This amendment A2 modifies the European Standard EN 60320-3:2014; it was approved by CENELEC on 2022-11-09. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this amendment the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CENELEC member.

This amendment exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

The text of document 23G/476/FDIS, future IEC 60320-3/AMD2, prepared by SC 23G "Appliance couplers" of IEC/TC 23 "Electrical accessories" was submitted to the IEC-CENELEC parallel vote and approved by CENELEC as EN 60320-3:2014/A2:2022.

The following dates are fixed:

- latest date by which the document has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2023-08-09
- latest date by which the national standards conflicting with the document have to be withdrawn (dow) 2025-11-09

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC shall not be held responsible for identifying any or all such patent rights.

Any feedback and questions on this document should be directed to the users' national committee. A complete listing of these bodies can be found on the CENELEC website.

INTERNATIONAL ELECTROTECHNICAL COMMISSION

**APPLIANCE COUPLERS FOR HOUSEHOLD
AND SIMILAR GENERAL PURPOSES –****Part 3: Standard sheets and gauges****AMENDMENT 2****FOREWORD**

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as "IEC Publication(s)"). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC itself does not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. IEC is not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

Amendment 2 to IEC 60320-3:2014 has been prepared by subcommittee 23G: Appliance couplers, of IEC technical committee 23: Electrical accessories.

The text of this Amendment is based on the following documents:

Draft	Report on voting
23G/476/FDIS	23G/478/RVD

Full information on the voting for its approval can be found in the report on voting indicated in the above table.

The language used for the development of this Amendment is English.

This document was drafted in accordance with ISO/IEC Directives, Part 2, and developed in accordance with ISO/IEC Directives, Part 1 and ISO/IEC Directives, IEC Supplement, available at www.iec.ch/members_experts/refdocs. The main document types developed by IEC are described in greater detail at www.iec.ch/publications/.

The committee has decided that the contents of this document will remain unchanged until the stability date indicated on the IEC website under webstore.iec.ch in the data related to the specific document. At this date, the document will be

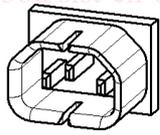

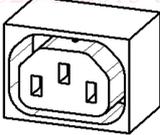

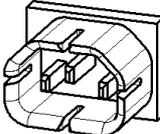

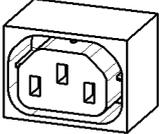

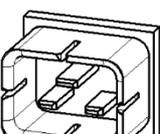

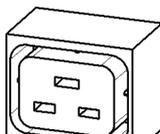

- reconfirmed,
- withdrawn,
- replaced by a revised edition, or
- amended.

4 General requirements

Add the following sentence at the start of the clause:

Table A.1 and Table A.2 of Annex A give an overview of combinations of connectors and appliance inlets, and combinations of appliance outlets and plug connectors, respectively.

Add, in Table 2, the following rows, as additional new rows 5 to 7 (counting of rows excludes the column heading row):

10	I	120	 M	 N	Yes	60245 IEC 53 or 60245 IEC 89	0,75 °C
10	I	155	 O	 P	Yes	60245 IEC 53 or 60245 IEC 89	0,75 °C
16	I	155	 Q	 R	Yes	60245 IEC 53 or 60245 IEC 89	1 °C

Add the following new standard sheets after the existing standard sheet L:

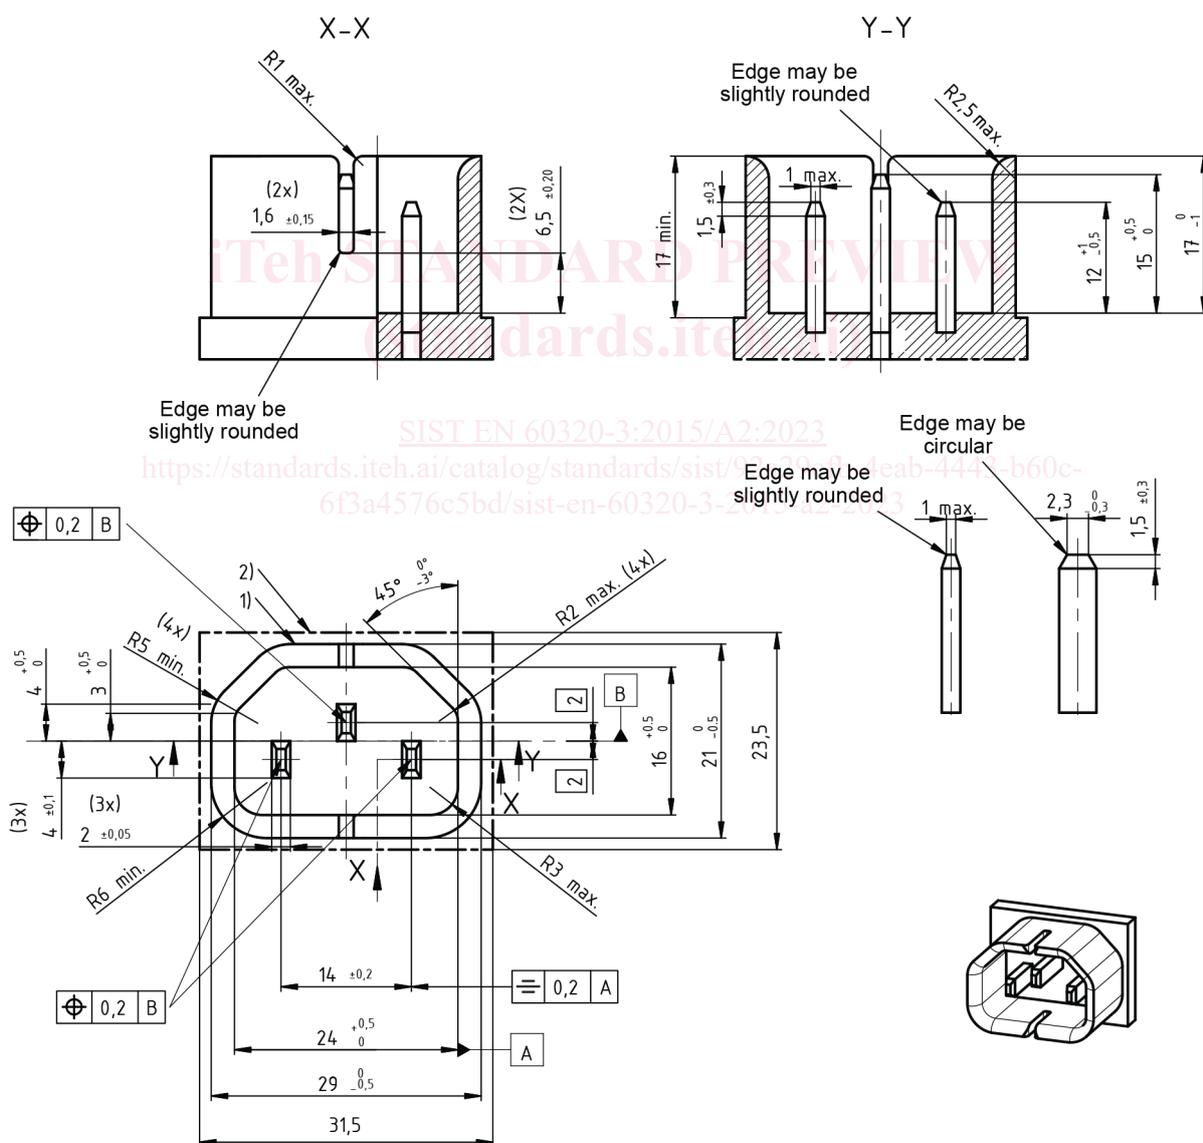

Standard sheet M**Plug connector for 10 A / 250 V for use in class I equipment in hot conditions**

The outline 1) of the front part shall not be exceeded or decreased, at any point, within a distance of 17 mm from the engagement face.

The outline 2) of the rear part shall not be exceeded in any section perpendicular to the axis of the plug connector, except that, for plug connectors with lateral cord entry and for those combined with other accessories, this limitation does not apply in the direction of the axis of the cord or of the actuating member.

The sketches are not intended to govern design except as regards the dimensions shown.

