FOREWORD

This amendment has been prepared by IEC technical committee 61: Safety of household and similar electrical appliances.

The text of this amendment is based on the following documents:

FDIS	Report on voting
61/1876/FDIS	61/1895/RVD

Full information on the voting for the approval of this amendment can be found in the report on voting indicated in the above table.

A bilingual version of this amendment may be issued at a later date.

22 Construction

Add the following subclause:

22.102 Interlock switches which prevent access to **live parts** during **user maintenance** shall be connected in the input circuit and located to prevent unintentional operation.

Compliance is checked by inspection and by applying the test finger of figure 1.

24 Components

24.101 Replace the text by:

Interlock switches which prevent access to **live parts** during **user maintenance** shall

- disconnect all poles unless the secondary circuit is supplied through an isolating transformer;
- have a contact separation which provides full disconnection in accordance with IEC 61058-1.

Compliance is checked by inspection and by measurement.
