English Version

**Cranes - Loader cranes - Interface between loader cranes
and work platforms**

Appareils de levage à charge suspendue - Grues de
chargement - Interface entre les grues de chargement
et les plates-formes de travail

Krane - Ladekrane - Schnittstelle zwischen Ladekranen
und Arbeitsbühnen

This Technical Specification (CEN/TS) was approved by CEN on 29 January 2024 for provisional application.

The period of validity of this CEN/TS is limited initially to three years. After two years the members of CEN will be requested to submit their comments, particularly on the question whether the CEN/TS can be converted into a European Standard.

CEN members are required to announce the existence of this CEN/TS in the same way as for an EN and to make the CEN/TS available promptly at national level in an appropriate form. It is permissible to keep conflicting national standards in force (in parallel to the CEN/TS) until the final decision about the possible conversion of the CEN/TS into an EN is reached.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and United Kingdom.

European foreword

This document (CEN/TS 17471:2024) has been prepared by Technical Committee CEN/TC 147, “Cranes - Safety”, the secretariat of which is held by DIN.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN shall not be held responsible for identifying any or all such patent rights.

Any feedback and questions on this document should be directed to the users’ national standards body. A complete listing of these bodies can be found on the CEN website.

According to the CEN/CENELEC Internal Regulations, the national standards organisations of the following countries are bound to announce this Technical Specification: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and the United Kingdom.

CEN/TS 17471:2024 (E)

Introduction

Machinery within the scope of EN 12999:2020 can be equipped with a work platform as interchangeable equipment. Machinery designed for handling of goods which is equipped with a work platform as interchangeable equipment is within the scope of EN 280-1:2022.

However, EN 280-1:2022 does not cover hazards arising from machineries allowing several uses, nor does it cover the specific hazards related to the combination of a work platform as interchangeable equipment with a basic machinery within the scope of EN 12999:2020.

The machinery concerned and the extent to which hazards are covered by this document are indicated in the scope of this document.

This document is of particular relevance for the following stakeholder groups:

- machine manufacturers (small, medium and large enterprises);
- health and safety bodies (regulators, accident prevention organizations, market surveillance, etc.).