Dimensions in millimetres

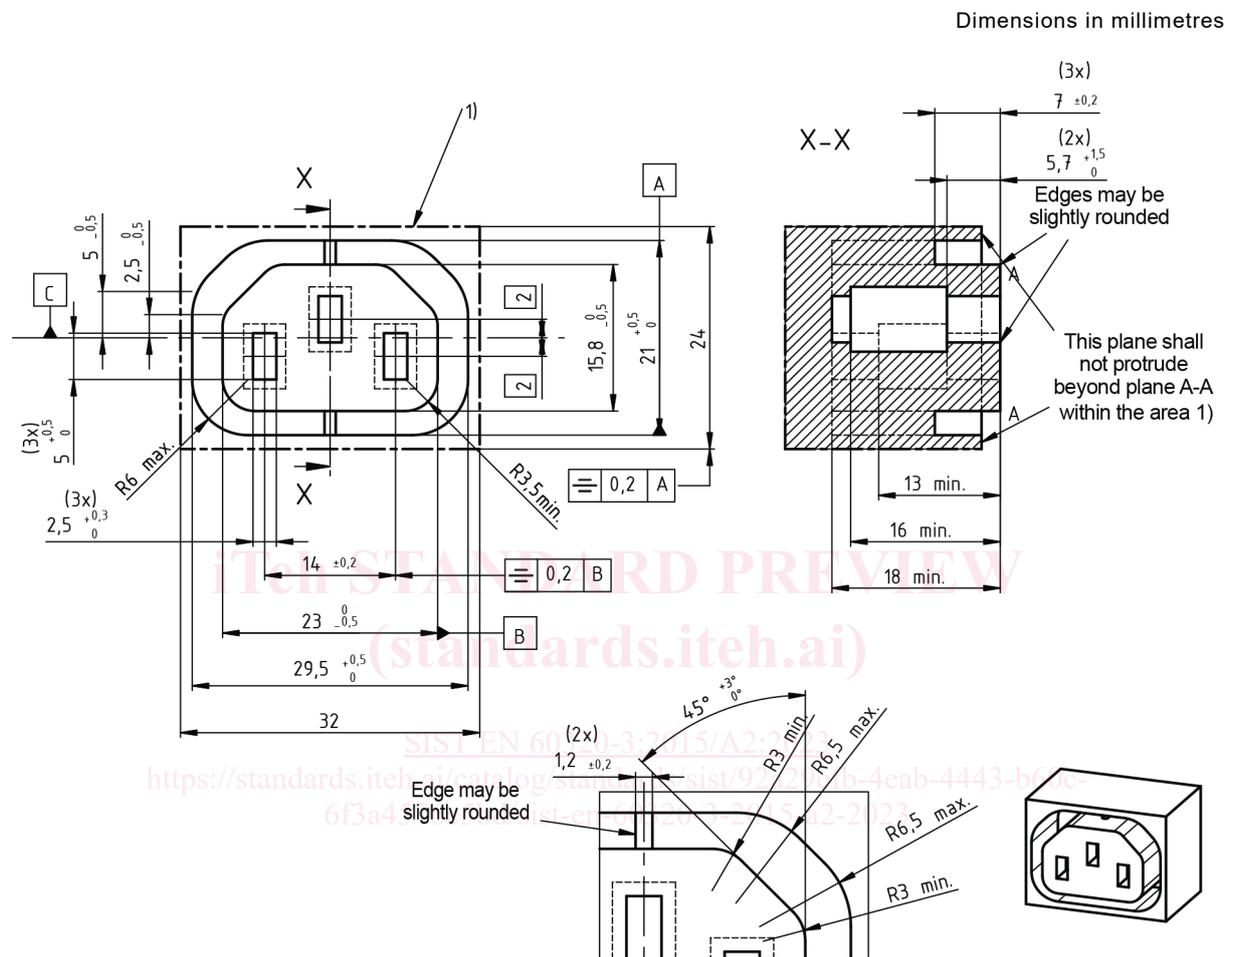

IEC

NOTE The sketches are not intended to govern design, except as regards the dimensions shown. Dimensions without tolerances are only recommendations.

Standard sheet N**Appliance outlet 10 A / 250 V for class I equipment in hot conditions**

The sketches are not intended to govern design except as regards the dimensions shown.

NOTE The sketches are not intended to govern design, except as regards the dimensions shown. Dimensions without tolerances are only recommendations.
