English Version

Safety of machinery - Safety requirements for the design and construction of paper making and finishing machines - Part 6: Calender

Sécurité des machines - Exigences techniques de sécurité pour la conception et la construction de machines de fabrication et de finition du papier - Partie 6: Calandre

Sicherheit von Maschinen - Sicherheitstechnische Anforderungen für Konstruktion und Bau von Maschinen der Papierherstellung und Ausrüstung - Teil 6: Kalender

This European Standard was approved by CEN on 4 November 2005.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

EN 1034-6:2005 (E)**Foreword**

This document (EN 1034-6:2005) has been prepared by Technical Committee CEN/TC 198 "Printing and paper machinery - Safety", the secretariat of which is held by DIN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by June 2006, and conflicting national standards shall be withdrawn at the latest by June 2006.

This document has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association, and supports essential requirements of **EU Directive(s)**.

For relationship with EU Directive(s), see informative Annex ZA, which is an integral part of this document.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

SIST EN 1034-6:2006

<https://standards.iteh.ai/catalog/standards/sist/56b9e192-69d0-45a6-b5e8-2cb914a1098a/sist-en-1034-6-2006>

Introduction

This European Standard is a type C standard as stated in EN ISO 12100-1:2003.

The machinery concerned and the extent to which hazards, hazardous situations and events are covered are indicated in the scope of this European Standard.

For machines that have been designed and built according to the provisions of this type C standard, the following stipulation applies: When provisions of this type C standard are different from those which are stated in type A or B standards or from provisions made in EN 1034-1:2000, the provisions of this type C standard take precedence over the provisions of the other standards.

1 Scope

This European Standard applies to calenders intended for use in paper making and finishing and shall be used together with EN 1034-1:2000. It deals with all significant hazards listed in clause 4. Related safety requirements and/or measures are described in clause 5.

It does not cover hazards connected with lifting operations required for changing rolls, inserting reels into the unwinding unit, removal of reels from the winding unit and heating systems for heating calender rolls..

This European Standard is not applicable to calenders that have been manufactured before the date of publication of this standard.

3 Terms and definitions

For the purposes of this document, the terms and definitions given in EN 1034-1:2000, EN ISO 12100-1:2003, and the following terms and definitions apply:

3.1

calender

machine using two or more adjacent rolls for glazing, smoothing, calibrating or embossing of paper, including the winding unit and unwinding unit if fitted, see 3.2

3.2

off-line calender

calender with winding and unwinding unit. An example is illustrated in Figure 1

3.3

on-line calender

calender integrated into a paper making or coating machine. An example is illustrated in Figure 2

3.4

sheet calender

calender used for glazing individual sheets of paper

3.5

lifting platform

lifting device integrated into a calender for people to carry out specific tasks, e.g. web threading, cleaning, maintenance. Often two lifting platforms are provided on the roll stack

4 List of hazards

This clause contains all the significant hazards, as far as they are dealt with in this standard, which are identified by risk assessment in accordance with EN 1050 as significant for this type of machinery and which require action to eliminate or reduce the risk. When carrying out the risk assessment, the machine designer has to check whether the list of hazards in Table 1 is complete and applicable with respect to the particular machine.

Table 1 — List of significant hazards

No. from Table A.1 of EN 1050:1996	Hazards	EN 1034-6:2005	EN 1034-1: 2000
1	Mechanical hazards due to:		
1.1	Crushing hazard	5.16.3; 5.16.4; 5.16.8; 5.16.9; 5.17.3; 5.19.3; 5.19.4; 5.19.5; 5.19.6; 5.19.8; 5.19.9; 5.25; 5.27.1	5.1; 5.3;
1.2	Shearing hazard	5.16.8; 5.19.5; 5.19.8; 5.25	5.1
1.3	Cutting or severing hazard	5.16.8; 5.22.1; 5.22.2; 5.26.2; 5.27.1; 5.27.2	5.11; 5.12
