About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigendum or an amendment might have been published.

IEC publications search -

webstore.iec.ch/advsearchform

The advanced search enables to find IEC publications by a variety of criteria (reference number, text, technical committee, ...). It also gives information on projects, replaced and withdrawn publications.

IEC Just Published - webstore.iec.ch/justpublished

Stay up to date on all new IEC publications. Just Published details all new publications released. Available online and once a month by email.

IEC Customer Service Centre - webstore.iec.ch/csc

If you wish to give us your feedback on this publication or need further assistance, please contact the Customer Service Centre: sales@iec.ch.

IEC Products & Services Portal - products.iec.ch

Discover our powerful search engine and read freely all the publications previews, graphical symbols and the glossary. With a subscription you will always have access to up to date content tailored to your needs.

Electropedia - www.electropedia.org

The world's leading online dictionary on electrotechnology, containing more than 22 500 terminological entries in English and French, with equivalent terms in 25 additional languages. Also known as the International Electrotechnical Vocabulary (IEV) online.

A propos de l'IEC

La Commission Electrotechnique Internationale (IEC) est la première organisation mondiale qui élabore et publie des Normes internationales pour tout ce qui a trait à l'électricité, à l'électronique et aux technologies apparentées.

A propos des publications IEC

Le contenu technique des publications IEC est constamment revu. Veuillez vous assurer que vous possédez l'édition la plus récente, un corrigendum ou amendement peut avoir été publié.

Recherche de publications IEC -

webstore.iec.ch/advsearchform

La recherche avancée permet de trouver des publications IEC en utilisant différents critères (numéro de référence, texte, comité d'études, ...). Elle donne aussi des informations sur les projets et les publications remplacées ou retirées.

IEC Just Published - webstore.iec.ch/justpublished

Restez informé sur les nouvelles publications IEC. Just Published détaille les nouvelles publications parues. Disponible en ligne et une fois par mois par email.

Service Clients - webstore.iec.ch/csc

Si vous désirez nous donner des commentaires sur cette publication ou si vous avez des questions contactez-nous: sales@iec.ch.

IEC Products & Services Portal - products.iec.ch

Découvrez notre puissant moteur de recherche et consultez gratuitement tous les aperçus des publications, symboles graphiques et le glossaire. Avec un abonnement, vous aurez toujours accès à un contenu à jour adapté à vos besoins.

Electropedia - www.electropedia.org

Le premier dictionnaire d'électrotechnologie en ligne au monde, avec plus de 22 500 articles terminologiques en anglais et en français, ainsi que les termes équivalents dans 25 langues additionnelles. Egalement appelé Vocabulaire Electrotechnique International (IEV) en ligne.

CONTENTS

FOREWORD	5
INTRODUCTION	7
1 Scope	9
2 Normative references	9
3 Terms, definitions and abbreviated terms	11
3.1 Terms and definitions	11
3.2 Abbreviated terms	22
4 Configuration of the fuel cell power system	22
4.1 Fuel cell power system definition	22
4.2 Subsystems of the fuel cell power system	23
4.3 FCPS power distribution	23
4.4 Typical state of a fuel cell power system	24
5 Environmental requirements	24
5.1 General	24
5.2 Specific use case	25
5.2.1 Rooftop installation	25
5.2.2 Tunnel	25
5.2.3 Performance limitation at low and high ambient temperature	26
5.2.4 Performance limitation at high altitude	26
6 Interface requirements	26
6.1 General	26
6.2 Fluidic interfaces	27
6.2.1 Fuel supply	27
6.2.2 Oxidant supply	27
6.2.3 Coolant	27
6.2.4 Air inlets	27
6.2.5 Exhaust	28
6.3 Electrical interfaces	28
6.3.1 General	28
6.3.2 Main power interface	28
6.3.3 Auxiliary supply and communication interfaces	29
7 Performance requirements	29
7.1 General	29
7.2 Fuel cell power system sizing	29
7.3 Load profile	30
7.4 Operational requirements	30
7.4.1 Normal mode requirements	30
7.4.2 Degraded mode requirements	30
7.5 Electric efficiency and hydrogen consumption calculations	30
7.6 Lifetime requirements	31
7.7 End-of-life performance	31
7.8 Voltage stability	32
8 Design requirements	32
8.1 General	32
8.2 FCPM requirements	32
8.3 FMS requirements	32

