

# TECHNICAL REPORT

---

**Electrical insulation systems – Procedures for thermal evaluation –  
Part 2: Selection of the appropriate test method for evaluation and classification  
of electrical insulation systems**

### About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

### About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigendum or an amendment might have been published.

#### IEC publications search -

[webstore.iec.ch/advsearchform](http://webstore.iec.ch/advsearchform)

The advanced search enables to find IEC publications by a variety of criteria (reference number, text, technical committee, ...). It also gives information on projects, replaced and withdrawn publications.

#### IEC Just Published - [webstore.iec.ch/justpublished](http://webstore.iec.ch/justpublished)

Stay up to date on all new IEC publications. Just Published details all new publications released. Available online and once a month by email.

#### IEC Customer Service Centre - [webstore.iec.ch/csc](http://webstore.iec.ch/csc)

If you wish to give us your feedback on this publication or need further assistance, please contact the Customer Service Centre: [sales@iec.ch](mailto:sales@iec.ch).

#### IEC Products & Services Portal - [products.iec.ch](http://products.iec.ch)

Discover our powerful search engine and read freely all the publications previews, graphical symbols and the glossary. With a subscription you will always have access to up to date content tailored to your needs.

#### Electropedia - [www.electropedia.org](http://www.electropedia.org)

The world's leading online dictionary on electrotechnology, containing more than 22 500 terminological entries in English and French, with equivalent terms in 25 additional languages. Also known as the International Electrotechnical Vocabulary (IEV) online.

## CONTENTS

|                                                                                                                                 |    |
|---------------------------------------------------------------------------------------------------------------------------------|----|
| FOREWORD.....                                                                                                                   | 2  |
| INTRODUCTION .....                                                                                                              | 4  |
| 1 Scope.....                                                                                                                    | 6  |
| 2 Normative references.....                                                                                                     | 6  |
| 3 Terms and definitions.....                                                                                                    | 6  |
| 4 General .....                                                                                                                 | 6  |
| 4.1 Purpose of the evaluation .....                                                                                             | 6  |
| 4.2 Test stresses .....                                                                                                         | 6  |
| 5 Test methods for the evaluation and classification of an EIS .....                                                            | 6  |
| Bibliography.....                                                                                                               | 10 |
| Table 1 – Overview of EIS evaluations for background and structure of the series.....                                           | 7  |
| Table 2 – For evaluation of test objects or materials prior to the start of long-term thermal ageing using screening tests..... | 8  |
| Table 3 – Test standards for the evaluation of thermal stresses in air .....                                                    | 8  |
| Table 4 – Standards for special environmental applications other than in air.....                                               | 9  |
| Table 5 – Standards for the modification of an established EIS.....                                                             | 9  |
