## Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

International Standards are drafted in accordance with the rules given in the ISO/IEC Directives, Part 3.

The main task of technical committees is to prepare International Standards. Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

Attention is drawn to the possibility that some of the elements of this part of ISO 4046 may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights.

ISO 4046-1 was prepared by Technical Committee ISO/TC 6, *Paper, board and pulps*.

ISO 4046-1, ISO 4046-2, ISO 4046-3, ISO 4046-4 and ISO 4046-5 cancel and replace ISO 4046:1978. Many new terms have been defined in this new series of standards since ISO 4046:1978 was published. However, the ISO 4046 series is not intended to be a comprehensive list of all terms related to paper, board and pulps. It includes definitions of relevant terms which can be found in ISO standards prepared by ISO Technical Committee 6, as well as other definitions which, in the opinion of Working Group 6, needed to be standardized.

ISO 4046 consists of the following parts under the general title *Paper, board, pulps and related terms — Vocabulary*:

- *Part 1: Alphabetical index*
- *Part 2: Pulping terminology*
- *Part 3: Paper-making terminology*
- *Part 4: Paper and board grades and converted products*
- *Part 5: Properties of pulp, paper and board*

This second edition results from the reinstatement of the previous edition (ISO 4046-1:2002) which was withdrawn in 2014.

## Avant-propos

L'ISO (Organisation internationale de normalisation) est une fédération mondiale d'organismes nationaux de normalisation (comités membres de l'ISO). L'élaboration des Normes internationales est en général confiée aux comités techniques de l'ISO. Chaque comité membre intéressé par une étude a le droit de faire partie du comité technique créé à cet effet. Les organisations internationales, gouvernementales et non gouvernementales, en liaison avec l'ISO, participent également aux travaux. L'ISO collabore étroitement avec la Commission électrotechnique internationale (CEI) en ce qui concerne la normalisation électrotechnique.

Les Normes internationales sont rédigées conformément aux règles données dans les Directives ISO/CEI, Partie 3.

La tâche principale des comités techniques est d'élaborer les Normes internationales. Les projets de Normes internationales adoptés par les comités techniques sont soumis aux comités membres pour vote. Leur publication comme Normes internationales requiert l'approbation de 75 % au moins des comités membres votants.

L'attention est appelée sur le fait que certains des éléments de la présente partie de l'ISO 4046 peuvent faire l'objet de droits de propriété intellectuelle ou de droits analogues. L'ISO ne saurait être tenue pour responsable de ne pas avoir identifié de tels droits de propriété et averti de leur existence.

L'ISO 4046-1 a été élaboré par le comité technique ISO/TC 6, *Papiers, cartons et pâtes*.

L'ISO 4046-1, l'ISO 4046-2, l'ISO 4046-3, l'ISO 4046-4 et l'ISO 4046-5 annulent et remplacent l'ISO 4046:1978. De nombreux nouveaux termes ont été définis dans cette nouvelle série de normes depuis la publication de l'ISO 4046:1978. Cependant, la série de normes ISO 4046 ne constitue pas une liste complète des termes relatifs aux papiers, cartons et pâtes. Elle inclut les définitions de termes qui se trouvent dans les normes ISO préparées par le comité technique 6 de l'ISO, ainsi que celles d'autres termes qui, selon le groupe de travail 6, devaient être normalisés.

[https://standards.iteh.ai/catalog/standards/sist/f1136395-21e9-400a-997a-](https://standards.iteh.ai/catalog/standards/sist/f1136395-21e9-400a-997a-4046-1-2016)

L'ISO 4046 comprend les parties suivantes, présentées sous le titre général *Papier, carton, pâtes et termes connexes — Vocabulaire*:

- *Partie 1: Index alphabétique*
- *Partie 2: Terminologie de la fabrication de la pâte*
- *Partie 3: Terminologie de la fabrication du papier*
- *Partie 4: Catégories et produits transformés de papier et de carton*
- *Partie 5: Propriétés de la pâte, du papier et du carton*

Cette deuxième édition résulte du rétablissement de l'édition précédente (ISO 4046-1:2002) qui avait été supprimée en 2014.

## Introduction

Entry items in this part of ISO 4046 are numbered X.Y, where “X” indicates that the term is located in ISO 4046-X, and “Y” is the entry number in that part. For example, the term numbered 2.23 is the 23rd term found in ISO 4046-2.

