4. Preparation

4.1 All relevant paperwork pertaining to the examinee should be made available to the examiner in ample time for review prior to the examination.

4.2 Only instruments meeting ASTM standards, as a minimum, should be used during the conduct of PDD screening examinations.

4.3 No examination shall be conducted unless the instrument is functioning in accordance with Practice E2063.

4.4 An examiner shall, prior to the examination, dedicate sufficient time to identify the issues and unique circumstances in any area of anticipated testing.

5. Pretest Practices

5.1 The examiner shall adhere to the following practices:

5.1.1 Verify the correct identity of the examinee to the extent possible.

5.1.2 Obtain the consent of the examinee prior to testing.

5.1.3 The examiner shall ensure that the examinee is a fit subject for testing to the extent legally practicable.

5.1.3.1 At any time during the PDD examination that it becomes apparent to the examiner that the examinee is not suitable for testing, the examination will be terminated.

5.2 All screening examinations shall be conducted in compliance with governing local, state, and federal regulations and laws.

5.3 The examiner shall display objectivity.

5.4 Sufficient time shall be spent to discuss the issues to be tested and to allow the examinee to explain his or her position.

5.5 The examiner shall formulate all test questions in compliance with recognized professional practices.

5.6 The examiner shall allow sufficient time to introduce each test question to the examinee in a manner which complies with recognized professional practices.

5.6.1 Sufficient time shall be spent to ensure that the examinee recognizes and understands each question.

5.7 Sufficient time shall be spent to ensure that the examinee understands the PDD process and that cooperation is required.

5.8 Screening examinations shall be audio/visual recorded in their entirety unless precluded by provisions in 5.2.
