Ref. No. ISO 3366-1975 (E)

Descriptors : tools, abrasives, rolls, designation, dimensions.

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO Member Bodies). The work of developing International Standards is carried out through ISO Technical Committees. Every Member Body interested in a subject for which a Technical Committee has been set up has the right to be represented on that Committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the Technical Committees are circulated to the Member Bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 3366 was drawn up by Technical Committee ISO/TC 29, *Small tools*, and circulated to the Member Bodies in December 1973.

STANDARD PREVIEW
(standards.iteh.ai)

It has been approved by the Member Bodies of the following countries :

Austria
Belgium
Bulgaria
Canada
Czechoslovakia
Egypt, Arab Rep. of
France
Germany
Hungary

India
Israel
Italy
Netherlands
New Zealand
Poland
Romania
South Africa, Rep. of
Spain

ISO 3366:1975

Sweden

Switzerland

Thailand

Turkey

United Kingdom

U.S.A.

U.S.S.R.

Yugoslavia

No Member Body expressed disapproval of the document.

Coated abrasives — General purpose rolls — Any backing — Designation and dimensions

iTeh STANDARD PREVIEW (standards.iteh.ai)

1 SCOPE AND FIELD OF APPLICATION

This International Standard lays down the dimensions of general purpose abrasive rolls incorporating flanges — any backing — and specifies the designation of these rolls.

2 DESIGNATION

The designation of general purpose rolls consists of the width l , followed by the length L .

Example :

Designation of a general purpose roll of width $l = 25$ mm and length $L = 50\,000$ mm :

General purpose roll 25 × 50 000

(The nature of the backing shall be indicated.)

3 DIMENSIONS

3.1 Widths l (in millimetres)

12,5 – 25 – 40 – 50

3.2 Lengths L (in millimetres)

25 000 – 50 000