This part of ISO 4046 was prepared by Working Group 6 of Technical Committee 6 (ISO/TC 6/WG 6). This Working Group is concerned with terminology related to paper, board and pulps.

[ISO 4046-1:2016](https://standards.iteh.ai/catalog/standards/sist/f1136395-21c9-400a-997a-6b718ca733b3/iso-4046-1-2016)

<https://standards.iteh.ai/catalog/standards/sist/f1136395-21c9-400a-997a-6b718ca733b3/iso-4046-1-2016>

## Introduction

Les articles de la présente partie de l'ISO 4046 sont numérotés X.Y, où «X» indique que l'article fait partie de la norme ISO 4046-X, et «Y» est le numéro de l'article de cette partie. Par exemple, le terme numéroté 2.23 est le 23<sup>ème</sup> terme de l'ISO 4046-2.

La présente partie de l'ISO 4046 a été préparée par le groupe de travail 6 du comité technique 6 (ISO/TC 6/WG 6). Ce groupe de travail s'intéresse à la terminologie relative aux papiers, cartons et pâtes.

**Paper, board, pulps and related terms — Vocabulary —**

**Part 1:  
Alphabetical index**

**Papier, carton, pâtes et termes connexes — Vocabulaire —**

**Partie 1:  
Index alphabétique**

**1 Scope**

This part of ISO 4046 is an alphabetical index of English and French terms which are defined in the ISO 4046 series of standards, which document the terminology of paper, board, pulp and related terms.

**2 Domaine d'application**

La présente partie de l'ISO 4046 est un index alphabétique des termes anglais et français définis dans la série de normes ISO 4046, qui documente la terminologie du papier, du carton, des pâtes et des termes connexes.

## English alphabetical index

## \h "A" A

absorbency 5.1  
 accept 3.1  
 accepted stock 3.2  
 acid sizing 3.3  
 acid-free paper 4.1  
 acid-insoluble ash 5.2  
 additive 3.4  
 ageing 5.3  
 air permeance 5.4  
 air-dry mass 2.1  
 air-dry pulp 2.2  
 air-drying 3.7  
 air-jet coating 3.5, 3.6  
 air-knife coated paper or board 4.2  
 air-knife coating 3.6  
 alkali reserve 5.5  
 alkali resistance 5.6  
 alkali solubility 5.7  
 alkaline sizing 3.8  
 all-rag paper 4.3  
 alum 3.9  
 ammunition cartridge 4.4  
 angle cutting 3.10  
 anti-rust paper 4.5  
 anti-tarnish paper 4.6  
 apparent bulk density 5.8  
 apparent sheet density 5.9  
 archival paper 4.7  
 art paper 4.8  
 asbestos board 4.9  
 ash content 5.10, 5.95  
 ashless paper 4.10  
 authorized laboratory 5.11

## B

bagasse pulp 2.3  
 bamboo pulp 2.4  
 banknote paper 4.11  
 base paper for diazotype 4.12  
 base paper or board 4.13  
 BCTMP 2.5, 2.7  
 beater 3.11  
 beating 3.12  
 bending angle 5.12  
 bending length 5.13  
 bending stiffness 5.14  
 bible paper 4.14  
 black 5.15  
 black body 5.16  
 black liquor 2.6  
 blackening 5.17  
 blade coating 3.13  
 blade-coated paper 4.15  
 bleached chemi-thermomechanical pulp 2.7  
 bleached lined folding boxboard 4.16  
 bleached pulp 2.8

bleaching 2.9  
 blister 3.14  
 blotting paper 4.17  
 blow 3.15  
 blue reflectance factor 5.18  
 board 3.16  
 board for forming 4.18  
 body paper or board 4.13, 4.19  
 bond paper 4.20  
 bookbinding board 4.21  
 breaker 3.17  
 breaker beater 3.17, 3.18  
 breaking length 5.19  
 break-through of grease 5.20  
 brightness 5.21  
 brightness (deprecated) 5.39  
 broke 3.19  
 brown mechanical pulp 2.10  
 brown mechanical pulp board 4.22  
 brown mixed pulp board 4.23  
 brush coating 3.20  
 brush-coated paper 4.24  
 bubble-coated paper 4.25  
 bulk 5.22  
 bulking thickness 5.23  
 burst index 5.24  
 bursting strength 5.25
