English version

Hyperloop systems - Vocabulary and definition

Systèmes Hyperloop - Vocabulaire et définitions

Hyperloop-Systeme - Begriffsdefinitionen

This draft European Standard is submitted to CEN members for enquiry. It has been drawn up by the Technical Committee CEN/CLC/JTC 20.

If this draft becomes a European Standard, CEN and CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

This draft European Standard was established by CEN and CENELEC in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN and CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN and CENELEC members are the national standards bodies and national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and United Kingdom.

Recipients of this draft are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation. Recipients of this draft are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

Warning : This document is not a European Standard. It is distributed for review and comments. It is subject to change without notice and shall not be referred to as a European Standard.

prEN 18154:2025 (E)**Introduction**

This document is the first vocabulary and definitions standard for Hyperloop technology. It may be expanded or supplemented as Hyperloop technology progresses and develops.

As Hyperloop consists of many different systems, elements, parts, functions etc. that require a common understanding by various stakeholders and developers, the definitions have been grouped in four main categories:

- Generic definitions,
- Hyperloop specific definitions,
- Hyperloop Network definitions,
- Maintenance enabling systems.
