Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular, the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see www.iso.org/directives).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received (see www.iso.org/patents).

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation of the voluntary nature of standards, the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the World Trade Organization (WTO) principles in the Technical Barriers to Trade (TBT), see www.iso.org/iso/foreword.html.

This document was prepared by Technical Committee ISO/TC 211, *Geographic information/Geomatics*, in collaboration with the European Committee for Standardization (CEN) Technical Committee CEN/TC 287, *Geographic Information*, in accordance with the Agreement on technical cooperation between ISO and CEN (Vienna Agreement).

A list of all parts in the ISO 19135 series can be found on the ISO website.

Any feedback or questions on this document should be directed to the user's national standards body. A complete listing of these bodies can be found at www.iso.org/members.html.

Part 1: Fundamentals

AMENDMENT 1

Foreword, last paragraph

At the end of the last bullet point of the last paragraph explaining the cancellation of ISO 19135:2005, add the following footnote:

¹⁾ Withdrawn.

After the last bullet point of the last paragraph explaining the cancellation of ISO 19135:2005, add the following NOTE:

“NOTE The XML schema in ISO/TS 19135-2:2012 was an implementation of ISO 19135:2005. ISO/TS 19135-2:2012 was therefore withdrawn in 2019. ISO 19135-1:2015/Amd.1:2021 incorporates the provisions of the withdrawn ISO/TS 19135-2:2012 by way of a new Annex G which provides a link to an externally-held schema.”

ISO 19135-1:2015/Amd 1:2021

Introduction

Delete “Annex C is particularly applicable to registers established under the auspices of ISO/TC 211.”

Insert before the last paragraph:

“Annex G describes XML implementation of this document.”

Normative references

Replace the reference to “ISO 19103: —¹⁾” with the following:

“ISO 19103:2015, *Geographic information — Conceptual schema language*”

Delete footnote 1).

4.2

Add the following to the end of the list:

“XML Extensible Markup Language”

6.1

Replace “Establishment of ISO/TC 211 registers is described in Annex C” with the following:

“ISO TC 211 Good practices at <https://committee.iso.org/sites/tc211/home/resolutions/isotc-211-good-practices.html> describes how to use this document for an ISO managed register.”

6.7

Delete the last sentence:

“The register manager may charge for the cost of reproduction and distribution of such copies.”

7.2.2, Attribute named ‘identifier’

Delete EXAMPLE.

Annex C

Delete Annex C.
