Important notice

The present document can be downloaded from the
[ETSI Search & Browse Standards application](#).

The present document may be made available in electronic versions and/or in print. The content of any electronic and/or print versions of the present document shall not be modified without the prior written authorization of ETSI. In case of any existing or perceived difference in contents between such versions and/or in print, the prevailing version of an ETSI deliverable is the one made publicly available in PDF format on [ETSI deliver repository](#).

Users should be aware that the present document may be revised or have its status changed,
this information is available in the [Milestones listing](#).

If you find errors in the present document, please send your comments to
the relevant service listed under [Committee Support Staff](#).

If you find a security vulnerability in the present document, please report it through our
[Coordinated Vulnerability Disclosure \(CVD\)](#) program.

Notice of disclaimer & limitation of liability

The information provided in the present deliverable is directed solely to professionals who have the appropriate degree of experience to understand and interpret its content in accordance with generally accepted engineering or other professional standard and applicable regulations.

No recommendation as to products and services or vendors is made or should be implied.

No representation or warranty is made that this deliverable is technically accurate or sufficient or conforms to any law and/or governmental rule and/or regulation and further, no representation or warranty is made of merchantability or fitness for any particular purpose or against infringement of intellectual property rights.

In no event shall ETSI be held liable for loss of profits or any other incidental or consequential damages.

Any software contained in this deliverable is provided "AS IS" with no warranties, express or implied, including but not limited to, the warranties of merchantability, fitness for a particular purpose and non-infringement of intellectual property rights and ETSI shall not be held liable in any event for any damages whatsoever (including, without limitation, damages for loss of profits, business interruption, loss of information, or any other pecuniary loss) arising out of or related to the use of or inability to use the software.

Copyright Notification

No part may be reproduced or utilized in any form or by any means, electronic or mechanical, including photocopying and microfilm except as authorized by written permission of ETSI.

The content of the PDF version shall not be modified without the written authorization of ETSI.

The copyright and the foregoing restriction extend to reproduction in all media.

Intellectual Property Rights

Essential patents

IPRs essential or potentially essential to normative deliverables may have been declared to ETSI. The declarations pertaining to these essential IPRs, if any, are publicly available for **ETSI members and non-members**, and can be found in ETSI SR 000 314: *"Intellectual Property Rights (IPRs); Essential, or potentially Essential, IPRs notified to ETSI in respect of ETSI standards"*, which is available from the ETSI Secretariat. Latest updates are available on the [ETSI IPR online database](#).

Pursuant to the ETSI Directives including the ETSI IPR Policy, no investigation regarding the essentiality of IPRs, including IPR searches, has been carried out by ETSI. No guarantee can be given as to the existence of other IPRs not referenced in ETSI SR 000 314 (or the updates on the ETSI Web server) which are, or may be, or may become, essential to the present document.

Trademarks

The present document may include trademarks and/or tradenames which are asserted and/or registered by their owners. ETSI claims no ownership of these except for any which are indicated as being the property of ETSI, and conveys no right to use or reproduce any trademark and/or tradename. Mention of those trademarks in the present document does not constitute an endorsement by ETSI of products, services or organizations associated with those trademarks.

DECT™, **PLUGTESTS™**, **UMTS™** and the ETSI logo are trademarks of ETSI registered for the benefit of its Members. **3GPP™**, **LTE™** and **5G™** logo are trademarks of ETSI registered for the benefit of its Members and of the 3GPP Organizational Partners. **oneM2M™** logo is a trademark of ETSI registered for the benefit of its Members and of the oneM2M Partners. **GSM®** and the GSM logo are trademarks registered and owned by the GSM Association.

Legal Notice

This Technical Specification (TS) has been produced by ETSI 3rd Generation Partnership Project (3GPP).

The present document may refer to technical specifications or reports using their 3GPP identities. These shall be interpreted as being references to the corresponding ETSI deliverables. (2025-04)

The cross reference between 3GPP and ETSI identities can be found at [3GPP to ETSI numbering cross-referencing](#).

Modal verbs terminology

In the present document **"shall"**, **"shall not"**, **"should"**, **"should not"**, **"may"**, **"need not"**, **"will"**, **"will not"**, **"can"** and **"cannot"** are to be interpreted as described in clause 3.2 of the [ETSI Drafting Rules](#) (Verbal forms for the expression of provisions).

