EUROPEAN STANDARD NORME EUROPÉENNE EUROPÄISCHE NORM

DRAFT prEN 593

June 2025

ICS

Will supersede EN 593:2017

English Version

Industrial valves - Metallic butterfly valves

Robinetterie industrielle - Robinets métalliques à papillon

Industriearmaturen - Metallische Klappen

This draft European Standard is submitted to CEN members for enquiry. It has been drawn up by the Technical Committee CEN/TC 69.

If this draft becomes a European Standard, CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

This draft European Standard was established by CEN in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and United Kingdom.

Recipients of this draft are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

 $\label{eq:warning:this document} \textbf{Warning: This document is not a European Standard. It is distributed for review and comments. It is subject to change without notice and shall not be referred to as a European Standard. <math display="block">0.96224002-6088-40809482066/000081-6098-2025$

prEN 593:2025 (E)

European foreword

This document (prEN 593:2025) has been prepared by Technical Committee CEN/TC 69 "Industrial valves", the secretariat of which is held by AFNOR.

This document is currently submitted to the CEN Enquiry.

This document will supersede EN 593:2017.

This document includes the following significant technical changes with respect to EN 593:2017:

- a) inclusion of an introduction to explain the reason of this revision;
- b) the inclusion of a sentence in the scope to clarify that this document applies to all industrial applications;
- c) addition of new 4.15 and 5.3 on the design requirements and final assessment for the European legislation for pressure equipment;
- d) addition of a new Clause 8 for the documentation;
- e) addition of Annex F providing the relationship between the clauses/subclauses of this document and those of EN 16668:2025;
- f) update of Annex ZA.

This document has been prepared under a standardization request addressed to CEN by the European Commission. The Standing Committee of the EFTA States subsequently approves these requests for its Member States.

For the relationship with EU Legislation, see informative Annex ZA, which is an integral part of this document. dards iteh al/catalog/standards/sist/9d959c69-9ba2-4c02-bde8-4a8d09482d6c/osist-pren-593-2025
