

ISO/IEC JTC 1/SC 29/WG 03 **N0489**

ISO/IEC JTC 1/SC 29/WG 03

MPEG Systems

Convenorship: KATS (Korea, Republic of)

Document type: Output Document

Title: Revised text of ISO/IEC FDIS 23090-8 2nd edition Network-based
Media Processing

Status: Approved

Date of document: 2022-02-05

Source: ISO/IEC JTC 1/SC 29/WG 03

Expected action: None

Action due date: None

No. of pages: 223 (with cover page)

Email of Convenor: young.L@samsung.com

Committee URL: <https://isotc.iso.org/livelink/livelink/open/jtc1sc29wg3>

9.25	Configuration descriptor parameters	124
9.25.1	Generic parameter representation	124
9.25.2	Example of parameter representation	125
10	Workflow manager, task, function repository, and MPE requirements	128
10.1	Workflow manager requirements	128
10.2	Function repository requirements	129
10.3	Task requirements	129
10.4	MPE requirements	130
11	NBMP support for media formats and metadata	130
11.1	General	130
11.2	Media formats	130
11.3	Application formats	130
11.4	Metadata formats	131
12	Security considerations in NBMP	131
12.1	Overview	131
12.2	Secure and authenticated channels between NBMP client and NBMP workflow manager	131
12.2.1	General	131
12.2.2	Secure communication channel between NBMP client and NBMP workflow manager	131
12.2.3	NBMP client authentication to workflow manager	131
12.2.4	Workflow manager authentication to NBMP client	132
12.2.5	Secure channels for task communication	132
12.2.6	NBMP client authentication/authorization to workflow task	132
12.2.7	Workflow task authentication to NBMP client	132
12.2.8	Secure channel for NBMP client and task communication	132
12.2.9	MPE security	133
12.2.10	Network security	133
Annex A (normative)	JSON schemas	134
A.1	General	134
Annex B (normative)	NBMP workflow management	135
B.1	Description of workflow management	135
B.2	NBMP workflow management	135
B.2.1	NBMP workflow creation	135
B.2.2	NBMP workflow update	137
Annex C (normative)	Schema for identifying the NBMP standard and MPEG compatible functions	139
C.1	General	139
C.2	Identifier schema	139
C.3	Identifier schema for function reference templates	139
Annex D (normative)	NBMP MIME types	140
D.1	General	140

D.2	MIME type and subtype for WDD	140
D.3	MIME type and subtype for TDD	141
D.4	MIME type and subtype for FDD	141
D.5	MIME type and subtype for MDD	142
D.6	MIME type and subtype for segment location metadata byte format	143
D.7	MIME type and subtype for segment sequence metadata byte format	144
D.8	MIME type and subtype for segment location metadata JSON format	145
D.9	MIME type and subtype for segment sequence metadata JSON format	145
Annex E (informative)	Interface for managing function descriptions in function repository	147
E.1	General	147
E.2	Function description management API	147
Annex F (normative)	Reference function templates	148
F.1	General	148
F.2	Function reference templates	148
F.2.1	360° stitcher	148
