This draft amendment is submitted to CEN members for enquiry. It has been drawn up by the Technical Committee CEN/TC 151.

This draft amendment A1, if approved, will modify the European Standard EN 1009-4:2020. If this draft becomes an amendment, CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for inclusion of this amendment into the relevant national standard without any alteration.

This draft amendment was established by CEN in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and United Kingdom.

Recipients of this draft are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

**Warning :** This document is not a European Standard. It is distributed for review and comments. It is subject to change without notice and shall not be referred to as a European Standard.

## **European foreword**

This document (EN 1009-4:2020/prA1:2023) has been prepared by Technical Committee CEN/TC 151 "Construction equipment and building material machines - Safety", the secretariat of which is held by DIN.

This document is currently submitted to the CEN Enquiry.

This document will amend EN 1009-4:2020.

This document has been prepared under a standardization request addressed to CEN by the European Commission. The Standing Committee of the EFTA States subsequently approves these requests for its Member States.

For the relationship with EU Legislation, see informative Annex ZA, which is an integral part of this document.

This part of EN 1009 is intended to be used in conjunction with EN 1009-1:2020+A1—.

A list of all parts in a series can be found on the CEN website: [www.cencenelec.eu](http://www.cencenelec.eu).

[SIST EN 1009-4:2020/prA1:2024](#)

<https://standards.iteh.ai/catalog/standards/sist/3bb7d5c0-df22-4847-85aa-ff9c93fd92b5/sist-en-1009-4-2020-pra1-2024>

**EN 1009-4:2020/prA1:2023****1 Modification to the whole document**

*Throughout the whole text, replace: "EN 1009-1:2020" with "EN 1009-1:2020+A1:—".<sup>1</sup>*

**2 Modification to the European foreword**

*Replace the list of parts in the series (paragraph 7) with the following sentence:*

*"A list of all parts in a series can be found on the CEN website: www.cencenelec.eu."*

**3 Modification to the Scope**

*Replace NOTE 2 with the following:*

*"NOTE 2 EN 1009-6 "Specific requirements for mobile machinery" (under preparation) covers specific requirements (e.g. mobility, braking, access, frequent transportation), including exceptions and additional requirements for mobile equipment. This means that mobile machines are not covered as long as EN 1009-6 is not published by CEN."*

**4 Modification to 4.1, "General"**

*Add after the 3<sup>rd</sup> paragraph, the following:*

*"This requirement does not apply to the use of a visual inspection opening."*

**5 Modification to 4.2.1, "General"**

*Add after the 3<sup>rd</sup> paragraph:*

*"Access for inspection and maintenance from outside of the screen shall comply with 4.2.2 for inspection and 4.2.3 for maintenance. If it is necessary to enter inside the screen for a specific inspection or maintenance task, the respective access and working space shall comply with one of the possibilities described in 4.2.4."*

**6 Modification to 4.2.2.2, "Inspection from outside through access opening(s) with two arms"**

*Replace the first paragraph with the following:*

*"Horizontal access openings for two arms shall be, as illustrated in Figure 2, the following distances:*

*A = min. 645 mm*

*B = min. 221 mm*

*H = max. 1 520 mm".*

**7 Modification to 4.2.2.3, "Inspection from outside from the top"**

*Last paragraph, replace "are" by "is" to read: "... if the access opening is larger than ..."*

---

<sup>1</sup> Under preparation. Current stage of the amendment (to be consolidated with EN 1009-1:2020): EN 1009-1:2020/prA1:2023.
