Important notice

The present document can be downloaded from the
[ETSI Search & Browse Standards](#) application.

The present document may be made available in electronic versions and/or in print. The content of any electronic and/or print versions of the present document shall not be modified without the prior written authorization of ETSI. In case of any existing or perceived difference in contents between such versions and/or in print, the prevailing version of an ETSI deliverable is the one made publicly available in PDF format on [ETSI deliver](#) repository.

Users should be aware that the present document may be revised or have its status changed, this information is available in the [Milestones listing](#).

If you find errors in the present document, please send your comments to the relevant service listed under [Committee Support Staff](#).

If you find a security vulnerability in the present document, please report it through our [Coordinated Vulnerability Disclosure \(CVD\)](#) program.

Notice of disclaimer & limitation of liability

The information provided in the present deliverable is directed solely to professionals who have the appropriate degree of experience to understand and interpret its content in accordance with generally accepted engineering or other professional standard and applicable regulations.

No recommendation as to products and services or vendors is made or should be implied.

No representation or warranty is made that this deliverable is technically accurate or sufficient or conforms to any law and/or governmental rule and/or regulation and further, no representation or warranty is made of merchantability or fitness for any particular purpose or against infringement of intellectual property rights.

In no event shall ETSI be held liable for loss of profits or any other incidental or consequential damages.

Any software contained in this deliverable is provided "AS IS" with no warranties, express or implied, including but not limited to, the warranties of merchantability, fitness for a particular purpose and non-infringement of intellectual property rights and ETSI shall not be held liable in any event for any damages whatsoever (including, without limitation, damages for loss of profits, business interruption, loss of information, or any other pecuniary loss) arising out of or related to the use of or inability to use the software.

Copyright Notification

No part may be reproduced or utilized in any form or by any means, electronic or mechanical, including photocopying and microfilm except as authorized by written permission of ETSI.

The content of the PDF version shall not be modified without the written authorization of ETSI.

The copyright and the foregoing restriction extend to reproduction in all media.

Contents

Intellectual Property Rights	5
Foreword.....	5
Modal verbs terminology.....	5
1 Scope	6
2 References	6
2.1 Normative references	6
2.2 Informative references.....	6
3 Definition of terms, symbols and abbreviations.....	7
3.1 Terms.....	7
3.2 Symbols.....	7
3.3 Abbreviations	7
4 General Aspects.....	7
4.1 Overview	7
4.2 Common Data Types.....	8
4.2.1 Introduction.....	8
4.2.2 Simple data types and enumerations.....	8
4.2.2.1 Introduction.....	8
4.2.2.2 Simple data types	8
4.2.2.3 Enumerations	8
5 Analysis of Existing Data Models.....	9
5.1 Criteria for selecting the optimal policy data model.....	9
5.2 Comparison of the existing data models against the NFV-MANO policy model requirements.....	9
6 Data Model Specifications	10
6.1 Policy.....	10
6.1.1 Introduction.....	10
6.1.2 Properties	10
6.1.3 Definition.....	10
6.2 BasicInformation	11
6.2.1 Introduction.....	11
6.2.2 Properties	11
6.2.3 Definition.....	11
6.3 InstructionElementInformation	12
6.3.1 Introduction.....	12
6.3.2 Properties	12
6.3.3 Definition.....	12
6.4 TargetScopeInformation	12
6.4.1 Introduction.....	12
6.4.2 Properties	12
6.4.3 Definition.....	13
6.5 ExpectedEffectivenessInformation.....	14
6.5.1 Introduction.....	14
6.5.2 Properties	14
6.5.3 Definition.....	14
6.6 State.....	14
6.6.1 Introduction.....	14
6.6.2 Properties	14
6.6.3 Definition.....	15
6.7 Task	15
6.7.1 Introduction.....	15
6.7.2 Properties	15
6.7.3 Definition.....	16
6.8 ContextMap	16
6.8.1 Introduction.....	16

6.8.2	Properties	16
6.8.3	Definition	17
6.9	Context	17
6.9.1	Introduction.....	17
6.9.2	Properties	17
6.9.3	Definition.....	17
6.10	Logic	18
6.10.1	Introduction.....	18
6.10.2	Properties	18
6.10.3	Definition.....	18

Annex A (informative): PlantUML source code19

A.1	Information model definition for policy model.....	19
A.1.1	Relationship UML diagram for policy model (see figure 4.1-1).....	19

Annex B (informative): Analysis on the data model solutions based on the NFV-MANO policy data model requirements20

B.1	TOSCA.....	20
B.1.1	Overview	20
B.1.2	Comparison of NFV-MANO policy data model requirements with TOSCA	20
B.2	YANG	21
B.2.1	Overview	21
B.2.2	Comparison of the basic and optional capabilities of the policy data model with YANG	22
B.3	JSON	23
B.3.1	Overview	23
B.3.2	Comparison of the basic and optional capabilities of the policy data model with JSON	23

Annex C (informative): Examples of how to use Logic to describe ExpectedEffectivenessInformation.....24

C.1	Overview	24
C.2	Using Logic to Describe ExpectedEffectivenessInformation	24

Annex D (informative): Examples.....25

D.1	Policy descriptors design example by using JSON	25
-----	---	----

Annex E (informative): Change history27

History	28
