This draft amendment is submitted to CEN members for enquiry. It has been drawn up by the Technical Committee CEN/TC 136.

This draft amendment A1, if approved, will modify the European Standard EN 15567-1:2015. If this draft becomes an amendment, CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for inclusion of this amendment into the relevant national standard without any alteration.

This draft amendment was established by CEN in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

Recipients of this draft are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

Warning : This document is not a European Standard. It is distributed for review and comments. It is subject to change without notice and shall not be referred to as a European Standard.

European foreword

This document (EN 15567-1:2015/prA1:2019) has been prepared by Technical Committee CEN/TC 136 “Sports, playground and other recreational facilities and equipment”, the secretariat of which is held by DIN.

This document is currently submitted to the CEN Enquiry.

This document will supersede EN 15567-1:2015.

EN 15567-1:2015/prA1:2019 (E)**1 Modification in 7.1.2 “Inaugural inspection”**

Replace the whole subclause with the following:

“Before the site is inaugurated, it shall be assured that the site is in compliance with EN 15567-1.

The following shall be carried out and documented by an inspection body:

- a) visual inspection;
- b) functional test (see 3.42) carried out at height by an inspector;
- c) verification that the course has been constructed in accordance with the design drawings (e.g. guy angles);
- d) checking that design calculation and/or tree strength assessment exist;
- e) check the current arboreal assessment to ensure that all trees used as a support system have been judged safe to use.

It is recommended that the detection is carried out by a type A inspection body according to EN ISO/IEC 17020:2012, 4.1.”
