## Electric motor-operated tools - Dust measurement procedure - Part 2-6: Particular requirements for hammers

Outils électriques à moteur - Procédure de mesure de la  
poussière - Partie 2-6: Exigences particulières pour les  
marteaux

Motorbetriebene Elektrowerkzeuge - Staubmessverfahren -  
Teil 2-6: Besondere Anforderungen für Hämmer

This draft amendment prA2, if approved, will modify the European Standard EN 50632-2-6:2015; it is submitted to CENELEC members for enquiry.

Deadline for CENELEC: 2020-09-25.

It has been drawn up by CLC/TC 116.

If this draft becomes an amendment, CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this amendment the status of a national standard without any alteration.

This draft amendment was established by CENELEC in three official versions (English, French, German).

A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

Recipients of this draft are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

Warning : This document is not a European Standard. It is distributed for review and comments. It is subject to change without notice and shall not be referred to as a European Standard.

## European foreword

This document (EN 50632-2-6:2015/prA2:2020) has been prepared by CLC/TC 116 “Safety and environmental aspects of motor-operated electric tools”.

This document is currently submitted to the Enquiry.

The following dates are proposed:

- latest date by which the existence of this document has to be announced at national level (doa) dor + 6 months
- latest date by which this document has to be implemented at national level by publication of an identical national standard or by endorsement (dop) dor + 12 months
- latest date by which the national standards conflicting with this document have to be withdrawn (dow) dor + 24 months (to be confirmed or modified when voting)

This amendment was developed to specify how the mass of battery-operated hammers is determined.

## 1 Modification to 4.3, “Operating conditions”

*Replace the last paragraph of 4.3 with the following:*

“For all hammers, the mass of the tool is measured without accessories and flexible cable or cord and without detachable battery pack or separable battery pack, but including an auxiliary handle, if provided with the tool. The mass of the tool includes all parts of an integrated dust extraction, if any. Any separate dust extraction device that can be attached to the tool is not included in the mass of the tool.”
