This draft amendment prAA, if approved, will modify the European Standard prEN IEC 60335-2-3:2024; it is submitted to CENELEC members for enquiry.

Deadline for CENELEC: 2024-08-16.

It has been drawn up by CLC/TC 61.

If this draft becomes an amendment, CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this amendment the status of a national standard without any alteration.

This draft amendment was established by CENELEC in three official versions (English, French, German).

A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and the United Kingdom.

Recipients of this draft are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

Warning : This document is not a European Standard. It is distributed for review and comments. It is subject to change without notice and shall not be referred to as a European Standard.

14 1 Modification to the Introduction

15 *Addition:*

16 With European amendment A11, EN 60335-2-3:2016+A1:2020 is superseded.

17 This European amendment A11 supplements or modifies the corresponding clauses of the standards
18 below:

19 — EN IEC 60335-1:2023+A11:2023 (Part 1)

20 — EN IEC 60335-2-3:2024 (Part 2)

21 2 Modification to Clause 1, “Scope”

22 *Replace the fourth paragraph starting with “As far as is practicable ...” up to “... in general, it does not
23 take into account” except for the dashed items with the following:*

24 “This standard deals with the reasonably foreseeable hazards presented by appliances and machines
25 that are encountered by all persons. However, in general, it does not take into account.”

26 *Add before the sixth paragraph starting with “Attention is drawn to the fact” the following:*

27 “It is recognized that people with disabilities can have needs beyond the level addressed in this
28 standard.”

Issue Manager’s note: The above sentence is considered a good alternative for the original sentence “It is recognized that very vulnerable people may have needs beyond the level addressed in this standard.” As the term “very vulnerable people” is no longer a defined term.

29 3 Modification to Clause 2, “Normative references”

30 *Addition:*

31 EN IEC 60335-1:2023,¹ *Household and similar electrical appliances - Safety - Part 1: General
32 requirements*

33 4 Modification to Clause 7, “Markings and instructions”

34 **7.12** *Add as a new dashed item:*

35 — the intended use of the appliance as covered by the scope of this standard;

36 — Do not let cord hang over edge of table or counter, or touch hot surfaces.

Issue manager’s note: The above sentence is considered a good alternative for the original warning sentence “Keep the iron and its cord out of reach of small children when it is energized or cooling down.”

37 5 Modification to Clause 22, “Construction”

38 **22.40** *Addition:*

39 “**Remote operation** or a delayed start timer is not allowed.”

40 **22.49** *Addition:*

41 “For the purpose of this requirement, appliances cannot operate continuously without giving rise to a
42 hazard.”

¹ As impacted by EN IEC 60335-1:2023/A11:2023.

prEN IEC 60335-2-3:2024/prAA:2024 (E)

43 **22.51 Addition:**

44 “For the purpose of this requirement, appliances cannot operate continuously without giving rise to a
45 hazard.”

46 *Add the following new subclause:*

47 “**22.Z101** For irons fitted with a **supply cord**, other than those with a separate reservoir or boiler, the
48 free length of the supply cord, measured between the point where the cord or the cord guard enters
49 the iron and the point where the cord or cord guard enters the plug, shall be more than 1,9 m.”

50 **6 Modification to Clause 31, “Resistance to rusting”**

51 *Replace* “This clause of Part 1 is applicable” *with* “This clause of Part 1 is not applicable”.

52 **7 Modification to annexes**

53 *At the end of the sentence starting with* “The annexes of Part 1 are applicable” *add* “except as follows”
54 *and the following:*

55 **Annex ZA**
56 (normative)

57 **Normative references to international publications with their**
58 **corresponding European publications**

59 *Addition:*
