

DRAFT AMENDMENT ISO 22042:2021/DAM 1

ISO/TC 86/SC 7

Secretariat: UNI

Voting begins on:
2022-05-31

Voting terminates on:
2022-08-23

Blast chiller and freezer cabinets for professional use — Classification, requirements and test conditions

AMENDMENT 1

Cellules de refroidissement et de surgélation rapide pour usage professionnel — Classification, exigences et conditions d'essai

AMENDEMENT 1

ICS: 97.130.20

<https://standards.iteh.ai/catalog/standards/sist/57a6bbaf-d194-4177-958a-fb4782975fee/iso-22042-2021-fdamd-1>

This document is circulated as received from the committee secretariat.

THIS DOCUMENT IS A DRAFT CIRCULATED FOR COMMENT AND APPROVAL. IT IS THEREFORE SUBJECT TO CHANGE AND MAY NOT BE REFERRED TO AS AN INTERNATIONAL STANDARD UNTIL PUBLISHED AS SUCH.

IN ADDITION TO THEIR EVALUATION AS BEING ACCEPTABLE FOR INDUSTRIAL, TECHNOLOGICAL, COMMERCIAL AND USER PURPOSES, DRAFT INTERNATIONAL STANDARDS MAY ON OCCASION HAVE TO BE CONSIDERED IN THE LIGHT OF THEIR POTENTIAL TO BECOME STANDARDS TO WHICH REFERENCE MAY BE MADE IN NATIONAL REGULATIONS.

RECIPIENTS OF THIS DRAFT ARE INVITED TO SUBMIT, WITH THEIR COMMENTS, NOTIFICATION OF ANY RELEVANT PATENT RIGHTS OF WHICH THEY ARE AWARE AND TO PROVIDE SUPPORTING DOCUMENTATION.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular, the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see www.iso.org/directives).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received (see www.iso.org/patents).

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation of the voluntary nature of standards, the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the World Trade Organization (WTO) principles in the Technical Barriers to Trade (TBT), see www.iso.org/iso/foreword.html.

This document was prepared by Technical Committee ISO/TC 86, Refrigeration and air-conditioning, Subcommittee SC 7, Testing and rating of commercial refrigerated display cabinets, in collaboration with the European Committee for Standardization (CEN) Technical Committee CEN/TC 44, Commercial and professional refrigerating appliances and systems, performance and energy consumption, in accordance with the Agreement on technical cooperation between ISO and CEN (Vienna Agreement).

Any feedback or questions on this document should be directed to the user's national standards body. A complete listing of these bodies can be found at www.iso.org/members.html.

Blast chiller and freezer cabinets for professional use — Classification, requirements and test conditions

AMENDMENT 1

1 Page 2, [Clause 3](#)

Addition of the following clause:

3.3

test load

sum of the test food, in kg, used in all pans
and renumbering of the remaining sub-clauses.

2 Page 8, [Clause 5.6](#).

Addition of the two following sentences just after the 11th paragraph:

"The test load used for the chilling cycle shall not deviate more than 3 % from the full load capacity.
The test load used for the freezing cycle shall not deviate more than 3 % from the full load capacity."

3 Page 9, [Clause 6](#)

Replacement of the last two paragraphs with the following sentence:

"The full load capacity shall be considered for the calculation of the energy consumption."
