

FINAL DRAFT

Technical Specification

ISO/DTS 25006

Traditional Chinese medicine — Sporoderm-broken *Ganoderma lucidum* spore powder

ISO/TC 249/SC 1

Secretariat: **SAC**

Voting begins on:
2025-04-22

Voting terminates on:
2025-06-17

RECIPIENTS OF THIS DRAFT ARE INVITED TO SUBMIT, WITH THEIR COMMENTS, NOTIFICATION OF ANY RELEVANT PATENT RIGHTS OF WHICH THEY ARE AWARE AND TO PROVIDE SUPPORTING DOCUMENTATION.

IN ADDITION TO THEIR EVALUATION AS BEING ACCEPTABLE FOR INDUSTRIAL, TECHNOLOGICAL, COMMERCIAL AND USER PURPOSES, DRAFT INTERNATIONAL STANDARDS MAY ON OCCASION HAVE TO BE CONSIDERED IN THE LIGHT OF THEIR POTENTIAL TO BECOME STANDARDS TO WHICH REFERENCE MAY BE MADE IN NATIONAL REGULATIONS.

Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Requirements	2
4.1 General characteristics	2
4.2 Microscopic features	2
4.3 High performance liquid chromatography (HPLC) identification	2
4.4 Moisture	2
4.5 Total ash	3
4.6 Peroxide value	3
4.7 Sporoderm-broken rate	3
4.8 Aflatoxins B ₁	3
4.9 Marker compounds	3
4.10 Microorganisms	3
4.11 Heavy metals	3
4.12 Pesticide residues	3
5 Test methods	3
5.1 General characteristics	3
5.2 Microscopic identification	3
5.3 High performance liquid chromatography (HPLC) identification	3
5.4 Determination of moisture content	3
5.5 Determination of total ash	3
5.6 Determination of peroxide value	4
5.7 Determination of sporoderm-broken rate	4
5.8 Determination of aflatoxins B ₁	4
5.9 Determination of marker compounds	4
5.10 Determination of microorganisms	4
5.11 Determination of heavy metals	4
5.12 Determination of pesticide residues	4
6 Test report	4
7 Packaging, storage and transportation	4
8 Marking and labelling	5
Annex A (informative) High performance liquid chromatography (HPLC) identification	6
Annex B (informative) Determination of peroxide value	8
Annex C (informative) Determination of sporoderm-broken rate	9
Annex D (informative) Determination of polysaccharides content	10
Annex E (informative) Determination of the triterpenoids content by high performance liquid chromatography - ultraviolet (HPLC-UV)	12
Annex F (informative) Reference information of national and regional requirements	15
Bibliography	17

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular, the different approval criteria needed for the different types of ISO document should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see www.iso.org/directives).

ISO draws attention to the possibility that the implementation of this document may involve the use of (a) patent(s). ISO takes no position concerning the evidence, validity or applicability of any claimed patent rights in respect thereof. As of the date of publication of this document, ISO had not received notice of (a) patent(s) which may be required to implement this document. However, implementers are cautioned that this may not represent the latest information, which may be obtained from the patent database available at www.iso.org/patents. ISO shall not be held responsible for identifying any or all such patent rights.

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation of the voluntary nature of standards, the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the World Trade Organization (WTO) principles in the Technical Barriers to Trade (TBT), see www.iso.org/iso/foreword.html.

This document was prepared by Technical Committee ISO/TC 249, *Traditional medicine*, Subcommittee SC 1, *Traditional Chinese medicine*.

Any feedback or questions on this document should be directed to the user's national standards body. A complete listing of these bodies can be found at www.iso.org/members.html.
