This amendment A11 modifies the European Standard EN 60076-1:1997; it was approved by CENELEC on 1997-10-01. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this amendment the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This amendment exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This amendment was prepared by the Technical Committee CENELEC TC 14, Power transformers.

The text of the draft was submitted to the Unique Acceptance Procedure and was approved by CENELEC as amendment A11 to EN 60076-1:1997 on 1997-10-01.

The following dates were fixed:

- latest date by which the amendment has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 1998-06-01
- latest date by which the national standards conflicting with the amendment have to be withdrawn (dow) -

Add the following clause:

11 Electromagnetic compatibility (EMC)

Power transformers shall be considered as passive elements in respect to emission of and immunity to electromagnetic disturbances.

NOTE 1: Certain accessories may be susceptible to electromagnetic interferences.

NOTE 2: Report R014-001 describes electromagnetic aspects of transformers and provides some methods of evaluating electric and magnetic fields related to the connections.

NOTE 3: Passive elements are not liable to cause electromagnetic disturbances and their performance is not liable to be affected by such disturbances.
