

SLOVENSKI STANDARD oSIST prEN IEC 61010-2-202:2020

01-april-2020

Varnostne zahteve za električno opremo za meritve, nadzor in laboratorijsko uporabo - 2-202. del: Posebne zahteve za električni pogon ventilov

Safety requirements for electrical equipment for measurement, control and laboratory use - Part 2-202: Particular requirements for electrically operated valve actuators

Sicherheitsbestimmungen für elektrische Mess-, Steuer-, Regel- und Laborgeräte - Teil 2 -202: Besondere Anforderungen für elektrisch betriebene Ventile und Stellantriebe

Règles de sécurité pour appareils électriques de mesurage, de régulation et de laboratoire - Partie 2-202: Exigences particulières pour les actionneurs à vanne à commande électrique

Ta slovenski standard je istoveten z: EC prEN IEC 61010-2-202:2020 https://standards.iteh.ai/catalog/standards/sist/0fb498f9-6bcc-4ba5-8497-90eaab25dc15/sist-en-iec-61010-2-202-2021

ICS:

19.080	Električno in elektronsko preskušanje	Electrical and electronic testing
23.060.01	Ventili na splošno	Valves in general
71.040.10	Kemijski laboratoriji. Laboratorijska oprema	Chemical laboratories. Laboratory equipment

COMMITTEE DRAFT FOR VOTE (CDV)

PROJECT NUMBER:	
IEC 61010-2-202 ED2	
DATE OF CIRCULATION:	CLOSING DATE FOR VOTING:
2020-01-31	2020-04-24
SUPERSEDES DOCUMENTS:	
65/760/CD,65/778A/CC	

IEC TC 65 : INDUSTRIAL-PROCESS MEASUREMENT, CONTROL	AND AUTOMATION
SECRETARIAT:	SECRETARY:
France	Mr Rudy BELLIARDI
OF INTEREST TO THE FOLLOWING COMMITTEES:	PROPOSED HORIZONTAL STANDARD:
TC 66	
	Other TC/SCs are requested to indicate their interest, if any, in this CDV to the secretary.
FUNCTIONS CONCERNED:	QUALITY ASSURANCE SAFETY
SUBMITTED FOR CENELEC PARALLEL VOTING	NOT SUBMITTED FOR CENELEC PARALLEL VOTING
Attention IEC-CENELEC parallel voting	
The attention of IEC National Committees, members of CENELEC, is drawn to the fact that this Committee Draft for Vote (CDV) is submitted for parallel voting.	010-2-202:2021
dards iteh ai/catalog/standards/sist/0fb498f9-6bc The CENELEC members are invited to vote through the CENELEC online voting system.	

This document is still under study and subject to change. It should not be used for reference purposes.

Recipients of this document are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

TITLE:

Safety requirements for electrical equipment for measurement, control and laboratory use - Part 2-202: Particular requirements for electrically operated valve actuators

PROPOSED STABILITY DATE: 2026

27		INTERNATIONAL ELECTROTECHNICAL COMMISSION		
28				
29				
30		SAFETY REQUIREMENTS FOR ELECTRICAL EQUIPMENT		
31		FOR MEASUREMENT, CONTROL AND LABORATORY USE –		
32				
33		Part 2-202: Particular requirements		
34		for electrically operated valve actuators		
35 36		FOREWORD		
37 38 39 40 41 42 43 44 45 46	1)	The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as "IEC Publication(s)"). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.		
47 48 49	2)	The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.		
50 51 52 53	3)	IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.		
54 55 56 57	4)	In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.		
58 59 ^{tan} 60	5) 0 1	IEC itself does not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. IEC is not responsible for any services carried out by independent certification bodies.		
61	6)	All users should ensure that they have the latest edition of this publication.		
62 63 64 65 66	7)	No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.		
67 68	8)	Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.		
69 70	9)	Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.		
71 72	International Standard IEC 61020-2-202 has been prepared by committee TC 65: Industrial- process measurement, control and automation.			
73 74	Th teo	is second edition cancels and replaces the first edition published in 2016. This edition constitutes a chnical revision.		
75 76	This edition includes the following significant technical changes with respect to the previous edition:			
77		a) the scope has been clarified in relationship with other IEC standards		
78		b) additional requirement for identification has been included		
79		c) additional requirement for user documentations has been included
