Important notice

The present document can be downloaded from the
[ETSI Search & Browse Standards](#) application.

The present document may be made available in electronic versions and/or in print. The content of any electronic and/or print versions of the present document shall not be modified without the prior written authorization of ETSI. In case of any existing or perceived difference in contents between such versions and/or in print, the prevailing version of an ETSI deliverable is the one made publicly available in PDF format on [ETSI deliver](#) repository.

Users should be aware that the present document may be revised or have its status changed, this information is available in the [Milestones listing](#).

If you find errors in the present document, please send your comments to the relevant service listed under [Committee Support Staff](#).

If you find a security vulnerability in the present document, please report it through our [Coordinated Vulnerability Disclosure \(CVD\)](#) program.

Notice of disclaimer & limitation of liability

The information provided in the present deliverable is directed solely to professionals who have the appropriate degree of experience to understand and interpret its content in accordance with generally accepted engineering or other professional standard and applicable regulations.

No recommendation as to products and services or vendors is made or should be implied.

No representation or warranty is made that this deliverable is technically accurate or sufficient or conforms to any law and/or governmental rule and/or regulation and further, no representation or warranty is made of merchantability or fitness for any particular purpose or against infringement of intellectual property rights.

In no event shall ETSI be held liable for loss of profits or any other incidental or consequential damages.

Any software contained in this deliverable is provided "AS IS" with no warranties, express or implied, including but not limited to, the warranties of merchantability, fitness for a particular purpose and non-infringement of intellectual property rights and ETSI shall not be held liable in any event for any damages whatsoever (including, without limitation, damages for loss of profits, business interruption, loss of information, or any other pecuniary loss) arising out of or related to the use of or inability to use the software.

Copyright Notification

Intellectual Property Rights	4
Foreword.....	4
Modal verbs terminology.....	4
1 Scope	5
2 References	5
2.1 Normative references	5
2.2 Informative references.....	5
3 Definition of terms, symbols and abbreviations.....	5
3.1 Terms.....	5
3.2 Symbols.....	6
3.3 Abbreviations	6
4 Catalogue of security requirements and related test cases for VIM product.....	6
4.1 Introduction	6
4.2 Security functional requirements and related test cases	6
4.2.1 Introduction.....	6
4.2.2 Security functional requirements deriving from ETSI specifications and related test cases.....	6
4.2.2.1 Verification of VM software image integrity and authenticity during instantiation	6
4.2.2.2 Delegation Mode VNF OAM & VNFCI Public/Private Key Pair Protection During VNF Instantiation.....	7
4.3 Security requirements and related test cases related to hardening.....	9
4.3.1 Introduction.....	9
4.4 Baseline vulnerability testing requirements	11
4.4.1 Introduction.....	11
Annex A (informative): Aspects specific to the network product class VIM	12
A.1 Network product class description for the VIM	12
A.1.1 Introduction	12
A.1.2 Minimum set of functions defining the VIM network product class.....	12
A.2 Assets and threats specific to the VIM.....	12
A.2.1 Critical assets.....	12
A.2.2 Threats related to management procedures	12
A.2.2.1 Compromise of VNF OAM and VNFCI certificate private keys	12
Annex B (informative): Change History	14
History	15
