English Version

**Aerospace series - Circuit breakers, three-poles,
temperature compensated, rated currents 1 A to 25 A -
Part 006: 6,3 & 2,8 mm blade terminal - With polarized
signal contact - Product standard**

Série aérospatiale - Disjoncteurs tripolaires compensés
en température, intensités nominales 1 A à 25 A -
Partie 06 : Raccordement par lame 6,3 & 2,8 mm - Avec
contact auxiliaires polarisés - Norme de produit

Luft- und Raumfahrt - Schutzschalter, dreipolig,
temperaturkompensiert, Nennströme von 1 A bis 25 A
Teil 006: Flachsteckverbinder 6,3 & 2,8 mm - Mit
polarisiertem - Signalkontakt Produktnorm

This draft European Standard is submitted to CEN members for enquiry. It has been drawn up by the Technical Committee ASD-STAN.

iTeh STANDARD PREVIEW

If this draft becomes a European Standard, CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

This draft European Standard was established by CEN in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

Recipients of this draft are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

Warning : This document is not a European Standard. It is distributed for review and comments. It is subject to change without notice and shall not be referred to as a European Standard.

European foreword

This document (prEN 2996-006:2021) has been prepared by the Aerospace and Defence Industries Association of Europe — Standardization (ASD-STAN).

After enquiries and votes carried out in accordance with the rules of this Association, this document has received the approval of the National Associations and the Official Services of the member countries of ASD-STAN, prior to its presentation to CEN.

This document is currently submitted to the CEN Enquiry.

iTeh STANDARD PREVIEW (standards.iteh.ai)

[oSIST prEN 2996-006:2021](https://standards.iteh.ai/catalog/standards/sist/195b7f3f-b2b1-432f-a847-d187dc991709/osist-pren-2996-006-2021)

<https://standards.iteh.ai/catalog/standards/sist/195b7f3f-b2b1-432f-a847-d187dc991709/osist-pren-2996-006-2021>

prEN 2996-006:2021 (E)**1 Scope**

This document specifies the characteristics of three-pole circuit breakers, temperature compensated with a rated current from 1 A to 25 A, used in aircraft on-board circuits at a temperature between $-55\text{ }^{\circ}\text{C}$ and $125\text{ }^{\circ}\text{C}$ for ratings $\leq 15\text{ A}$ and $-55\text{ }^{\circ}\text{C}$ to $90\text{ }^{\circ}\text{C}$ for ratings $> 15\text{ A}$ and at an altitude of 15 000 m max.

These circuit breakers are operated by a push-pull type single pushbutton (actuator), with delayed action “trip-free” tripping.

They will continue to function up to the short-circuit current.

2 Normative references

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

3 Terms and definitions

No terms and definitions are listed in this document.

ISO and IEC maintain terminological databases for use in standardization at the following addresses:

- ISO Online browsing platform: available at <https://www.iso.org/obp>
- IEC Electropedia: available at <https://www.electropedia.org/>

4 Dimensions and mass**4.1 Dimensional characteristics**

The circuit breakers do not have to correspond to the pictorial illustration, only the dimensions given shall be adhered to. The mounting surface is the contact surface with the panel.

