English Version

Conduit Systems for cable management - Part 22: Particular requirements - Pliable conduit systems

Systemes de conduits pour installations electriques - Partie
22: R gles particulieres - Systemes de conduits cintrables

To be completed

This draft amendment prAA, if approved, will modify the European Standard prEN IEC 61386-22:2020; it is submitted to CENELEC members for enquiry.

Deadline for CENELEC: 2020-10-02.

It has been drawn up by CLC/TC 213.

If this draft becomes an amendment, CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this amendment the status of a national standard without any alteration.

This draft amendment was established by CENELEC in three official versions (English, French, German).

A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

Recipients of this draft are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

Warning : This document is not a European Standard. It is distributed for review and comments. It is subject to change without notice and shall not be referred to as a European Standard.

European foreword

This document (prEN IEC 61386-22:2020/prAA:2020) has been prepared by CLC/TC 213 "Cable management systems".

This document is currently submitted to the Enquiry.

The following dates are proposed:

- latest date by which the existence of this document has to be announced at national level (doa) dor + 6 months
- latest date by which this document has to be implemented at national level by publication of an identical national standard or by endorsement (dop) dor + 12 months
- latest date by which the national standards conflicting with this document have to be withdrawn (dow) dor + 36 months (to be confirmed or modified when voting)

This document has been prepared under a mandate given to CENELEC by the European Commission and the European Free Trade Association, and supports essential requirements of EU Directive(s).

For the relationship with EU Directive(s), see informative Annex ZZ, which is an integral part of EN 61386-1:2008/A1:2019.

1 Modification to Clause 2, “Normative references”

Add the following reference:

“EN 50642:2018, Cable management systems - Test method for content of halogens”

2 Modification to Clause 6, “Classification”

Addition:

“

6.6 Optional classification according to halogen content

6.6.1 Non declared

6.6.2 Halogen free”

3 Addition of Clause 16, “Environmental properties”

Add the following Clause:

"16 Environmental properties

Conduit systems declared according to 6.6.2 shall be halogen free according to EN 50642:2018.

Compliance is checked by EN 50642:2018."

4 Modification to Annex A, “Classification coding for conduit systems”

This annex of Part 1 is applicable, with the following addition:

“
