Contents

Foreword.....	ix
Introduction.....	x
1 Scope.....	1
2 Normative references.....	1
3 Terms and definitions.....	1
4 Symbols and abbreviated terms.....	4
5 Overview of edge computing.....	5
6 Networking and edge computing.....	18
7 Hardware considerations for edge computing.....	20
8 Software technologies for edge computing.....	22
9 Deployment models and service capabilities types and service categories for edge computing.....	25
10 Data in edge computing.....	27
11 Management of edge computing.....	32
12 Virtual placement.....	38
13 Security and privacy in edge computing.....	39
14 Real time in edge computing.....	46
15 Edge computing and mobile devices.....	51
Bibliography.....	53

Foreword.....	v
Introduction.....	vi
1 Scope.....	1
2 Normative references.....	1
3 Terms and definitions.....	1
3.1 Edge computing.....	2
3.2 IoT terms.....	2
3.3 Real time.....	4
4 Symbols and abbreviated terms.....	4
5 Overview of edge computing.....	5
5.1 General.....	5
5.2 Concepts of edge computing.....	6
5.3 Architectural foundations of edge computing.....	7
5.4 The relationship of edge computing to cloud computing.....	9
5.5 The relationship of edge computing to IoT.....	12
6 Networking and edge computing.....	14
6.1 General.....	14

6.1.1	Proximity networks	14
6.1.2	Access networks	14
6.1.3	Services networks	14
6.1.4	User networks	15
6.2	Virtual networks	15
7	Hardware considerations for edge computing	16
7.1	General	16
7.2	Hardware capabilities	16
8	Software technologies for edge computing	17
8.1	General	17
8.2	Software classifications	18
8.2.1	Firmware	18
8.2.2	Platform software	18
8.2.3	Services	18
8.2.4	Applications	19
8.3	Significant software technologies	19
8.3.1	General	19
8.3.2	Virtual machines	19
8.3.3	Containers	20
8.3.4	Serverless computing	20
8.3.5	Microservices	20
9	Deployment models and service capabilities types and service categories for edge computing	21
9.1	Deployment models	21
9.2	Service model capabilities types	21
9.3	Service categories	22
10	Data in edge computing	22
10.1	General	22
10.2	Data flow	22
10.3	Data storage	24
10.4	Data processing	25
11	Management of edge computing	26
11.1	Management and orchestration fundamentals	26
11.2	Management plane, control plane and data plane	27
11.3	Cloud-based management and control of edge tier nodes and device tier devices	30
11.3.1	General	30
11.3.2	Control of services from a device	30
11.3.3	Management of devices and edge nodes from a cloud service	31
11.4	Orchestration and maintenance	32
11.5	Management of data, rights and resources	32
11.6	Security and privacy management	32
12	Virtual placement	32
13	Security and privacy in edge computing	34
13.1	General	34
13.2	Applying foundational security principles	34
13.3	Secure nodes and devices	35
13.4	Connectivity and network security	36
13.5	Organization of security elements	36
13.6	Privacy and personally identifiable information in edge computing	39
14	Real time in edge computing	40
14.1	Overview	40
