 2015-07-23

Earth-moving machinery — Laboratory tests and performance requirements for protective structures of excavators -

Part 2: Roll-over protective structures (ROPS) for excavators of over 6 t

AMENDMENT 1

Engins de terrassement — Essais de laboratoire et exigences de performance des structures de .ig ent (ROPS, international and a second a seco protection des pelles —

Partie 2: Structures de protection au retournement (ROPS) pour pelles de terrassement de plus de 6 t AMENDEMENT 1

ICS: 53.100

THIS DOCUMENT IS A DRAFT CIRCULATED FOR COMMENT AND APPROVAL. IT IS THEREFORE SUBJECT TO CHANGE AND MAY NOT BE REFERRED TO AS AN INTERNATIONAL STANDARD UNTIL PUBLISHED AS SUCH.

IN ADDITION TO THEIR EVALUATION AS BEING ACCEPTABLE FOR INDUSTRIAL, TECHNOLOGICAL, COMMERCIAL AND USER PURPOSES, DRAFT INTERNATIONAL STANDARDS MAY ON OCCASION HAVE TO BE CONSIDERED IN THE LIGHT OF THEIR POTENTIAL TO BECOME STANDARDS TO WHICH REFERENCE MAY BE MADE IN NATIONAL REGULATIONS.

RECIPIENTS OF THIS DRAFT ARE INVITED TO SUBMIT, WITH THEIR COMMENTS, NOTIFICATION OF ANY RELEVANT PATENT RIGHTS OF WHICH THEY ARE AWARE AND TO PROVIDE SUPPORTING DOCUMENTATION.

Reference number ISO 12117-2:2008/DAM 1:2015(E)

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2. <u>www.iso.org/directives</u>

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received. www.iso.org/patents

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation on the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the WTO principles in the Technical Barriers to Trade (TBT), see the following URL: Foreword - Supplementary information

The committee responsible for this document is ISO/TC 127, *Earth-moving machinery*, Subcommittee SC 2, *Safety, ergonomics and general requirements*.

This Amendment 1 modifies the first edition (150 12117-2:2008), subclause9.3.

Hensel standards in the standards is stong and the standards it and standards is and a standards is and a standards is a stand

Earth-moving machinery — Laboratory tests and performance requirements for protective structures of excavators —

Part 2: **Roll-over protective structures (ROPS) for excavators of** over 6 t

AMENDMENT 1

Modify 9.3 Label content into as follows:

The label shall indicate the following:

- the business name and full address of the ROPS manufacturer, and where applicable, his authorized a) representative;
- designation of the ROPS, if any 1); b)
- mandatory marking, if applicable c)
- designation of series or type/model of machine for which the ROPS is intended; d) ailea
- serial number, if any 1); e)
- year of construction, i.e. year in which the manufacturing process was completed ¹); f)
- g) maximum machine mass, *m*, for which the ROPS structure meets all of the performance requirements of this International Standard
- h) International Standard number (s) for which the structure meets all of the performance requirements;
- other such information as is deemed appropriate (e.g. installation, repair or replacement i) information).
