| 4.1 Presentation of equipment for testing purposes.....                                                                            | 12 |
| 4.2 Aircraft earth stations .....                                                                                                  | 13 |
| 4.3 Description of equipment .....                                                                                                 | 13 |
| 5 Requirements for AES transmitting in the band 1 610 MHz to 1 626,5 MHz .....                                                     | 14 |
| 5.1 Unwanted emissions limits outside the band 1 610 MHz to 1 626,5 MHz and the band 1 626,5 MHz to 1 628,5 MHz (carrier-on) ..... | 14 |
| 5.1.1 Purpose .....                                                                                                                | 14 |
| 5.1.2 Conformance requirements .....                                                                                               | 14 |
| 5.1.3 Method of test .....                                                                                                         | 15 |
| 5.1.4 Peak measurement .....                                                                                                       | 15 |
| 5.1.5 Average measurement .....                                                                                                    | 16 |
| 5.1.6 Test requirements .....                                                                                                      | 16 |
| 5.2 Unwanted emissions limits within the band 1 610 MHz to 1 626,5 MHz and the band 1 626,5 MHz to 1 628,5 MHz (carrier-on) .....  | 16 |
| 5.2.1 Purpose .....                                                                                                                | 16 |
| 5.2.2 Conformance requirements .....                                                                                               | 16 |
| 5.2.3 Method of test .....                                                                                                         | 18 |
| 5.2.4 Measurement method.....                                                                                                      | 18 |
| 5.2.5 Test requirements.....                                                                                                       | 18 |
| 5.3 EIRP density limits within the operational band .....                                                                          | 19 |
| 5.3.1 Purpose .....                                                                                                                | 19 |
| 5.3.2 Conformance requirements .....                                                                                               | 19 |
| 5.3.3 Method of test .....                                                                                                         | 19 |
| 5.3.4 Peak Limit Test .....                                                                                                        | 19 |
| 5.3.5 Mean Limit Test .....                                                                                                        | 20 |
| 5.3.6 Test requirements.....                                                                                                       | 20 |
| 5.4 Unwanted emissions limits (carrier-off) .....                                                                                  | 20 |
| 5.4.1 Purpose .....                                                                                                                | 20 |
| 5.4.2 Conformance requirements .....                                                                                               | 20 |
| 5.4.3 Method of test .....                                                                                                         | 21 |
| 5.4.4 Peak measurement .....                                                                                                       | 21 |
| 5.4.5 Average measurement.....                                                                                                     | 21 |
| 5.4.6 Test requirements.....                                                                                                       | 22 |
| 5.5 AES Control and Monitoring Functions (CMF).....                                                                                | 22 |
| 5.5.1 Special test equipment .....                                                                                                 | 22 |
| 5.5.2 Self-monitoring functions .....                                                                                              | 22 |
