## Powertrack systems - Part 1: General requirements

Systèmes de conducteurs préfabriqués - Partie 1:  
Exigences générales

Stromschienensysteme - Teil 1: Allgemeine Anforderungen

This amendment A11 modifies the European Standard ; it was approved by CENELEC on 2021-04-29. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this amendment the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CENELEC member.

This amendment exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

EN 61534-1:2011/A11:2021 (E)

## European foreword

This document (EN 61534-1:2011/A11:2021) has been prepared by CLC/TC 213 "Cable management systems".

The following dates are fixed:

- latest date by which this document has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2022-04-29
- latest date by which the national standards conflicting with this document have to be withdrawn (dow) 2024-04-29

This document amends EN 61534-1:2011/A2:2021.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC shall not be held responsible for identifying any or all such patent rights.

This document has been prepared under a mandate given to CENELEC by the European Commission and the European Free Trade Association, and supports essential requirements of EU Directive(s).

For the relationship with EU Directive(s) see informative Annex ZZ, which is an integral part of this document.

Any feedback and questions on this document should be directed to the users' national committee. A complete listing of these bodies can be found on the CENELEC website.

## 1 Modification to Clause 1, “Scope”

*Add the following Note after the last dashed item under 1.2:*

“NOTE Particular attention needs to be paid to installations rules when elements are installed which include EMI suppression devices.”

## 2 Addition of new Annex H, “Routine Tests”

*Add the following Annex H:*

“

### **Annex H** (normative)

#### **Routine tests**

Routine tests are intended to detect faults in materials and/or in workmanship. They are carried out on every new assembly after it has been assembled.

As a minimum, the following routine tests shall be carried out on each new assembly:

- inspection of the assembly and wiring if applicable,
- where applicable the operation of electrical devices,
- a dielectric test (Power-frequency withstand voltage) in accordance with Table 7, for the duration of at least 1 s,
- continuity tests of the live conductors and their correct phasing,
- continuity tests of the protective circuits.

The tests may be carried out in any order.”

### 3 Addition of Annex ZA, “Normative references to international publications with their corresponding European publications “

Add the following Annex ZA:

“

#### Annex ZA (normative)

#### Normative references to international publications with their corresponding European publications

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

NOTE 1 When an International Publication has been modified by common modifications, indicated by (mod), the relevant EN/HD applies.

NOTE 2 Up-to-date information on the latest versions of the European Standards listed in this annex is available here: [www.cenelec.eu](http://www.cenelec.eu).

#### 4 Addition of Annex ZZ, “Relationship between this European Standard and the safety objectives of Directive 2014/35/EU [2014 OJ L96] aimed to be covered”

Add the following Annex ZZ:

“

#### Annex ZZ (informative)

#### Relationship between this European Standard and the safety objectives of Directive 2014/35/EU [2014 OJ L96] aimed to be covered

This European Standard has been prepared under a Commission’s standardization request relating to harmonized standards in the field of the Low Voltage Directive - M/511, to provide one voluntary means of conforming to safety objectives of Directive 2014/35/EU of the European Parliament and of the Council of 26 February 2014 on the harmonization of the laws of the Member States relating to the making available on the market of electrical equipment designed for use within certain voltage limits [2014 OJ L96].

Once this standard is cited in the Official Journal of the European Union under that Directive, compliance with the normative clauses of this standard given in Table ZZ.1 confers, within the limits of the scope of this standard, a presumption of conformity with the corresponding safety objectives of that Directive, and associated EFTA regulations.

**Table ZZ.1 — Correspondence between this European Standard and Annex I of Directive 2014/35/EU [2014 OJ L96]**

Safety objectives of Directive 2014/35/EU	Clause(s) / sub-clause(s) of this EN	Remarks / Notes
