Important notice

The present document can be downloaded from the
[ETSI Search & Browse Standards](#) application.

The present document may be made available in electronic versions and/or in print. The content of any electronic and/or print versions of the present document shall not be modified without the prior written authorization of ETSI. In case of any existing or perceived difference in contents between such versions and/or in print, the prevailing version of an ETSI deliverable is the one made publicly available in PDF format on [ETSI deliver](#) repository.

Users should be aware that the present document may be revised or have its status changed, this information is available in the [Milestones listing](#).

If you find errors in the present document, please send your comments to the relevant service listed under [Committee Support Staff](#).

If you find a security vulnerability in the present document, please report it through our [Coordinated Vulnerability Disclosure \(CVD\)](#) program.

Notice of disclaimer & limitation of liability

The information provided in the present deliverable is directed solely to professionals who have the appropriate degree of experience to understand and interpret its content in accordance with generally accepted engineering or other professional standard and applicable regulations.

No recommendation as to products and services or vendors is made or should be implied.

No representation or warranty is made that this deliverable is technically accurate or sufficient or conforms to any law and/or governmental rule and/or regulation and further, no representation or warranty is made of merchantability or fitness for any particular purpose or against infringement of intellectual property rights.

In no event shall ETSI be held liable for loss of profits or any other incidental or consequential damages.

Any software contained in this deliverable is provided "AS IS" with no warranties, express or implied, including but not limited to, the warranties of merchantability, fitness for a particular purpose and non-infringement of intellectual property rights and ETSI shall not be held liable in any event for any damages whatsoever (including, without limitation, damages for loss of profits, business interruption, loss of information, or any other pecuniary loss) arising out of or related to the use of or inability to use the software.

Copyright Notification

No part may be reproduced or utilized in any form or by any means, electronic or mechanical, including photocopying and microfilm except as authorized by written permission of ETSI.

The content of the PDF version shall not be modified without the written authorization of ETSI.

The copyright and the foregoing restriction extend to reproduction in all media.

Intellectual Property Rights

Essential patents

IPRs essential or potentially essential to normative deliverables may have been declared to ETSI. The declarations pertaining to these essential IPRs, if any, are publicly available for **ETSI members and non-members**, and can be found in ETSI SR 000 314: "*Intellectual Property Rights (IPRs); Essential, or potentially Essential, IPRs notified to ETSI in respect of ETSI standards*", which is available from the ETSI Secretariat. Latest updates are available on the [ETSI IPR online database](#).

Pursuant to the ETSI Directives including the ETSI IPR Policy, no investigation regarding the essentiality of IPRs, including IPR searches, has been carried out by ETSI. No guarantee can be given as to the existence of other IPRs not referenced in ETSI SR 000 314 (or the updates on the ETSI Web server) which are, or may be, or may become, essential to the present document.

Trademarks

The present document may include trademarks and/or tradenames which are asserted and/or registered by their owners. ETSI claims no ownership of these except for any which are indicated as being the property of ETSI, and conveys no right to use or reproduce any trademark and/or tradename. Mention of those trademarks in the present document does not constitute an endorsement by ETSI of products, services or organizations associated with those trademarks.

DECT™, **PLUGTESTS™**, **UMTS™** and the ETSI logo are trademarks of ETSI registered for the benefit of its Members. **3GPP™**, **LTE™** and **5G™** logo are trademarks of ETSI registered for the benefit of its Members and of the 3GPP Organizational Partners. **oneM2M™** logo is a trademark of ETSI registered for the benefit of its Members and of the oneM2M Partners. **GSM®** and the GSM logo are trademarks registered and owned by the GSM Association.

Legal Notice

This Technical Specification (TS) has been produced by ETSI 3rd Generation Partnership Project (3GPP).

The present document may refer to technical specifications or reports using their 3GPP identities. These shall be interpreted as being references to the corresponding ETSI deliverables.

The cross reference between 3GPP and ETSI identities can be found at [3GPP to ETSI numbering cross-referencing](#).

Modal verbs terminology

In the present document "**shall**", "**shall not**", "**should**", "**should not**", "**may**", "**need not**", "**will**", "**will not**", "**can**" and "**cannot**" are to be interpreted as described in clause 3.2 of the [ETSI Drafting Rules](#) (Verbal forms for the expression of provisions).

"**must**" and "**must not**" are **NOT** allowed in ETSI deliverables except when used in direct citation.

