FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 4002/I was developed by Technical Committee V ISO/TC 23, Tractors and machinery for agriculture and forestry, and was circulated to the member bodies in March 1977. (standards.iteh.ai)

It has been approved by the member bodies of the following countries 070

iTeh STANDARD PREVIEW (standards.iteh.ai)

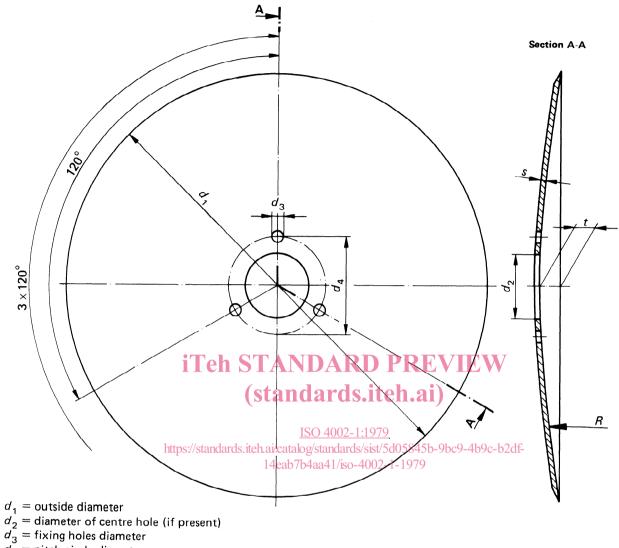

1 SCOPE AND FIELD OF APPLICATION

ISO 4002-1:1979

This International Standard lays down the dimensions of concave disks, with or without central hole, for sowing and planting machines.

14eab7b4aa41/iso-4002-1-1979

2 SPECIFICATIONS

 d_4 = pitch circle diameter

 \vec{t} = height of concavity

R = radius of concavity

s = thickness

FIGURE - Concave disk type D1

TABLE - Dimensions and fixing holes

| Dimensions in millimetres | Dimensions | in | millimetres |
|---------------------------|------------|----|-------------|
|---------------------------|------------|----|-------------|

| Size | d ₁ ± 2 | <i>d</i> ₂ + 0,5 0 | <i>d</i> ₃ | d ₄ * | s | R | t** |
|------|--------------------|-------------------------------------|-----------------------|------------------|-----|-----|-------|
| 1 | 300 | 55 | 9 | 85 | 2,5 | 550 | 20,85 |
| 11 | 350 | | | | | | 28,44 |
| 111 | 400 | 65 | 11 | 90 | 3 | 600 | 34,44 |
| IV | 450 | | | | 4 | | 43,68 |

Fixing hole centre tolerance shall be within 0,2 mm diameter of true position.

NOTE — Tolerance for radius of concavity \pm 5 % of R.

^{**} Dimension t for reference.