"must" and **"must not"** are **NOT** allowed in ETSI deliverables except when used in direct citation.

7.2	Physical resources	118
7.3	Physical channels	119
7.3.1	Physical downlink shared channel	119
7.3.1.1	Scrambling	119
7.3.1.2	Modulation	119
7.3.1.3	Layer mapping	120
7.3.1.4	Antenna port mapping	121
7.3.1.5	Mapping to virtual resource blocks	122
7.3.1.6	Mapping from virtual to physical resource blocks	122
7.3.2	Physical downlink control channel (PDCCH)	124
7.3.2.1	Control-channel element (CCE)	124
7.3.2.2	Control-resource set (CORESET)	124
7.3.2.3	Scrambling	126
7.3.2.4	PDCCH modulation	126
7.3.2.5	Mapping to physical resources	127
7.3.3	Physical broadcast channel	127
7.3.3.1	Scrambling	127
7.3.3.2	Modulation	127
7.3.3.3	Mapping to physical resources	127
7.4	Physical signals	127
7.4.1	Reference signals	127
7.4.1.1	Demodulation reference signals for PDSCH	127
7.4.1.1.1	Sequence generation	127
7.4.1.1.2	Mapping to physical resources	128
7.4.1.2	Phase-tracking reference signals for PDSCH	133
7.4.1.2.1	Sequence generation	133
7.4.1.2.2	Mapping to physical resources	133
7.4.1.3	Demodulation reference signals for PDCCH	134
7.4.1.3.1	Sequence generation	134
7.4.1.3.2	Mapping to physical resources	135
7.4.1.4	Demodulation reference signals for PBCH	135
7.4.1.4.1	Sequence generation	135
7.4.1.4.2	Mapping to physical resources	136
7.4.1.5	CSI reference signals	136
7.4.1.5.1	General	136
7.4.1.5.2	Sequence generation	136
7.4.1.5.3	Mapping to physical resources	136
7.4.1.6	RIM reference signals	139
7.4.1.6.1	General	139
7.4.1.6.2	Sequence generation	139
7.4.1.6.3	Mapping to physical resources	140
7.4.1.6.4	RIM-RS configuration	140
7.4.1.6.4.1	General	140
7.4.1.6.4.2	Time-domain parameters and mapping from it to time-domain parameters	141
7.4.1.6.4.3	Frequency-domain parameters and mapping from it to frequency-domain parameters	141
7.4.1.6.4.4	Sequence parameters and mapping from it to sequence parameters	142
7.4.1.6.4.5	Mapping between resource triplet and set ID	142
7.4.1.7	Positioning reference signals	143
7.4.1.7.1	General	143
7.4.1.7.2	Sequence generation	143
7.4.1.7.3	Mapping to physical resources in a downlink PRS resource	143
7.4.1.7.4	Mapping to slots in a downlink PRS resource set	144

7.4.2	Synchronization signals	145
7.4.2.1	Physical-layer cell identities.....	145
7.4.2.2	Primary synchronization signal.....	145
7.4.2.2.1	Sequence generation	145
7.4.2.2.2	Mapping to physical resources	145
7.4.2.3	Secondary synchronization signal	145
7.4.2.3.1	Sequence generation	145
7.4.2.3.2	Mapping to physical resources	146
7.4.3	SS/PBCH block	146
7.4.3.1	Time-frequency structure of an SS/PBCH block	146
7.4.3.1.1	Mapping of PSS within an SS/PBCH block	147
7.4.3.1.2	Mapping of SSS within an SS/PBCH block	147
7.4.3.1.3	Mapping of PBCH and DM-RS within an SS/PBCH block	148
7.4.3.2	Time location of an SS/PBCH block.....	148
8	Sidelink.....	148
8.1	Overview	148
8.1.1	Overview of physical channels	148
8.1.2	Overview of physical signals.....	148
8.2	Physical resources	149
8.2.1	General.....	149
8.2.2	Numerologies.....	149
8.2.3	Frame structure	149
8.2.3.1	Frames and subframes.....	149
8.2.3.2	Slots.....	149
8.2.4	Antenna ports.....	149
