### About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

### About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigendum or an amendment might have been published.

#### IEC publications search - [webstore.iec.ch/advsearchform](http://webstore.iec.ch/advsearchform)

The advanced search enables to find IEC publications by a variety of criteria (reference number, text, technical committee, ...). It also gives information on projects, replaced and withdrawn publications.

#### IEC Just Published - [webstore.iec.ch/justpublished](http://webstore.iec.ch/justpublished)

Stay up to date on all new IEC publications. Just Published details all new publications released. Available online and once a month by email.

#### IEC Customer Service Centre - [webstore.iec.ch/csc](http://webstore.iec.ch/csc)

If you wish to give us your feedback on this publication or need further assistance, please contact the Customer Service Centre: [sales@iec.ch](mailto:sales@iec.ch).

#### IEC Products & Services Portal - [products.iec.ch](http://products.iec.ch)

Discover our powerful search engine and read freely all the publications previews, graphical symbols and the glossary. With a subscription you will always have access to up to date content tailored to your needs.

#### Electropedia - [www.electropedia.org](http://www.electropedia.org)

The world's leading online dictionary on electrotechnology, containing more than 22 500 terminological entries in English and French, with equivalent terms in 25 additional languages. Also known as the International Electrotechnical Vocabulary (IEV) online.

## CONTENTS

FOREWORD .....	5
INTRODUCTION .....	8
1 Scope .....	9
2 Normative references .....	9
3 Terms and definitions .....	9
4 Requirements for safety .....	12
4.1 Design .....	12
4.2 Quality plan .....	13
5 Type testing and sampling .....	13
5.1 Validity of testing .....	13
5.2 Test samples .....	13
6 Testing and requirements .....	14
6.1 General .....	14
6.1.1 Test application matrix .....	14
6.1.2 Cautionary notice .....	15
6.1.3 Ambient temperature .....	15
6.1.4 Parameter measurement tolerances .....	15
6.1.5 PredischARGE .....	16
6.1.6 Additional cells .....	16
6.2 Evaluation of test criteria .....	16
6.2.1 Short-circuit .....	16
6.2.2 Excessive temperature rise .....	16
6.2.3 Leakage .....	16
6.2.4 Venting .....	16
6.2.5 Fire .....	17
6.2.6 Rupture .....	17
6.2.7 Explosion .....	17
6.3 Tests and requirements – Overview .....	17
6.4 Tests for intended use .....	18
6.4.1 Test A: Altitude .....	18
6.4.2 Test B: Thermal cycling .....	18
6.4.3 Test C: Vibration .....	19
6.4.4 Test D: Shock .....	19
6.5 Tests for reasonably foreseeable misuse .....	20
6.5.1 General .....	20
6.5.2 Test E: External short-circuit .....	20
6.5.3 Test F: Impact .....	20
6.5.4 Test G: Crush .....	21
6.5.5 Test H: Forced discharge .....	22
6.5.6 Test I: Abnormal charging .....	23
6.5.7 Test J: Free fall .....	23
6.5.8 Test K: Thermal abuse .....	24
6.5.9 Test L: Incorrect installation .....	24
6.5.10 Test M: Overdischarge .....	25
6.6 Information to be given in the relevant specification .....	27
6.7 Evaluation and report .....	28

7	Information for safety .....	28
7.1	Safety precautions during design of equipment.....	28
7.1.1	General.....	28
7.1.2	Charge protection.....	28
7.1.3	Parallel connection.....	29
7.2	Precautions during handling of batteries.....	29
7.3	Additional information for safety of coin cells .....	32
7.4	Packaging .....	32
7.5	Handling of battery cartons .....	32
7.6	Transport .....	32
7.6.1	General.....	32
7.6.2	Air transport.....	32
7.6.3	Sea transport .....	32
7.6.4	Land transport.....	33
7.7	Display and storage.....	33
7.8	Disposal.....	33
8	Instructions for use .....	34
9	Marking and packaging .....	34
9.1	General.....	34
9.2	Marking of batteries too small to accommodate all markings .....	34
9.3	Additional requirements for swallowable coin cells and batteries .....	34
9.4	Safety pictograms.....	36
Annex A (informative)	Guidelines for the achievement of safety of lithium batteries .....	37
Annex B (informative)	Guidelines for designers of equipment using lithium batteries .....	39
Annex C (informative)	Additional information on display and storage.....	42
Annex D (informative)	Safety pictograms .....	43
D.1	General.....	43
D.2	Pictograms .....	43
D.3	Instruction for use.....	44
Annex E (normative)	Child resistant packaging of coin cells.....	46
E.1	General.....	46
E.2	Applicability.....	46
E.3	Packaging tests .....	46
E.3.1	General.....	46
E.3.2	Test items .....	47
E.3.3	Test procedure .....	49
E.3.4	Criteria.....	49
Annex F (informative normative)	Use of the KEEP OUT OF REACH OF CHILDREN safety sign .....	51
F.1	General.....	51
F.2	Safety sign .....	51
F.3	<del>Best practices for</del> Marking on the packaging.....	51
F.4	<del>Best practices for</del> Marking on the cell.....	51
Annex G (normative)	Measures against misuse of batteries not intended for consumer replacement.....	52
G.1	Background.....	52
G.2	Additional measures for the prevention of confusion of primary batteries not intended for consumer replacement with secondary batteries .....	52

G.2.1	Identification of primary (non-rechargeable) batteries not intended for consumer replacement .....	52
G.2.2	Marking and information requirements for primary batteries not intended for consumer replacement .....	53
G.2.3	Information responsibility of manufacturers and distributors .....	53

## INTERNATIONAL ELECTROTECHNICAL COMMISSION

## PRIMARY BATTERIES –

## Part 4: Safety of lithium batteries

## FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as "IEC Publication(s)"). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC itself does not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. IEC is not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) IEC draws attention to the possibility that the implementation of this document may involve the use of (a) patent(s). IEC takes no position concerning the evidence, validity or applicability of any claimed patent rights in respect thereof. As of the date of publication of this document, IEC had not received notice of (a) patent(s), which may be required to implement this document. However, implementers are cautioned that this may not represent the latest information, which may be obtained from the patent database available at <https://patents.iec.ch>. IEC shall not be held responsible for identifying any or all such patent rights.

**This commented version (CMV) of the official standard IEC 60086-4:2025 edition 6.0 allows the user to identify the changes made to the previous IEC 60086-4:2019 edition 5.0. Furthermore, comments from IEC TC 35 experts are provided to explain the reasons of the most relevant changes, or to clarify any part of the content.**

**A vertical bar appears in the margin wherever a change has been made. Additions are in green text, deletions are in strikethrough red text. Experts' comments are identified by a blue-background number. Mouse over a number to display a pop-up note with the comment.**

**This publication contains the CMV and the official standard. The full list of comments is available at the end of the CMV.**
