Descriptors: Electrical household accessory, low voltage equipment, residual current operated switching device, definition, characteristics, construction, tests

English version

Electrical accessories
Residual current operated circuit-breakers without integral
overcurrent protection for household and similar uses (RCCB's)
Part 1: General rules
(IEC 1008-1:1990/A2:1995)

Petit appareillage électrique
Interrupteurs automatiques à courant
différentiel résiduel pour usages
domestiques et analogues sans
dispositif de protection contre les
surintensités incorporé (ID)
Partie 1: Règles générales
(CEI 1008-1:1990/A2:1995)

Elektrisches Installationsmaterial
Fehlerstrom-/Differenzstrom-Schutzschal
ter ohne eingebauten Überstromschutz
für Hausinstallationen und für ähnliche
Anwendungen
Teil 1: Allgemeine Anforderungen
(IEC 1008-1:1990/A2:1995)

This amendment A2 modifies the European Standard EN 61008-1:1994; it was approved by CENELEC on 1995-09-20. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this amendment the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This amendment exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

The text of document 23E/210/DIS, future amendment 2 to IEC 1008-1:1990, prepared by SC 23E, Circuit-breakers and similar equipment for household use, of IEC TC 23, Electrical accessories, was submitted to the IEC-CENELEC parallel vote and was approved by CENELEC as amendment A2 to EN 61008-1:1990 on 1995-09-20.

The following dates were fixed:

- latest date by which the amendment has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 1996-07-01
- latest date by which the national standards conflicting with the amendment have to be withdrawn (dow) 1996-07-01

For products which have complied with EN 61008-1:1994 before 1996-07-01, as shown by the manufacturer or by a certification body, this previous standard may continue to apply for production until 2001-07-01.

Endorsement notice

The text of amendment 2:1995 to the International Standard IEC 1008-1:1990 was approved by CENELEC as an amendment to the European Standard without any modification.

Annex ZA (normative)

Normative references to international publications with their corresponding European publications

This European Standard incorporates by dated or undated reference, provisions from other publications. These normative references are cited at the appropriate places in the text and the publications are listed hereafter. For dated references, subsequent amendments to or revisions of any of these publications apply to this European Standard only when incorporated in it by amendment or revision. For undated references the latest edition of the publication referred to applies (including amendments).

NOTE: When an international publication has been modified by common modifications, indicated by (mod), the relevant EN/HD applies.

Add:

<u>Publication</u>	<u>Year</u>	<u>Title</u>	<u>EN/HD</u>	<u>Year</u>
IEC 1543	1995	Residual current-operated protective devices (RCDs) for household and similar use Electromagnetic compatibility	EN 61543	1995
CISPR 14	1993	Limits and methods of measurement of radio disturbance characteristics of electrical motor-operated and thermal appliances for household and similar purposes, electric tools and similar electric apparatus	EN 55014	1993

FOREWORD

This amendment has been prepared by subcommittee 23E: Circuit-breakers and similar equipment for household use, of IEC technical committee 23: Electrical accessories.

The text of this amendment is based on the following documents:

DIS	Report on voting
23E/210/DIS	23E/234/RVD

Full information on the voting for the approval of this amendment can be found in the report on voting indicated in the above table.

Page 197

Add the following new annex E.

Annex E (normative)

List of tests, additional test sequences and numbers of samples for verification of compliance of RCCBs with the requirements of electromagnetic compatibility (EMC)

This annex indicates all tests and test sequences to be performed on RCCBs for verifying their electromagnetic compatibility.

Clause E.1 reports the references of the tests already contained in IEC 1008-1 and included in the test sequences and minimum performances conditions specified in annex A.

Clause E.2 specifies the additional tests, the number of samples, the test sequences and the minimum conditions required for the complete verification of compliance of RCCBs with the EMC requirements.

Test conditions and EMC performance criteria are indicated in the EMC product family standard for RCDs: future IEC 1543*

Electromagnetic compatibility of RCCBs

E.1 EMC tests already included in the product standard

Table E.1 gives in the third column, the tests already included in the test sequences of annex A ensuring an adequate level of immunity from the electromagnetic disturbances indicated in the second column. The first column gives the corresponding references of tables 1 and 2 of the future IEC 1543*.

* At present, at the stage of draft international standard, document 23E/202/DIS.
