

Designation: A701 – 05 (Reapproved 2010)

Standard Specification for Ferromanganese-Silicon¹

This standard is issued under the fixed designation A701; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ϵ) indicates an editorial change since the last revision or reapproval.

1. Scope

1.1 This specification covers a manganese-silicon alloy.

2. Referenced Documents

2.1 *ASTM Standards*:²

[A1025 Specification for Ferrous Alloys and Other Alloying Materials, General Requirements](#)

3. General Conditions for Delivery

3.1 Materials furnished to this specification shall conform to the requirements of Specification [A1025](#), including any supplementary requirements that are indicated in the purchase order. Failure to comply with the general requirements of Specification [A1025](#) constitutes nonconformance with this specification. In case of conflict between the requirements of this specification and Specification [A1025](#), this specification shall prevail.

¹ This specification is under the jurisdiction of ASTM Committee [A01](#) on Steel, Stainless Steel and Related Alloys and is the direct responsibility of Subcommittee [A01.18](#) on Castings.

Current edition approved April 1, 2010. Published May 2010. Originally approved in 1974. Last previous edition approved in 2005 as A701 – 05. DOI: 10.1520/A0701-05R10.

4. Chemical Requirements

4.1 The alloy shall conform to the chemical requirements as specified in [Table 1](#) and [Table 2](#).

4.2 The manufacturer shall furnish an analysis of each shipment showing the percentage of each element specified.

5. Size

5.1 The alloy is available in the sizes shown in [Table 3](#).

5.2 The sizes listed in [Table 3](#) are typical of the product as shipped from the seller's plant. Some deterioration of size can be expected in transit.

6. Chemical Analysis

6.1 Chemical methods are subject to agreement between the purchaser and supplier.

6.2 *Special Analysis Requirements*—Analysis for additional elements other than those listed in [Tables 1 and 2](#) shall be agreed upon between the purchaser and the manufacturer. Such elements in trace quantities shall be reported as less than “<” the limit of analytical equipment. This shall be agreed upon between the purchaser and the manufacturer.

7. Keywords
