

SLOVENSKI STANDARD oSIST prEN ISO 7510:2023

01-december-2023

Cevni sistemi iz polimernih materialov - Sestavni deli iz polimernih materialov, ojačenih s steklenimi vlakni (GRP) - Določanje količine sestavin (ISO 7510:2017)

Plastics piping systems - Glass-reinforced plastics (GRP) components - Determination of the amounts of constituents (ISO 7510:2017)

Kunststoff-Rohrleitungssysteme - Teile aus glasfaserverstärkten Kunststoffen (GFK) - Ermittlung der Gehalte von Bestandteilen (ISO 7510:2017)

Systèmes de canalisations en matières plastiques - Composants plastiques renforcés de verre (PRV) - Détermination des teneurs des constituants (ISO 7510:2017)

Ta slovenski standard je istoveten z: prEN ISO 7510

ICS:

23.040.20 Cevi iz polimernih materialov Plastics pipes

83.120 Ojačani polimeri Reinforced plastics

ISO 7510:2017(E)

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see www.iso.org/directives).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received (see www.iso.org/patents).

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation on the voluntary nature of standards, the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the World Trade Organization (WTO) principles in the Technical Barriers to Trade (TBT) see the following URL: www.iso.org/iso/foreword.html.

This document was prepared by Technical Committee ISO/TC 138, *Plastics pipes, fittings and valves for the transport of fluids*, Subcommittee SC 6, *Reinforced plastics pipes and fittings for all applications*.

This second edition cancels and replaces the first edition (ISO 7510:1997), which has been technically revised.

The main changes compared to the previous edition are as follows:

- tpmodified the title; i/catalog/standards/sist/d7e8e6ff-0c9f-4d2a-af1f-599f3071363a/osist-pren-iso-7510-2023
- clarified accuracy statements;
- eliminated specific sample size;
- referenced ISO 3126 for dimension determination;
- allowed use of test specimens taken from mechanical property test samples.