8.3.1	Design requirement	32
8.3.2	Functional requirement	34
8.4	OMS requirements	34
8.4.1	General	34
8.4.2	Non-metallic piping	34
8.4.3	Overpressure	34
8.4.4	Oxidant quality and filtering device	34
8.5	TMS requirements	35
8.5.1	Design requirements	35
8.5.2	Functional requirements	36
8.6	ExMS requirements	37
8.6.1	Hydrogen release	37
8.6.2	Waste water	37
8.7	EPMS requirements	37
8.7.1	General	37
8.7.2	Cabling	37
8.7.3	Ripple current	37
8.7.4	Electric power input	38
8.7.5	Auxiliary motors	38
8.7.6	Light maintenance operation	38
8.8	MCS requirements	38
8.8.1	Hardware	38
8.8.2	Software	38
8.9	Mechanical requirements	39
8.9.1	Mechanical integration	39
8.9.2	Mechanical design	39
8.9.3	Bolted assemblies	39
8.9.4	Degree of protection	40
8.9.5	Shock and vibration	40
8.10	Recyclability requirements	40
8.11	Documentation	40
8.12	Other	41
8.12.1	Noise emission requirements	41
8.12.2	EMC requirements	42
9	Safety, reliability and protection requirements	42
9.1	Reliability	42
9.2	Safety	42
9.2.1	Safety analysis	42
9.2.2	Hazard identification	43
9.2.3	Prevention for maintenance operation and storage	43
9.2.4	Hydrogen risk management	44
9.2.5	Fire, smoke, flammability	45
9.2.6	Electrical shock	45
9.2.7	Software	45
10	Marking and labelling	46
10.1	Safety signs	46
10.1.1	FCPS enclosure	46
10.1.2	Other places inside the FCPS enclosure	46
10.2	Nameplate	46

10.2.1	FCPS enclosure	46
10.2.2	Nameplates on sub-assemblies inside the box	47
11	Installation and maintenance	47
11.1	General	47
11.2	Installation	47
11.3	Maintenance	47
11.3.1	General	47
11.3.2	Maintenance accessibility	47
11.3.3	Technical documentation	47
12	FCPS storage and transportation conditions	49
12.1	General	49
12.2	Transportation	49
12.3	Storage	49
13	Testing	49
13.1	General	49

13.3	Parameter measurement tolerances	49
13.4	Reference conditions of tests	50
13.4.1	Installation and operating conditions of the system	50
13.4.2	Quality of hydrogen	50
13.4.3	Quality of power input	50
13.5	Type test	50
13.5.1	General	50
13.5.2	Visual checks	50
13.5.3	Mass	50
13.5.4	Communication network test	50
13.5.5	Dielectric voltage strength test	51
13.5.6	Insulation impedance (optional)	51
13.5.7	Sub-equipment functional tests (optional)	51
13.5.8	Operating test for stabilized operations	51
13.5.9	Operating test for dynamic operations	51
13.5.10	Polarization curve test	51
13.5.11	Load profile test	51
13.5.12	Hydrogen leakage test	52
13.5.13	Ultimate strength pressure test	52
13.5.14	Flammable concentration test	52
13.5.15	Thermal rising test	52
13.5.16	Endurance test (optional)	52
13.5.17	Safety test in abnormal conditions	53
13.5.18	Hydrogen emissions	53
13.5.19	Environmental tests	53
13.5.20	Acoustic noise emissions	54
13.5.21	EMC test	55
13.5.22	Type tests at component level (optional)	55
13.6	Routine test	55
13.6.1	Visual checks	55
13.6.2	Communication network test	55
13.6.3	Dielectric test	55
13.6.4	Insulation impedance test (optional)	55

13.6.5	Normal operation test	55
13.6.6	Hydrogen leakage test.....	56
13.6.7	Overpressure test.....	56
Annex A (informative)	Datasheet template	57
Annex B (informative)	Local laws, regulations and standards applicable	60

INTERNATIONAL ELECTROTECHNICAL COMMISSION

**Railway applications -
Hydrogen and fuel cell systems for rolling stock -
Part 1: Fuel cell power system**

FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as "IEC Publication(s)"). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC itself does not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. IEC is not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) IEC draws attention to the possibility that the implementation of this document may involve the use of (a) patent(s). IEC takes no position concerning the evidence, validity or applicability of any claimed patent rights in respect thereof. As of the date of publication of this document, IEC had not received notice of (a) patent(s), which may be required to implement this document. However, implementers are cautioned that this may not represent the latest information, which may be obtained from the patent database available at <https://patents.iec.ch>. IEC shall not be held responsible for identifying any or all such patent rights.

IEC 63341-1 has been prepared by IEC technical committee 9: Electrical equipment and systems for railways. It is an International Standard.

The text of this International Standard is based on the following documents:

Draft	Report on voting
9/3212/FDIS	9/3254/RVD

Full information on the voting for its approval can be found in the report on voting indicated in the above table.

The language used for the development of this International Standard is English.