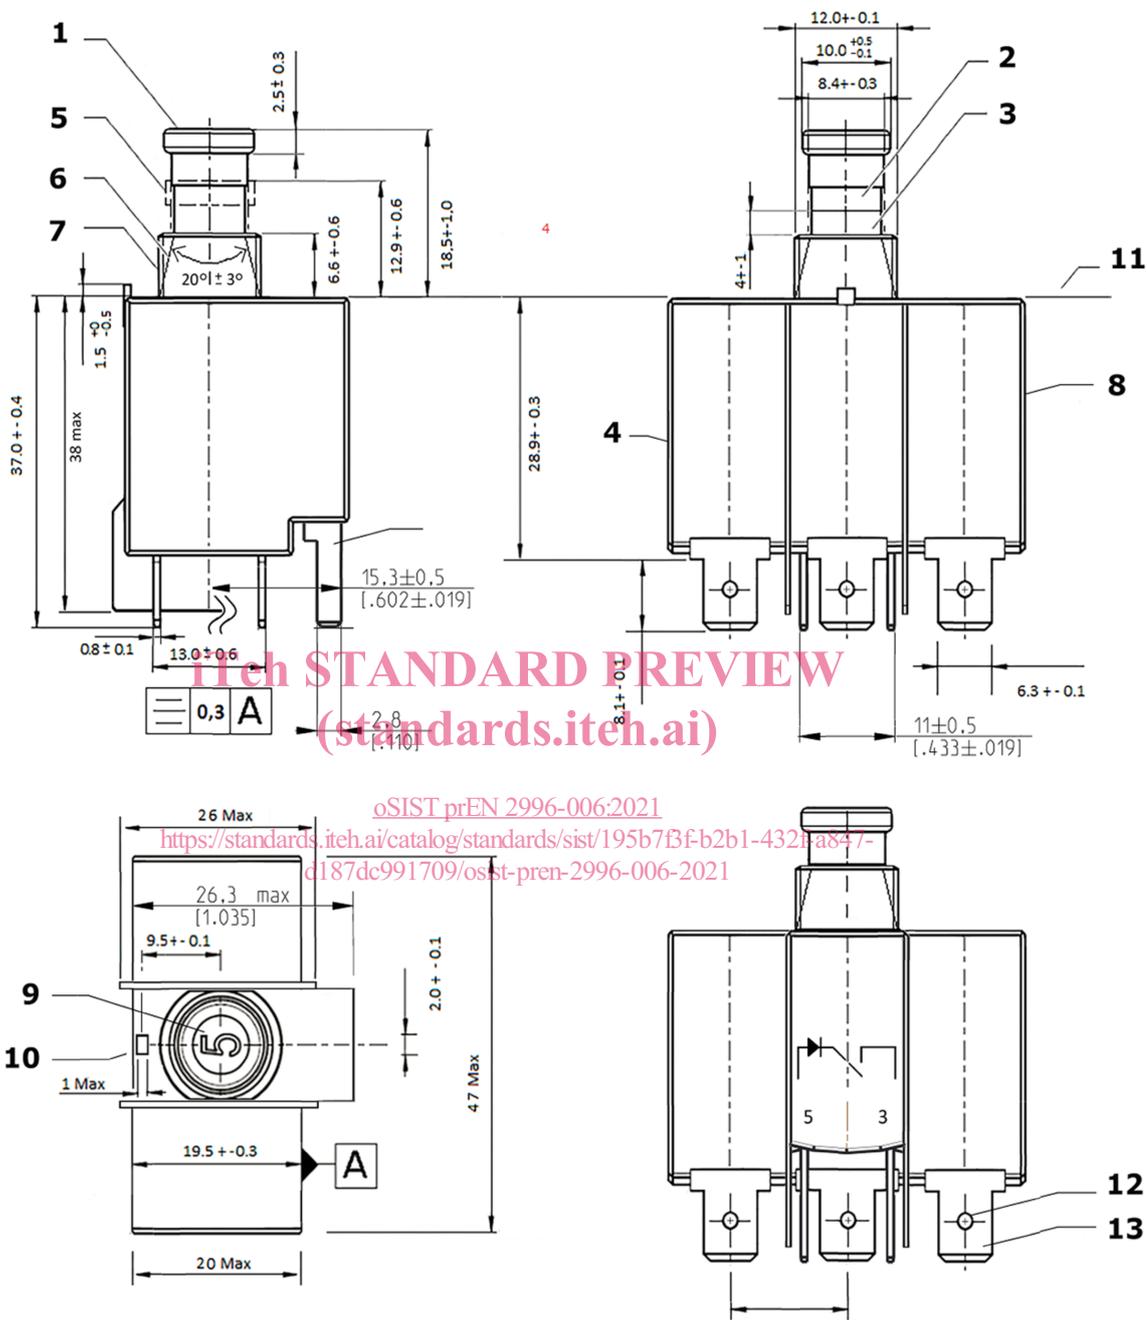

See Figure 1.

prEN 2996-006:2021 (E)**4.3 Mass**

Mass shall not exceed 83 g.

4.4 Panel mounting

Thickness: 1,5 mm to 3 mm.

See EN 2995-001 for the panel mounting.

5 Characteristics**5.1 Material, surface treatment**

See EN 2995-001.

5.2 Mechanical characteristics**5.2.1 Fasteners**

None.

5.2.2 Recommended tightening torque of attaching nut for installation

(4,00 ± 0,25) N.m (for version with threaded barrel and if nut is needed).

5.2.3 Recommended tightening torque of connection hardware for installation

With 6,3 mm terminal blades, test 2842-505 is not applicable.

5.2.4 Resistance to vibrations**5.2.4.1 Combined test: ambient temperature at 70 °C and vibrations**

Sinusoidal : 10 *g*-PK, see EN 3774-001.

Random : 5,8 Grms, see EN 3774-001.

Low frequencies : 10 *g*-PK, see EN 3774-001.

5.2.4.2 Combined test: ambient temperature at 85 °C, altitude and vibrations

Sinusoidal : 3 *g*-PK, see EN 3774-001.

5.2.5 Resistance to shocks

50 *g*-PK, see EN 3774-001.

5.2.6 Mechanical endurance

See Table 6.

5.3 Environment characteristics**5.3.1 Humidity**

See EN 3774-001.

5.3.2 Corrosion

See EN 3774-001.
