## COMMITTEE DRAFT FOR VOTE (CDV)

PROJECT NUMBER:

**IEC 60704-2-20 ED1**

DATE OF CIRCULATION:

**2024-02-09**

CLOSING DATE FOR VOTING:

**2024-05-03**

SUPERSEDES DOCUMENTS:

**59F/468A/CD, 59F/470A/CC**

IEC SC 59F : SURFACE CLEANING APPLIANCES	
SECRETARIAT: Sweden	SECRETARY: Mr Ingvar Eriksson
OF INTEREST TO THE FOLLOWING COMMITTEES: TC 61	PROPOSED HORIZONTAL STANDARD: <input type="checkbox"/> Other TC/SCs are requested to indicate their interest, if any, in this CDV to the secretary.
FUNCTIONS CONCERNED: <input type="checkbox"/> EMC <input checked="" type="checkbox"/> ENVIRONMENT <input type="checkbox"/> QUALITY ASSURANCE <input type="checkbox"/> SAFETY	
<input checked="" type="checkbox"/> SUBMITTED FOR CENELEC PARALLEL VOTING <b>Attention IEC-CENELEC parallel voting</b> The attention of IEC National Committees, members of CENELEC, is drawn to the fact that this Committee Draft for Vote (CDV) is submitted for parallel voting. The CENELEC members are invited to vote through the CENELEC online voting system.	<input type="checkbox"/> NOT SUBMITTED FOR CENELEC PARALLEL VOTING

This document is still under study and subject to change. It should not be used for reference purposes.

Recipients of this document are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

Recipients of this document are invited to submit, with their comments, notification of any relevant "In Some Countries" clauses to be included should this proposal proceed. Recipients are reminded that the CDV stage is the final stage for submitting ISC clauses. (SEE [AC/22/2007](#) OR [NEW GUIDANCE DOC](#)).

TITLE:

**Household and similar electrical appliances - Test code for the determination of airborne acoustical noise - Part 2-20: Particular requirements for wet hard floor cleaning appliances**

PROPOSED STABILITY DATE: 2026

## CONTENTS

FOREWORD .....	3
INTRODUCTION .....	5
1 Scope .....	6
2 Normative references .....	6
3 Terms and definitions .....	6
4 Measurement methods and acoustical environments .....	8
4.2 Direct method .....	8
4.3 Comparison method .....	8
4.5 Measurement uncertainties .....	8
4.5.2 Standard deviations on repeatability and reproducibility and standard deviations related to declaration and verification .....	8
5 Instrumentation .....	9
5.1 Instrumentation for measuring acoustical data .....	9
6 Operation and location of appliances under test .....	9
6.1 Equipping and pre-conditioning of appliances .....	9
6.2 Supply of electric energy and of water or gas .....	11
6.4 Loading and operating of appliances during tests .....	11
6.5 Location and mounting of appliances .....	11
7 Measurement of sound pressure levels .....	15
7.1 Measurements .....	15
8 Calculation of sound pressure and sound power levels .....	15
9 Information to be recorded .....	15
10 Information to be reported .....	15
Annexes .....	16
Annex A (normative) Standard test table .....	16
Figure 101 – Appliance with cleaning head connected directly .....	13
Figure 102 – Appliance with the cleaning head connected by hose and connecting tube .....	14
Table 101 – Standard deviations of sound power levels determined on hard floors .....	8
Table 102 – Standard deviations for declaration and verification for wet cleaners on hard floors .....	8

## INTERNATIONAL ELECTROTECHNICAL COMMISSION

HOUSEHOLD AND SIMILAR ELECTRICAL APPLIANCES –  
TEST CODE FOR THE DETERMINATION  
OF AIRBORNE ACOUSTICAL NOISE –

**Part 2-20: Particular requirements for wet hard floor cleaning appliances**

FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as "IEC Publication(s)"). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC itself does not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. IEC is not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) IEC draws attention to the possibility that the implementation of this document may involve the use of (a) patent(s). IEC takes no position concerning the evidence, validity or applicability of any claimed patent rights in respect thereof. As of the date of publication of this document, IEC had not received notice of (a) patent(s), which may be required to implement this document. However, implementers are cautioned that this may not represent the latest information, which may be obtained from the patent database available at <https://patents.iec.ch>. IEC shall not be held responsible for identifying any or all such patent rights.

IEC 60704-2-20 has been prepared by subcommittee 59F: Surface cleaning appliances, of IEC technical committee 59: Performance of household and similar electrical appliances. It is an International Standard.

The text of this International Standard is based on the following documents:

Draft	Report on voting
59F/XX/FDIS	59F/XX/RVD

53  
54 Full information on the voting for its approval can be found in the report on voting indicated in  
55 the above table.

56 The language used for the development of this International Standard is English.

57 This document was drafted in accordance with ISO/IEC Directives, Part 2, and developed in  
58 accordance with ISO/IEC Directives, Part 1 and ISO/IEC Directives, IEC Supplement, available  
59 at [www.iec.ch/members\\_experts/refdocs](http://www.iec.ch/members_experts/refdocs). The main document types developed by IEC are  
60 described in greater detail at [www.iec.ch/publications](http://www.iec.ch/publications).

61 This Part 2-20 is intended to be used in conjunction with IEC 60704-1:2021, *Household and*  
62 *similar electrical appliances – Test code for the determination of airborne acoustical noise –*  
63 *Part 1: General requirements*.

64 NOTE When "Part 1" is mentioned in this standard, it refers to IEC 60704-1:2021.

65 The relevant text of Part 1 as amended by this document establishes the test code for wet hard  
66 floor cleaners.

67 This Part 2-20 supplements or modifies the corresponding clauses in IEC 60704-1:2021. When  
68 a particular subclause of Part 1 is not mentioned in this Part 2-20, that subclause is applicable  
69 as far as reasonable. Where this standard states "addition", "modification" or "replacement",  
70 the relevant requirements, test specifications or explanatory matter in Part 1 should be adapted  
71 accordingly.

72 Subclauses, tables, and figures that are additional to those in Part 1 are numbered starting from  
73 101. Additional annexes are lettered AA, BB, etc.

74 Unless notes are in a new subclause or involve notes in Part 1, they are numbered starting from  
75 101, including those in a replaced clause or subclause.

76 A list of all the parts in the IEC 60704 series, published under the general title *Household and*  
77 *similar electrical appliances – Test code for the determination of airborne acoustical noise*, can  
78 be found on the IEC website.

79 The committee has decided that the contents of this document will remain unchanged until the  
80 stability date indicated on the IEC website under [webstore.iec.ch](http://webstore.iec.ch) in the data related to the  
81 specific document. At this date, the document will be

- 82 • reconfirmed,
- 83 • withdrawn,
- 84 • replaced by a revised edition, or
- 85 • amended.