5.5.2.1	Introduction	28
5.5.2.2	Onboard_API_Invoker	29
5.5.2.2.1	General	29
5.5.2.2.2	API Invoker on-boarding itself as a recognized user of CAPIF using the Onboard_API_Invoker service operation	29
5.5.2.3	Offboard_API_Invoker	30
5.5.2.3.1	General	30
5.5.2.3.2	API Invoker off-boarding itself from being a recognized user of CAPIF using the Offboard_API_Invoker service operation	30
5.5.2.4	Notify_Onboarding_Completion	30
5.5.2.4.1	General	30
5.5.2.4.2	Notifying API Invoker's onboarding creation/update completion using Notify_Onboarding_Completion service operation	31
5.5.2.5	Update_API_Invoker_Details	31
5.5.2.5.1	General	31
5.5.2.5.2	API Invoker updating its details on CAPIF using Update_API_Invoker_Details service operation	31
5.5.2.6	Notify_Update_Completion	32
5.5.2.6.1	General	32
5.6	CAPIF_Security_API	32
5.6.1	Service Description	32
5.6.1.1	Overview	32
5.6.2	Service Operations	32
5.6.2.1	Introduction	32
5.6.2.2	Obtain_Security_Method	33
5.6.2.2.1	General	33
5.6.2.2.2	Request service API security method from CAPIF using Obtain_Security_Method service operation	33
5.6.2.3	Obtain_Authorization	33
5.6.2.3.1	General	33
5.6.2.3.2	Obtain authorization using Obtain_Authorization service operation	34
5.6.2.3.3	Void	34
5.6.2.4	Obtain_API_Invoker_Info	34
5.6.2.4.1	General	34
5.6.2.4.2	Obtain API invoker's security information using Obtain_API_Invoker_Info service operation	35
5.6.2.5	Revoke_Authorization	35
5.6.2.5.1	General	35
5.6.2.5.2	Invalidate authorization using Revoke_Authorization service operation	35
5.7	CAPIF_Monitoring_API	35
5.8	CAPIF_Logging_API_Invocation_API	36
5.8.1	Service Description	36
5.8.1.1	Overview	36
5.8.2	Service Operations	36

5.8.2.1	Introduction.....	36
5.8.2.2	Log_API_Invocation_API.....	36
5.8.2.2.1	General.....	36
5.8.2.2.2	Logging service API invocations using Log_API_Invocation service operation.....	36
5.9	CAPIF_Auditing_API.....	37
5.9.1	Service Description.....	37
5.9.1.1	Overview.....	37
5.9.2	Service Operations.....	37
5.9.2.1	Introduction.....	37
5.9.2.2	Query_Invocation_Logs_API.....	37
5.9.2.2.1	General.....	37
5.9.2.2.2	Query API invocation information logs using Query_Invocation_Logs service operation.....	37
5.10	CAPIF_Access_Control_Policy_API.....	38
5.10.1	Service Description.....	38
5.10.1.1	Overview.....	38
5.10.2	Service Operations.....	38
5.10.2.1	Introduction.....	38
5.10.2.2	Obtain_Access_Control_Policy.....	38
5.10.2.2.1	General.....	38
5.10.2.2.2	API exposing function obtaining access control policy from the CAPIF core function using Obtain_Access_Control_Policy service operation.....	38
5.10.3	Related Events.....	38
5.11	CAPIF_API_Provider_Management_API.....	39
5.11.1	Service Description.....	39
5.11.1.1	Overview.....	39
5.11.2	Service Operations.....	39
5.11.2.1	Introduction.....	39
5.11.2.2	Register_API_Provider.....	39
5.11.2.2.1	General.....	39
5.11.2.2.2	API provider domain functions registering as a recognized API provider domain function of CAPIF using Register_API_Provider service operation.....	39
5.11.2.3	Update_API_Provider.....	40
5.11.2.3.1	General.....	40
5.11.2.3.2	API management function updating API provider domain function details on CAPIF using Update_API_Provider service operation.....	40
5.11.2.4	Deregister_API_Provider.....	40
5.11.2.4.1	General.....	40
5.11.2.4.2	API provider domain functions deregistering as a recognized API provider domain function of CAPIF using Deregister_API_Provider service operation.....	40
5.12	CAPIF_Routing_Info_API.....	41
5.12.1	Service Description.....	41
5.12.1.1	Overview.....	41
5.12.2	Service Operations.....	41
5.12.2.1	Introduction.....	41
5.12.2.2	Obtain_Routing_Info.....	41
5.12.2.2.1	General.....	41
5.12.2.2.2	API exposing function obtaining API routing information from the CAPIF core function using Obtain_Routing_Info service operation.....	41
6	Services offered by the API exposing function.....	42
6.1	Introduction of Services.....	42
6.2	AEF_Security_API.....	42
6.2.1	Service Description.....	42
6.2.1.1	Overview.....	42
6.2.2	Service Operations.....	42
6.2.2.1	Introduction.....	42
6.2.2.2	Initiate_Authentication.....	43
6.2.2.2.1	General.....	43
6.2.2.2.2	API invoker initiating authentication using Initiate_Authentication service operation.....	43
6.2.2.3	Revoke_Authorization.....	43
6.2.2.3.1	General.....	43
6.2.2.3.2	CAPIF core function initiating revocation using Revoke_Authorization service operation.....	43

Foreword

This Technical Specification has been produced by the 3rd Generation Partnership Project (3GPP).

The contents of the present document are subject to continuing work within the TSG and may change following formal TSG approval. Should the TSG modify the contents of the present document, it will be re-released by the TSG with an identifying change of release date and an increase in version number as follows:

Version x.y.z

where:

- x the first digit:
 - 1 presented to TSG for information;
 - 2 presented to TSG for approval;
 - 3 or greater indicates TSG approved document under change control.
- y the second digit is incremented for all changes of substance, i.e. technical enhancements, corrections, updates, etc.
- z the third digit is incremented when editorial only changes have been incorporated in the document.
